CENTERS FOR MEDICARE & MEDICAID SERVICES

sufficient quantity to meet the needs of the residents.

Based on observation and interview, the facility failed to secure hazardous material in an unlocked beauty salon for 6 of 6 ambulatory residents in a memory care facility.

Findings include:

During a facility walk through on 10/23/23 at 10:36 a.m., the beauty salon door was found unsecured.

The following hazardous material were found inside the salon:

A partially used bottle of "No peroxide", a chemical used to remove peroxide residue. The caution statement indicated to avoid contact with eyes. "If contact occurs, rinse with water. For external use only. Keep out of reach of children."

A partially used spray bottle of Herbal Essences spray gel. The caution statement indicated to avoid spraying in eyes. "Use only as directed. Keep out of reach of children".

A "Febreze" spray bottle. The caution statement indicated to use only as directed and to keep out of reach of children and pets.

A partially used container of

placed in a locked cabinet.

2

A check of all common areas was made to ensure no hazardous materials were unsecured.

All hazardous materials are security stored et not available to residents.

3

New locks have been installed on the cabinets in the beauty so that hazardous materials can be secured properly by employees. A review of community policy "Storage and Disposal of Hazardous Materials" was reviewed without change. All staff have been re-educated on this policy.

4

The DON or her representative will audit the beauty shop et all common areas to ensure hazardous materials are appropriately stored. These audits will be conducted 5X weekly X 30 days, then 1X weekly X60 days to ensure compliance. Results of all audits will be reported to the monthly

CENTERS FOR MEDICARE & MEDICAID SERVICES

(C) need; and (D) preference; of the resident. (2) The services offered shall be reviewed and revised as appropriate and discussed by the resident and facility as needs or desires change. Either the facility or the resident may request a service plan review. (3) The agreed upon service plan shall be signed and dated by the resident, and a copy of the service plan shall be given to the resident upon request. (4) No identification and documentation of services provided is needed if evaluations subsequent to the initial evaluation indicate no need for a change in services. (5) If administration of medications or the provision of residential nursing services, or both, is needed, a licensed nurse shall be involved in identification and documentation of the services to be provided. Based on record review and interview, the facility failed to update service plans with interventions to prevent falls for 1 of 3 residents with frequent falls. (Resident C) Findings include: The clinical record for Resident C was reviewed on 10/23/23 at	without change. All nursing staff were re-educated on these policies. 4 The DON or her designee will audit service plans 1X weekly X30 days, then 1X monthly ongoing. All audits will be reported to the monthly Quality Assurance Meeting for further monitoring.

OMB NO. 0938-0391

12:18 p.m. Diagnoses included hypertension, dementia, debility, iliac aneurysm, and anxiety. The resident had severe cognitive impairment and required supervision for transfers and ambulation.

Review of the clinical record on 10/23/23 at 12:18 p.m., indicated the resident had unwitnessed falls on 8/1/23 and 8/23/23. The resident had a fall on 9/23/23 resulting in a fracture of the right femur neck (broken hip).

Review of Resident C's service plan, dated 8/2/23, indicated the resident had an increased potential for falls. The service plan indicated staff were to report evidence of unsteadiness and/or other safety concerns. The service plan lacked interventions to prevent or mitigate falls.

During an interview on 10/23/23 at 2:10 p.m., the Director of Nursing indicated the service plans should have been updated with fall interventions if the resident had multiple falls.

Review of a current policy titled, "Incident Reporting and Analysis Policy" provided by the DON on 10/25/23 at 11:07 a.m. and dated 12/20/21, indicated "... Items may be closed once a final status/resolution is entered including interventions to

DEPARTMENT OF HEALTH AND HUMAN SERVICES
CENTERS FOR MEDICARE & MEDICAID SERVICES

prevent reoccurrences if applicable. Examples of when Incidents or Non-Incidents may be closed include: Fall non-injury-closed after resident comes off Short Term Monitoring, Service Plan has been updated with fall interventions, and Negotiated Risk Assessment (NRA) executed if applicable. Fall with injury closed after injury as resolved/healed, Service Plan has been updated with Fall Interventions, and NRA executed if applicable.".

Review of a current policy titled, "Mobility/Fall Management" provided by the DON on 10/25/23 at 11:07 a.m. and dated 1/1/15, indicated " Procedure: Upon move-in with all routine and change of condition assessments, residents should be assessed for mobility challenges and needs. Incorporate mobility management interventions into the Service Plan. Implement only the interventions that can be reasonable accomplished and monitored. Reevaluate the interventions periodically to determine their effectiveness and discontinue ineffective interventions while implementing new interventions as appropriate."
