emergency fire conditions, except that the movement of nonambulatory residents to safe areas or to the exterior of the building is not required. Drills shall be conducted quarterly on each shift to familiarize all facility personnel with signals and emergency action required under varied conditions. At least twelve (12) drills shall be held every year. When drills are conducted between 9 p.m. and 6 a.m., a coded announcement may be used instead of audible alarms. (2) At least every six (6) months, a facility shall attempt to hold the fire and disaster drill in conjunction with the local fire department. A record of all training and drills shall be documented with the names and signatures of the personnel present. Based on record review and interview, the facility failed to invite the local fire department to participate in scheduled fire drills at least every six months. This had the potential to affect all 59 residents residing in the facility. Finding includes: The fire drills were reviewed on 8/15/23. The monthly fire drills were completed as required, however there was no indication the local fire department was invited to attend any of the drills. Interview with the Maintenance Director, on 8/15/23 at 11:15		and disaster drill via email, the email will be printed and kept in a binder with the record of all training and drills and documentation of names and signatures of personnel present. Next fire drill with invite for fire department to be held on 9/19/2023. Person Responsible: Maintenance Director, ED Due Date: 9/19/2023

The nurse observed making a potential medication error has been educated on the 5 rights of medication administration and given a coachable moment that has been placed in her HR record. How Will Recurrence Be Prevented? The DON or designee will conduct med-pass observations routinely on all staff responsible for administering medications.	10/01/2023

medication administration.
(Resident 7)

Finding includes:

On 8/15/23 at 9:36 a.m., LPN 1 was observed preparing medications for Resident 7. The LPN popped out 1 memantine (dementia medication) 10 mg (milligram) pill from two different medication cards labeled memantine 10 mg. The medication cup included 2 memantine 10 mg pills. Interview with the LPN after she had finished preparing the resident's medications indicated the resident's order was for 1 memantine 10 mg pill twice a day and she shouldn't have popped out 2 of the pills in the cup. She then proceeded to remove one of the memantine pills from the cup.

Record review for Resident 7 was completed on 8/15/23 at 11:30 a.m. The August 2023 Physician's Order Summary indicated the resident was to receive memantine 10 mg twice a day.

Interview with the Director of Nursing on 8/15/23 at 11:45 a.m., indicated she would address the potential medication error with the LPN. The LPN was new to the facility and was supposed to be in orientation with another nurse.

Based on observation, record

Written documentation of findings up to and including education and disciplinary action will be kept in a binder for review. These audits will continue routinely for 6 months. Each employee will then have an observation completed annually with their yearly evaluation prior to any merit increase. All staff will have their initial observation completed by 10/1/2023.

Person
Responsible: DON or designee

sauce, a tossed salad, and garlic bread.

On 8/16/23 at 8:40 a.m., residents were observed eating breakfast in Main Dining Room. The breakfast meal was pancakes with strawberries and bacon.

The weekly menu, approved by the Registered Dietician (RD) and provided by the Administrator, indicated the lunch meal for 8/15/23 was honey dijon pork cutlet, orzo florentine, roasted fresh beets, bread or roll, and fruity oat bar. The breakfast meal for 8/16/23 was cheddar egg potato bake, toast, seasonal fruit, and hot or cold cereal.

A weekly menu, provided by the Administrator upon entrance conference, indicated the lunch meal for 8/15/23 was spaghetti and meat sauce, garlic bread, tossed salad, and applesauce. The breakfast meal for 8/16/23 was pancakes with fresh berries and bacon.

Interview with the Administrator on 8/16/23 at 10:50 a.m., indicated the weekly menu she had provided at entrance conference was created by the Culinary Director. She was not aware it was different from the menu approved by the RD and that the RD approved menu was not being followed. The Culinary

of lower extremities. The resident was admitted to the facility on 7/9/20.

There was a lack of documentation to indicate the resident had received any annual TB testing or screening.

Interview with the Director of Nursing (DON) on 8/16/23 at 11:06 a.m., indicated she was unable to provide documentation any TB tests or screening had been completed on the resident. The prior company did not require this testing, just an chest x-ray.

3. Record review for Resident 5 was completed on 8/15/23 at 11:12 a.m. Diagnoses included, but were not limited to, dementia and diabetes mellitus. The resident was admitted to the facility on 6/10/23.

The resident had a chest x-ray completed on 3/17/23.

The record lacked any documentation a tuberculin test on or prior to admission was completed. There was no documentation to indicate a risk assessment for tuberculosis had been completed.

4. Record review for Resident 6 was completed on 8/15/23 at 2:09 p.m. Diagnoses included, but were not limited to, dementia. The resident was admitted to the facility on

6/16/19.

The record lacked any documentation an annual tuberculin test or risk assessment for tuberculosis had been completed.

Interview with the Dementia Care Coordinator on 8/16/23 at 10:46 a.m., indicated she was unable to provide any documentation for the tuberculin testing or risk assessments had been completed for Residents 5 and 6.

Based on record review and interview, the facility failed to ensure residents received annual and admission tuberculosis (TB) tests or screenings for 7 of 7 residents reviewed for annual and/or admission TB test or screenings. (2, 8, 3, 6, 4, 5 and 3)

Findings include:

1. The record for Resident 2 was reviewed on 8/15/23 at 12:00 p.m. . The resident was admitted on 12/30/18. There was no documentation the resident had received an annual TB test or screening in the past 12 months.

2. The closed record for Resident 8 was reviewed on 8/15/23 at 2:50 p.m. . The resident was admitted on 7/13/21. There was no

DEPARTMENT OF HEALTH AND HUMAN SERVICES
CENTERS FOR MEDICARE & MEDICAID SERVICES

documentation the resident had received an annual TB test or screening in the past 12 months.

Interview with the Director of Nursing on 8/15/23 at 3:15 p.m., indicated they were behind on TB tests, and were going initiate annual TB test/ screenings every August going forward.

5. Resident 4's record was reviewed on 8/15/23 at 10:00 a.m. Diagnoses included, but were not limited to, type 2 diabetes mellitus and hypertension.

The resident had a TB (tuberculosis) test completed in April 2022 and a TB Risk Assessment completed in June 2022.

Interview with Director of Nursing (DON) on 8/15/23 at 3:15 p.m., indicated she had not yet completed a new annual TB Risk Assessment.

6. Record review for Resident 3 was completed on 8/16/23 at 10:12 a.m. Diagnoses included, but were not limited to, hypothyroidism, hyperlipidemia, hypertension and major depressive disorder. The resident was admitted to the facility on 8/26/22.

There was a lack of documentation to indicate the resident had received any

DEPARTMENT OF HEALTH AND HUMAN SERVICES
CENTERS FOR MEDICARE & MEDICAID SERVICES

annual TB testing.

7. Record review for Resident 9 was completed on 8/16/23 at 11:00 a.m. Diagnoses included, but were not limited to, dementia, anxiety disorder, osteoporosis and varicose veins of lower extremities. The resident was admitted to the facility on 7/9/20.

There was a lack of documentation to indicate the resident had received any annual TB testing or screening.

Interview with the Director of Nursing (DON) on 8/16/23 at 11:06 a.m., indicated she was unable to provide documentation any TB tests or screening had been completed on the resident. The prior company did not require this testing, just an chest x-ray.

3. Record review for Resident 5 was completed on 8/15/23 at 11:12 a.m. Diagnoses included, but were not limited to, dementia and diabetes mellitus. The resident was admitted to the facility on 6/10/23.

The resident had a chest x-ray completed on 3/17/23.

The record lacked any documentation a tuberculin test on or prior to admission was completed. There was no documentation to indicate a risk assessment for tuberculosis had

DEPARTMENT OF HEALTH AND HUMAN SERVICES
CENTERS FOR MEDICARE & MEDICAID SERVICES

been completed.

4. Record review for Resident 6 was completed on 8/15/23 at 2:09 p.m. Diagnoses included, but were not limited to, dementia. The resident was admitted to the facility on 6/16/19.

The record lacked any documentation an annual tuberculin test or risk assessment for tuberculosis had been completed.

Interview with the Dementia Care Coordinator on 8/16/23 at 10:46 a.m., indicated she was unable to provide any documentation for the tuberculin testing or risk assessments had been completed for Residents 5 and 6.
