LTC Update:

- **Document Revision**

Document Revision

Due to the responses and feedback regarding recent guidance documents the LTC Toolkit is temporarily being removed from the website and we are pausing on the most recent Visitation Guidelines and Response to COVID-19 Vaccination that was updated on August 18, 2021. Review for clear and consistent guidance will be done over the next week and then the LTC Toolkit will be re-posted. Continue to follow guidance from Centers for Disease Control and Prevention (CDC) and Centers for Medicare & Medicaid Services (CMS).

The following guidance documents will remain on the website:

[COVID-19 LTC Facility Infection Control Guidance Standard Operating Procedure – August 11, 2021](#)

[Adjunct IDOH Guidance: LTC Facilities Guidelines in Response to COVID-19 Vaccination – July 29, 2021](#)
