(1) within three (3) working days of a vacancy in the administrator's position; and

(2) of the name and license number of the replacement administrator

Based on observation, interview and record review, the facility failed to employ an licensed Health Facilities Administrator who oversaw the daily operations of the facility.

Finding Include:

During the 3 days of the survey conducted on July 7, 8, and 9, 2021, the Licensed Health Facility Administrator was not present in the facility. Paperwork required for the survey process was completed by the Director.

During a 7/7/21, 9:20 a.m., interview, the Director indicated she was to act as the replacement, or as a substitute to the Administrator in her absence. The Director indicated she herself was not a licensed Health Facilities Administrator.

During a 7/9/21, 11:25 a.m. interview, the Director indicated the Administrator was last in the facility on 6/23/2021. She indicated the Administrator was in the facility 6/23/2021, 6/8/21, 6/1/21 and 5/24/21 (four times in a one month period). The Director indicated the

daily operations of the facility. Current Licensed Health Facility Administrator was hired October 7, 2015. She has remained continuously employed in the position since that date. The only times she was unavailable were due to medical issues and has been on medical leave. She was available by phone while on medical leave. She was unavailable to work during the survey due to a recent outpatient surgery and physicians orders.

3. A Licensed Health Facility Administrator will continue to be employed by this facility. If for any reason the Licensed Health Facility Administrator leaves their position, or if their is not a current Licensed Health Facilities Administrator employed the Indiana State Department of Health, Long Term Care Division will be notified by the Board of Directors.

4. The Board of Directors will monitor the position of the Licensed Health Facilities Administrator, to ensure one is employed.

IDR

I am requesting and IDR on this Tag. The reason for the IDR is: Christy Tompkins has been the Administrator at Vermillion Place since 10/7/2015. She was unavailable during the Annual Survey due to health issues. There is a possibility she may need to have extensive back and/or neck surgeries. A Dr. statement can be provided if necessary. The only time she has been unavailable to

Supervisor indicated the facility had not monitored Resident B's room temperature to ensure the temperature maintained at a safe level since the air conditioner stopped working nor had he followed up with the resident to ensure he remained comfortable.

During an interview on 7/8/21 at 2:00 p.m., Resident B indicated her room air conditioner stopped working mid June. She indicated the facility said they would replace or repair it but it would take a few days. She indicated the facility did not offered her another room to temporarily stay in during the repair. Lastly she indicated, her room was uncomfortable and she had to leave the facility and stay with family a few days during the air conditioner replacement.

Resident B's clinical record was reviewed on 7/8/21 at 10:15 a.m.. Resident B's record indicated she was out of the facility visiting her family on 6/12/21 and 6/13/21.

During an interview on 7/8/2021 at 1: 45 p.m., the Director indicated the facility did not have a record of monitoring Resident Cs room temperature to ensure safety after his air conditioner went out nor did they offer Resident B a temporary room with air conditioning while her's was

During the dining observation on 7/7/21 at 11:45 a.m., the following was observed: Dietary aide 5 was observed multiple times touching her mask and pushing her glasses up on top of her head, then back to her eyes. She did not change her gloves or use hand sanitizer. She was observed touching the inside of the salad plate from the salad bar with the same gloves she had previously touched her glasses and mask with. She walked to the lounge and placed her hands on her knees while bending over to speak to a resident, then went to the salad bar and proceeded to fix a salad plate again she placed her thumb inside the	R 0273	1. All residents had the potential to be affected by the alleged deficient practice. Dietary staff has been instructed on the proper procedures of sanitation and safe food handling. Cleaning of the food prep areas, equipment monitoring, proper and safe food handling, monitoring temps are all ongoing. 2. All residents had the potential to be affected by the alleged deficient practice. Dietary staff has been instructed on the proper procedures of sanitation and safe food handling. Cleaning of the food prep areas, equipment monitoring, proper and safe food handling, monitoring temps are all ongoing. 3. The Assistant Director, or their designee, will monitor the dietary service, including, safe food handling, sanitation to ensure the alleged deficient practice does not reoccur. 4. The Director, or their designee, will monitor the the dietary service to ensure they follow the state and local sanitation and safe food handling standards. If there are any issues they will report their findings to the Administrator, or their designee, for assistant in correcting any issues.	08/31/2021

plate.

Dietary Aide 7 was observed six times, when she placed the used ice scoop inside the ice cooler on top of the ice, while filling the residents' cups during the meal service.

Dietary aide 3 was observed during the food dipping service, he placed the completed food ticket on the clean plate, as he dipped the food onto the plate, he continuously moved the ticket to different parts of the plate. He picked up the dinner roll with his gloved hand that he had previously handled the utensils, tickets, and plates. He placed the dinner roll on top of the ticket on the plate. He continued with this pattern throughout the meal service, he did not change his gloves or use hand sanitizer.

During an interview on 7/8/21 at 1:05 p.m., the Dietary Aide 7 indicated the ice scoop should not be stored inside the cooler on top of the ice.

During an interview on 7/8/21 at 1:22 p.m., the Dietary Aide 3 indicated he should not place the tickets on the plate, and he should use prongs to pick up the dinner rolls.

sanitation, which was provided by the Assistant Director on 7/8/21 at 9:15 a.m., indicated the following:

"Cross Contamination

clean and sanitize all work surfaces, equipment, and utensils after each task."

This residential tag relates to complaint IN00356074.

Based on observation, interview and record review the facility failed to ensure the food preparation areas were clean and sanitary, equipment was monitored to ensure proper functioning, food was dated, labeled and sealed after opening, foods were dated when received to ensure freshness, food was served at a safe temperature; and safe food handle was practiced during meal service.

Findings Include:

1. During a 7/7/21, 9:22 a.m., kitchen sanitation tour the following concerns were noted:

a. The can opener, which was mounted to the food preparation table, had sticky black residue on the cutting blade and base.

b. The oven had spilled, burnt on and baked on food down the front and on the burner surfaces. The surface was

DEPARTMENT OF HEALTH AND HUMAN SERVICES
CENTERS FOR MEDICARE & MEDICAID SERVICES

sticky to the touch.

c. The exhaust vent over the oven had a heavy dark black dust and grease residue on the lip of the hood.

d. The reach-in refrigerator freezer, which was located in the food preparation area, had open undated of labeled tater tots and breaded chicken strips in the freezer portion. The freezer did not have a thermometer inside or any other method to monitor temperature in the freezer section. The reach-in refrigeration freezer had no temperature log posted on the equipment nor located anywhere within the dietary department.

e. The walk-in refrigerator had a food temperature log posted on the door. The last recorded temperature was dated 5/29/2021. The walk-in refrigerator had undated meat patties with blood pooled on the tray.

f. The walk-in freezer had a food temperature log posted on the door. The last recorded temperature was dated 5/29/2021. There was no freezer log located anywhere within the dietary department. The walk-in freezer contained opened tater tots and sliced potatoes which were not dated when opened.

DEPARTMENT OF HEALTH AND HUMAN SERVICES
CENTERS FOR MEDICARE & MEDICAID SERVICES

g. The dry storage area contained boxes and cans of food that were not dated when received to ensure the oldest product would be used first. The following food items were opened with the tops rolled down and not sealed closed, with no date when opened: taco seasoning, drakes breadding, gray mix and a bag of dried pinto beans. There were two rubber containers, each without a lid, left open with out dates or labels containing open unmarked, unsealed flour sacks left open to the air. The flour was uncovered and could be touched with the hand or have items dropped into the container.

h. The dishwasher did not have a temperature log.

During a 7/7/21, 9:45 a.m., interview, Dietary Aide 3, looked through the record of logs for cleaning, refrigerator temperatures, freezer temperatures, dishwasher temperatures and indicated he could not find any log that had been completed in the past 3 months. He indicated all of these logs should be completed on a daily bases. He indicated he himself had not been complete said logs and felt Dietary Aid 4 should have completed some.

During a 7/7/21, 9:48 a.m.,

DEPARTMENT OF HEALTH AND HUMAN SERVICES
CENTERS FOR MEDICARE & MEDICAID SERVICES

interview, Dietary Aide 4 indicated he did not complete logs and did not know it was his responsibility.

2. During the 7/7/21 lunch, meal observation, the following concerns regarding safe food temperatures were observed:

During a 7/7/21, 12:07 p.m., interview, Dietary Aid 4, who had just completed cooking the lunch meal, indicated he had not taken food temperatures before he placed the food in the steam table. He indicated he did not think it was necessary to take the temperature of food which had been removed from a hot oven. He indicated he did not add food temperatures to a log. Lastly, he indicated he believed the dietary employees who served the food at the steam table recorded temperatures in a log. He also indicated he was unaware of the location of any thermometer to test food temperatures.

During a 7/7/21, 12:11 p.m., interview, Dietary Aid 3 who was serving the lunch meal, indicated he did not have a thermometer to take food temperatures. He indicated he had not had a thermometer in weeks. He indicated he had not taken food temperatures prior to serving the meal. He also indicated he was aware he should record food

DEPARTMENT OF HEALTH AND HUMAN SERVICES
CENTERS FOR MEDICARE & MEDICAID SERVICES

temperatures in a log prior to each meal. Lastly, he indicated that he had not recorded temperatures in the log for a long time and he could not find a food temperature log for any month in 2021.

3. During the dining observation on 7/7/21 at 11:45 a.m., the following was observed:

Dietary aide 5 was observed multiple times touching her mask and pushing her glasses up on top of her head, then back to her eyes. She did not change her gloves or use hand sanitizer. She was observed touching the inside of the salad plate from the salad bar with the same gloves she had previously touched her glasses and mask with. R 0274	Food and Nutritional Services - Noncompliance 410 IAC 16.2-5-5.1(g)(1-3)	R 0274	1. All residents had the potential to be affected by this alleged deficient practice. A Dietary Manager who is a graduate of an accredited college with a degree in foods and nutrition	09/20/2021

(g) There shall be an organized food service department directed by a supervisor competent in food service management and knowledgeable in sanitation standards, food handling, food preparation, and meal service.

(1) The supervisor must be one (1) of the following:

(A) A dietitian.

(B) A graduate or student enrolled in and within one (1) year from completing a division approved, minimum ninety (90) hour classroom instruction course that provides classroom instruction in food service supervision who has a minimum of one (1) year of experience in some aspect of institutional food service management.

(C) A graduate of a dietetic technician program approved by the American Dietetic Association.

(D) A graduate of an accredited college or university or within one (1) year of graduating from an accredited college or university with a degree in foods and nutrition or food administration with a minimum of one (1) year of experience in some aspect of food service management.

(E) An individual with training and experience in food service supervision and management.

(2) If the supervisor is not a dietitian, a dietitian shall provide consultant services on the premises at peak periods of operation on a regularly scheduled

is in the process of being hired. She is unavailable until after 09/16/2021. Until the Dietary Manager can begin work in this facility, the Assistant Director, or their designee, will continue to be responsible for the oversight of the dietary department. We have advertised for a CDM with no results. A previous employee had enrolled in training for their CDM but then resigned before completing the course. It is extremely hard to find an applicant for the position of CDM.

2. All residents had the potential to be affected by this alleged deficient practice. A Dietary Manager who is a graduate of an accredited college with a degree in foods and nutrition is in the process of being hired. She is unavailable until after 09/16/2021. Until the Dietary Manager can begin work in this facility, the Assistant Director, or their designee, will continue to be responsible for the oversight of the dietary department. We have advertised for a CDM with no results. A previous employee had enrolled in training for their CDM but then resigned before completing the course. It is extremely hard to find an applicant for the position of CDM.

3. The Assistant Director, or their designee, will continue to monitor the dietary department. After a Dietary Manager begins their employment the Assistant Director, or their designee, will continue to monitor the dietary department.

4. The Assistant Director, or their designee, will monitor the dietary department. If any issues in the

basis.

(3) Food service staff shall be on duty to ensure proper food preparation, serving, and sanitation.

Based on observation, interview and record review, the facility failed to employ a qualified food services director.

Findings include:

During a 7/7/21, 9:22 a.m., kitchen sanitation tour two dietary employees were in the kitchen (Dietary Aids 3 and 4). During a 7/7/21, 9:22 a.m., interview, both Dietary Aid 3 and 4 indicated they were not the individual in charge of the kitchen or the meal preparation. Both Dietary Aids indicated there was no current Food Services Supervisor and the Assistant Director was overseeing the dietary department.

During an interview on 7/7/21 at 10:20 a.m., the Director indicated the facility did not have a Food Services Supervisor and the Assistant Director was currently responsible for oversight of the dietary department.

During a 7/7/21, 10:23 a.m., interview, the Assistant Director indicated she had been overseeing the dietary department for less than a

employment of a Dietary Manager arises they will report these issues to the Director, or their designee, for assistance in correction of the issues. If the Director, or their designee, cannot correct the issue they will notify the Administrator, or their, designee, for their assistance in correcting the issue.
