State Health Commissioner

September 2022

Dear VFC Provider:

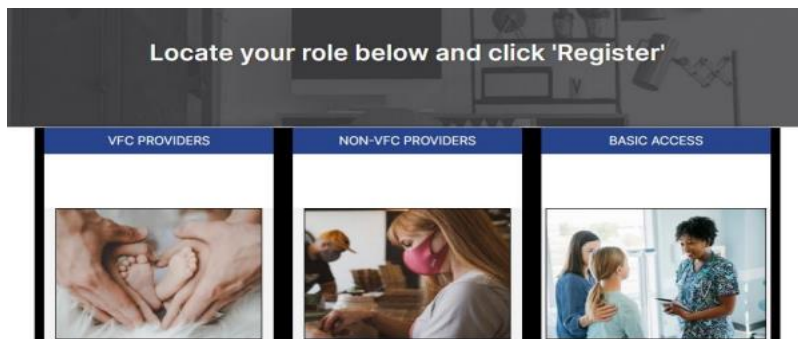

We are excited to welcome you to the newly updated Indiana Department of Health (IDOH), INvest: Learning Management System (LMS). Training is an important part of what makes our immunization program and our providers a success.

Please make time to log in and have a look around. The INvest platform can be accessed through CHIRP, the Indiana Immunization Registry, and then selecting, Dashboard, followed by STC/U or, by clicking on the blue banner located on the CHIRP Homepage.

In addition, the LMS allows education anytime and anywhere, allowing the learner to earn certificates, badges for various milestones, and the tracking of continuing education hours.

Users will notice there are now three new descriptions indicating specific roles with online modules assigned or recommended based upon role description. This new addition will make locating learning modules easier for the user while saving time.

To **promote**, **protect**, and **improve** the health and safety of all Hoosiers.

Finding your way around the LMS is very user friendly, but an INvest Navigational Guide has been developed and made available to you at the IDOH website at this link:

<https://www.in.gov/health/immunization/files/Course-Navigation-Instructions-INvest-v2.pdf>

To make it easier for you to participate and track your learning and development, we have moved our much-demanded **Immunizations from A to Z** to the online learning platform. (See attached flyer) We are excited to offer this training to you through the LMS and believe you will be impressed with this well-designed and easy-to-use learning experience.

We want to help you grow your skills and encourage you to utilize the INvest LMS with unlimited learning on your schedule! For questions, please contact our training team.

Sincerely,

Sharon R. Griffin
LMS Administrator, IDOH
