Based on interview and record review, the facility failed to ensure Qualified Medication Aides (QMA) administered medications within their scope of practice for 1 of 3 residents reviewed for medication administration. (Resident C) Findings include: During an interview on 8/18/22 at 12: 40 p.m., QMA 3 indicated she was not qualified to administer Trulicity (injection for diabetes) because it had to be administered by a nurse. During an interview on 8/18/22 at 1:48 p.m., QMA 3 indicated the nurse was readily available to administer the medications that she was not qualified to administer. Resident C's clinical record was reviewed on 8/18/22 at 3:40 p.m. Diagnoses included, but were not limited to diabetes type II, chronic kidney disease, and hypertension. Medications included, but were not limited to, Trulicity INJ (diabetes medication) 1.5	R 0240	1) Resident C's medications are being administered by a Qualified Medication Aide (QMA") 2) The Community reviewed each resident's record to determine residents, if any, could be affected by the alleged deficient practice. 3) The Community in-serviced QMA's and nurses on administering medications within their scope of practice. Additionally, QMA's will no longer be permitted to administer non-insulin injections. QMA's were in-serviced 8/18/22 and again 9/9/22. 4) The Wellness Director or designee will monitor to ensure QMA's are administering medications within their scope of practice. DON or designee to observe a med pass 1 x monthly for the next 6 months to ensure deficient practice does not reoccur. DON or designee will also review new orders for the next 6 months to ensure deficient practice does not reoccur. 5) Changes were corrected 8/18/22.	08/18/2022

milligram/0.5 milliliters inject one pen subcutaneously weekly.

Review of the resident's service plan, dated 5/5/22, indicated the residents medications were to be provided by the nurse according to physician orders.

The Medication Administration Record reviewed dated July 2022 and August 2022 indicated QMA 3 administered Trulicity injections to Resident C on the following dates: 7/7/2022, 7/21/2022 and 8/4/2022.

During an interview on 8/18/22 at 4:24 p.m., Licensed Practical Nurse 5 indicated she was unaware if a QMA could administer Trulicity injections (diabetes medication). She deferred to the DON.

During an interview on 8/18/22 at 4:25 p.m., the Director of Nursing (DON) indicated it was not appropriate for QMA's to administer Trulicity injections.

During an interview on 8/18/22 at 4:31 p.m., the DON indicated on the date of the survey QMA 3 informed her she had been administering Trulicity injections prior to this date. She denied any knowledge of this practice prior to 8/18/22 and did not recognize QMA 3 had administered Trulicity injections until QMA 3 brought it to her attention. The QMA's had not asked her to administer the

Trulicity prior to 8/18/22.

During an interview on 8/18/22 at 4:43 p.m., the Administrator indicated Trulicity injections were easier to administer than insulin and she did not understand why QMA's could not administer Trulicity. A request for a policy related to QMA administration of injectable medications other than insulin was made at this time.

During an interview on 8/18/22 at 4:48 p.m., the Administrator indicated the facility did not have a policy regarding the QMA's administration of injectable medications other than insulin because they did not administer other injectable medications. The facility followed the Indiana State Board of Health regulations for medications that can be administered by a QMA. A request was made for any additional certification or education completed by QMA 3 for administration of injectable medications. The QUALIFIED MEDICATION AIDE Scope of Practice document from the employee file indicated the following: "All LPN's and QMA's in Indiana must review and sign this scope of practice" The form contained QMA 3's name but lacked her signature and date acknowledging of the scope of practice for QMA's.
