<p>Indiana Family and Social Services Administration (FSSA) offers a number of different programs and services under Indiana Health Coverage Programs (IHCP). Each IHCP member is issued a number referred to as the member ID assigned by FSSA Division of Family Resources (DFR). The type of card received depends on the IHCP program in which the member is enrolled. Providers are required to verify member eligibility on the date of service via the Provider Healthcare Portal. Providers that fail to verify eligibility are at risk of claims being denied due to member ineligibility or coverage limitations.</p>	<p>Viewing a member ID card alone does not ensure member eligibility.</p> <ul style="list-style-type: none"> • Hoosier Health Cards are issued by FSSA DFR • Hoosier Care Connect members receive member ID cards from their individual managed care entities (MCEs): Anthem or MHS • Hoosier Healthwise members receive member ID cards from their individual MCEs: Anthem, CareSource, MHS, and MDwise. <p>Package A (Medicaid) and C (CHIP) are NOT listed on the cards and can only be determined via the Provider Healthcare Portal.</p>

Eligibility for Publicly Funded Vaccines Reference Guide (effective Feb. 1, 2025) for:
 Vaccines for Children (VFC) providers, Adult Vaccine Program (AVP) providers, and Electronic Medical Record (EMR) contacts

Patient Status (<19 years old)	Eligible for Public Vaccine	IIS Eligibility Category Selection	IIS Eligibility Code and Description	IIS Funding Source and Description	Billing
Private insurance • Child is less than 19 years old • Enrolled in private insurance plan	No	Ineligible for VFC/private insurance	V01 Ineligible for VFC/private insurance	PHC70	• Bill according to plan guidelines

Other considerations for patients that are <19 years old

Child's Insurance Status	VFC Eligible?	VFC Eligibility Category
Has private health insurance plan with Medicaid as secondary insurance	YES	Medicaid
Has health insurance covering all vaccines, but has not yet met plan's deductible or paid for other services received at visit AND has Medicaid as secondary insurance	YES	Medicaid
Has private health insurance that covers all vaccinations and is American Indian/Alaskan Native (AI/AN)	YES	AI/AN. However, provider should choose the eligibility category that is most cost-effective for the child and family.
Has Medicaid and is American Indian/Alaskan Native (AI/AN)	YES	Medicaid or AI/AN. Provider should use Medicaid for the administration fee because this provides the least out-of-pocket expense for the family
Has an insurance plan that does not cover all ACIP-recommended vaccines	YES	Underinsured. Child can only receive vaccines not covered by the plan.

Has health insurance covering all vaccines, but has not yet met the plan's deductible or paid for other services received at visit	NO	Insured. This applies even when the primary insurer would deny reimbursement for the cost of the vaccine and its administration because the plan's deductible has not been met.
Has health insurance covering all vaccines, but the plan has a fixed dollar limit or cap on amount it will cover	Depends	No - Insured until the fixed dollar limit is met Yes - Underinsured after the fixed dollar limit is reached

Eligibility for Publicly Funded Vaccines Reference Guide (effective Feb. 1, 2025) for:
 Vaccines for Children (VFC) providers, Adult Vaccine Program (AVP) providers, and Electronic Medical Record (EMR) contacts

Patient Status (≥19 years old)	Eligible for Public Vaccine	IIS Eligibility Category Selection	IIS Eligibility Code and Description	IIS Funding Source and Description	Billing

Uninsured or underinsured adult (new as of Jan. 31, 2025) <ul style="list-style-type: none"> Adult is 19 years or older Receiving care at a facility enrolled in the Indiana Adult Vaccine Program Does not have insurance Has private or public insurance but insurance does not cover the vaccine 	Yes	317	V07 -317 or V23 - State program eligibility	VXC52	<ul style="list-style-type: none"> Cannot bill for cost of vaccine Can bill administration fee up to \$20.32 per vaccine dose May issue only a single bill within 90 days Cannot send to collections for unpaid administration fee

Eligibility for Publicly Funded Vaccines Reference Guide (effective Feb. 1, 2025) for:
 Vaccines for Children (VFC) providers, Adult Vaccine Program (AVP) providers, and Electronic Medical Record (EMR) contacts

Note to electronic medical record (EMR) vendors:

Currently, Indiana allows sending VFC and 317 Adult Vaccine Program Eligibility at the dose level and the patient level. Dose level eligibility is specified in the OBX segment and patient level is in the PV1 segment. CHIRP will automatically decrement from inventory when this code is sent and the vaccine details (CVX, manufacturer, expiration date etc.) matches the inventory.

Communicating at the dose level: Dose-level information is recorded in individual OBX segments that have a parent RXA segment. The basic format is a question (OBX-3) and an answer (OBX-5).

Recording eligibility at the dose level:

Vaccine Funding Program Eligibility Category —Use in OBX-3 to indicate that OBX-5 will contain the VFC eligibility category for a given immunization.	
Code	Label
64994-7	Vaccine funding program eligibility category

Communicating at the patient level: Patient-level information is recorded in PV1-20 segment
