# Administration & Storage of the **Purple Cap** Pfizer Vaccine

## Dilute with **1.8 ml** of sterile 0.9% Sodium Chloride

### Ultra-Cold Storage

-90 to -60 Celsius  
-130 to -76 Fahrenheit

I can stay here until my printed or revised expiration date.

### Medical Freezer

-25 to -15 Celsius  
-13 to 5 Fahrenheit

I can stay here for a total of 14 days. I can go back to Ultra-Cold Storage one time.

My time in this freezer cannot exceed 14 total days. This includes time spent in transport.

**After 14 days the vaccine must be thawed or discarded.**
