FORM APPROVED

OMB NO. 0938-0391

(1) The supervisor must be one (1) of the following:

(A) A dietitian.

(B) A graduate or student enrolled in and within one (1) year from completing a division approved, minimum ninety (90) hour classroom instruction course that provides classroom instruction in food service supervision who has a minimum of one (1) year of experience in some aspect of institutional food service management.

(C) A graduate of a dietetic technician program approved by the American Dietetic Association.

(D) A graduate of an accredited college or university or within one (1) year of graduating from an accredited college or university with a degree in foods and nutrition or food administration with a minimum of one (1) year of experience in some aspect of food service management.

(E) An individual with training and experience in food service supervision and management.

(2) If the supervisor is not a dietitian, a dietitian shall provide consultant services on the premises at peak periods of operation on a regularly scheduled basis.

(3) Food service staff shall be on duty to ensure proper food preparation, serving, and sanitation.

Cook 2 was re-educated on 7/10/2023 by the Care Services Manager (CSM) to ensure pureed foods are prepared according to recipes.

2 How the facility will identify other residents having the potential to be affected by the same deficient practice and what corrective action will be taken:

An observational audit of kitchen was completed on 7/10/2023 by the CSM to ensure pureed foods are prepared according to recipes. No concerns identified.

3 What measure will be put into place or what systemic changes the facility will make to ensure that the deficient practice does not recur:

Current kitchen staff will be re-educated by 7/27/2023 by the Executive Director (ED) ensure pureed foods are prepared

Based on observation, interview and record review, the facility failed to ensure the kitchen staff knew how to prepare pureed foods according to recipes for 1 of 1 resident who received a pureed diet. (Resident 8)

Finding includes:

During an observation of the kitchen, on 6/26/23 at 4:31 p.m., Cook 2 was observed to put one scoop of beef pot pie into a kitchen blender. She had a container of warm water and was getting ready to pour the warm water on top of the beef pot pie in the blender. Cook 2 indicated she did not follow a recipe and she was shown to prepare the pureed food by adding water to it. There were no recipes for pureed foods in the kitchen. The Care Services Manager was present and indicated she would see if she could find a recipe.

A recipe, titled "Pureed Chili/Stew," not dated and received from the Care Services Manager, on 6/26/23 at 5:20 p.m., indicated for one serving to include one cup of chili or stew and one tablespoon of nectar thick water. Puree the chili or stew in the blender until smooth in texture. Add nectar thick water. Process briefly until mixed.

During an interview, on 6/26/23

according to recipes.

4 How the corrective action(s) will be monitored to ensure the deficient practice will not recur, i.e., what quality assurance program will be put into place:

Effective 7/27/2023, the ED or designee will complete observational audits of the kitchen to ensure pureed foods are prepared according to recipes. The observational audits and will occur weekly for four weeks, biweekly for four weeks, then monthly for one month. Audits will be reviewed at monthly QI meeting. The QI Committee will determine if continued interviews are necessary based on 3 consecutive months of compliance. Monitoring will be on-going.

5 By what date the systemic changes will be completed

Completion date: 7/27/2023

at 5:21 p.m., the Care Services Manager indicated the facility did not have nectar thick water and did not have any type of thickening agent to use for pureed foods. The recipe for pureed chili/stew was the closet recipe she could find for the beef pot pie puree.

The record for Resident 8 was reviewed on 6/27/23 at 3:11 p.m. Diagnoses included, but were not limited to, Parkinson's disease, esophageal spasms, and chronic kidney disease.

A physician's order, dated 3/19/21, indicated a mechanical soft, pureed diet and thin liquids.

The resident had the following weights:

a. January 2023, the weight was 138 pounds.

b. March 2023, the weight was 136 pounds.

c. April 2023, the weight was 128 pounds.

d. June 2023, the weight was 127 pounds.

During an interview, on 6/27/23 at 3:45 p.m., the Executive Director indicated the facility did not have a policy for pureed foods. The resident was able to choose between a mechanical soft diet and pureed diet due to

his esophageal spasms.

Based on observation, interview and record review, the facility failed to ensure the kitchen staff knew how to prepare pureed foods according to recipes for 1 of 1 resident who received a pureed diet. (Resident 8)
