policy and procedure, and receive reasonable responses to their requests without fear of reprisal or interference. Based on record review and interview, the facility failed to ensure a grievance was completed and investigated related to a family member's concern regarding dietary services, for 1 of 3 residents reviewed for dietary services. (Resident C) Finding includes: During a telephone interview on 4/18/24 at 10:25 a.m., a family member of Resident C indicated that Employee 1 had served orange juice to her mother on 4/14/24. Her mother had an allergy to oranges, and had been served oranges previously on 4/5/24. She reported the incident to the Lead Server and the Dietary Manager (DM). Resident C's record was reviewed on 4/18/24 at 9:04 a.m. Diagnoses included, but were not limited to, hypertension, Diabetes Mellitus and dementia. The resident was allergic to Vitamin C, oranges and orange juice. An Incident Note, dated 4/5/24, indicated the resident had eaten oranges, she was unable to report who had served them to her. The Nurse Practitioner was		? complete a grievance including reporting every grievance to DON and ED. All grievance reports will be investigated immediately. How Will Recurrence Be Prevented? During morning meetings all grievances will be discussed and followed up with on a daily basis until resolved indefinitely. All grievances will also be reviewed monthly during QA to ensure completion. Once completed all grievances will be kept in a grievance binder. Person Responsible: DON or Designee

present in the facility and assessed the resident. She was given 12.5 milligrams of Benedryl. The family member was notified and wanted the resident sent to the hospital for evaluation. The resident was admitted to the hospital for abnormal labs and returned to the facility on 4/10/24.

The 4/5/24 incident had been reported to the State Agency. There were no additional reportables related to the resident.

The Grievance Log was reviewed on 4/18/24. There was nothing related to resident being served orange juice on 4/14/24.

During an interview on 4/18/24 at 11:00 a.m., the DM indicated the family member had notified her on 4/14/24 that she found orange juice in her mother's room that had been served, but the resident did not drink it. The DM indicated it had been an accident. She wrote up Employee 1 for the incident and was planning an all dietary staff inservice the following day.

During an interview on 4/18/24 at 11:58 a.m., the Executive Director indicated she was not aware the resident had been served orange juice recently and it should have been investigated.

During an interview on 4/18/24

occasions, for 1 of 3 residents reviewed for dietary services. (Resident C)

Finding includes:

On 4/18/24 at 11:00 a.m., the kitchen was observed with the Dietary Manager (DM). There was a white board on the wall with the names and allergens of five residents. There were Dietary Huddle sheets taped to the shelf above the serving area that had the day's menu being served and a list of five residents and their allergens for comparison. Resident C was on the white board and Dietary Huddle sheets as being allergic to oranges.

Resident C's record was reviewed on 4/18/24 at 9:04 a.m. Diagnoses included, but were not limited to, hypertension, Diabetes Mellitus and dementia. The resident was allergic to Vitamin C, oranges and orange juice.

An Incident Note, dated 4/5/24, indicated the resident had eaten oranges, she was unable to report who had served them to her.
