R 0000	INITIAL COMMENTS This visit was for a State Residential Licensure Survey. This visit included the Investigation of Complaint IN00449511. Complaint IN00449511 - No deficiencies related to the allegations are cited. Survey dates: March 26 and 27, 2025 Facility number: 013825 Residential Census: 88 These State Residential Findings are cited in accordance with 410 IAC 16.2-5. Quality review completed on 3/31/25.	R 0000	No deficiency related to the allegations were cited.				
R 0045	Residents' Rights - Deficiency 410 IAC 16.2-5-1.2(r)(6-9) (6) Before an interfacility transfer or discharge occurs, the facility must,	R 0045	R045 Preparation and/or execution of this plan of correction does not constitute admission or	04/13/2025			

on a form prescribed by the department, do the following:

(A) Notify the resident of the transfer or discharge and the reasons for the move, in writing, and in a language and manner that the resident understands. The health facility must place a copy of the notice in the resident ' s clinical record and transmit a copy to the following:

(i) The resident.

(ii) A family member of the resident if known.

(iii) The resident ' s legal representative if known.

(iv) The local long term care ombudsman program (for involuntary relocations or discharges only).

(v) The person or agency responsible for the resident ' s placement, maintenance, and care in the facility.

(vi) In situations where the resident is developmentally disabled, the regional office of the division of disability, aging, and rehabilitative services, who may assist with placement decisions.

(vii) The resident ' s physician when the transfer or discharge is necessary under subdivision (4)(C), (4)(D), (4)(E), or (4)(F).

(B) Record the reasons in the resident ' s clinical record.

(C) Include in the notice the items described in subdivision (9).

agreement by the provider that a deficiency exists. This response is also not to be construed as an admission of fault by the facility. This plan of correction is submitted as the facility's credible allegation of compliance.

Due to the relatively low scope and severity of this survey, the community respectfully requests a desk review in lieu of a post-survey visit.

What corrective action(s) will be accomplished for those residents who were found to have been affected by the deficient practice:

Resident 4 was affected by this deficient practice.

The resident did not experience any adverse outcomes related to the deficient concern.

How will the facility identify other residents having the potential to be affected by the same deficient practice and what corrective action will be taken:

The Community realizes that all residents have the potential to be affected by the deficient practice.

What measures will be put

DEPARTMENT OF HEALTH AND HUMAN SERVICES
CENTERS FOR MEDICARE & MEDICAID SERVICES

(7) Except when specified in subdivision (8), the notice of transfer or discharge required under subdivision (6) must be made by the facility at least thirty (30) days before the resident is transferred or discharged.

(8) Notice may be made as soon as practicable before transfer or discharge when:

(A) the safety of individuals in the facility would be endangered;

(B) the health of individuals in the facility would be endangered;

(C) the resident ' s health improves sufficiently to allow a more immediate transfer or discharge;

(D) an immediate transfer or discharge is required by the resident ' s urgent medical needs; or

(E) a resident has not resided in the facility for thirty (30) days.

(9) For health facilities, the written notice specified in subdivision (7) must include the following:

(A) The reason for transfer or discharge.

(B) The effective date of transfer or discharge.

(C) The location to which the resident is transferred or discharged.

(D) A statement in not smaller than 12-point bold type that reads, " You have the right to appeal the health

into place or systemic changes will the facility make to ensure that the deficient practice does not recur:

The Wellness Director/Designee will reeducate staff through in-service on necessary documentation related to transfer/discharge paperwork for residents. The Wellness Director/Designee will educate staff, through in-service, on proper documentation and charting of discharge from the community.

How will the corrective action(s) be monitored to ensure the deficient practice will not recur, i.e., what quality assurance program will be put into place:

The Wellness Director/Designee will audit any resident transferring/discharging from the community for proper documentation for three (3) months. Once 100% compliance is achieved, audits will be completed for an additional two (2) months.

By what date will the systemic changes be completed:

April 13, 2025

facility ' s decision to transfer you. If you think you should not have to leave this facility, you may file a written request for a hearing with the Indiana state department of health postmarked within ten (10) days after you receive this notice. If you request a hearing, it will be held within twenty-three (23) days after you receive this notice, and you will not be transferred from the facility earlier than thirty-four (34) days after you receive this notice of transfer or discharge unless the facility is authorized to transfer you under subdivision (8). If you wish to appeal this transfer or discharge, a form to appeal the health facility's decision and to request a hearing is attached. If you have any questions, call the Indiana state department of health at the number listed below. " .

(E) The name of the director and the address, telephone number, and hours of operation of the division.

(F) A hearing request form prescribed by the department.

(G) The name, address, and telephone number of the state and local long term care ombudsman.

(H) For health facility residents with developmental disabilities or who are mentally ill, the mailing address and telephone number of the protection and advocacy services commission.

Based on record review and interview, the facility failed to ensure transfer/discharge

***Request for IDR for this deficiency**

The community is requesting clarification and additional support on the form required for residents transferring to the hospital indefinitely.

State Transfer/Discharge form 49669 (see attachment A) does not provide hospital as an option in *Reason for Transfer or Discharge*.

Requesting clarification on expectations if a resident is sent to hospital indefinitely. Currently residents are sent with Face Sheet, current physician orders, and copy of advance directives. See attachment B and C

Attachment A

Attachment B

Attachment C

papers were completed when residents were transferred out of the facility for 2 of 7 records reviewed. (Residents 2 and 4)

Findings include:

1. Resident 2's record was reviewed on 3/26/25 at 12:10 p.m. Diagnoses included, but were not limited to, Alzheimer's disease, heart failure and hypertension.

A Progress Note, dated 3/14/25, indicated the resident had been found on the floor in his room. The resident was complaining of pain to his bilateral lower extremities. Emergency transport was notified and the resident was taken to the hospital for evaluation.

The were no State Transfer/ Discharge papers available for review.

During an interview on 3/27/25 at 10:44 a.m., the Health and Wellness Director (HWD) indicated the facility sent a face sheet, advance directives and orders when a resident was sent to the hospital. She was not aware the State Transfer/ Discharge papers were required.

2. Resident 4's record was reviewed on 3/26/25 at 2:10 p.m. Diagnoses included, but were not limited to, dementia.

DEPARTMENT OF HEALTH AND HUMAN SERVICES
CENTERS FOR MEDICARE & MEDICAID SERVICES

The Service Plan, dated 8/26/24, indicated the resident was on hospice care and required assistance from staff for activities of daily living.

A Nurses' Note, dated 12/17/24 at 3:10 p.m., indicated a CNA reported the resident had loose stools, dark in color. The resident was assessed and was unable to follow commands, weak, pale in color, and wheezing and congested. New orders were received to send the resident to the hospital for evaluation and treatment. The family was notified. The resident was transferred to the hospital and sent with paperwork. Report was called to the receiving hospital.

There was a lack of documentation related to transfer/discharge paperwork in the record.

During an interview on 3/27/25 at 10:48 a.m., the HWD indicated any time a resident was transferred out of the facility, they were sent with the face sheet, current Physician's Orders, and a copy of the advance directives. They did not use a state transfer form.

Based on record review and interview, the facility failed to ensure transfer/discharge papers were completed when residents were transferred out of

CENTERS FOR MEDICARE & MEDICAID SERVICES

preparedness plan to assure continuity of care of residents in cases of emergency as follows:

(1) Fire exit drills in facilities shall include the transmission of a fire alarm signal and simulation of emergency fire conditions, except that the movement of nonambulatory residents to safe areas or to the exterior of the building is not required. Drills shall be conducted quarterly on each shift to familiarize all facility personnel with signals and emergency action required under varied conditions. At least twelve (12) drills shall be held every year. When drills are conducted between 9 p.m. and 6 a.m., a coded announcement may be used instead of audible alarms.

(2) At least every six (6) months, a facility shall attempt to hold the fire and disaster drill in conjunction with the local fire department. A record of all training and drills shall be documented with the names and signatures of the personnel present.

Based on record review and interview, the facility failed to invite the fire department to participate in fire drills every six months as required. This had the potential to affect all 88 residents residing in the facility.

Finding includes:

The annual fire drill documents were reviewed on 3/27/25 at 2:50 p.m.

agreement by the provider that a deficiency exists. This response is also not to be construed as an admission of fault by the facility. This plan of correction is submitted as the facility's credible allegation of compliance.

Due to the relatively low scope and severity of this survey, the community respectfully requests a desk review in lieu of a post-survey visit.

What corrective action(s) will be accomplished for those residents found to have been affected by the deficient practice:

No residents were affected by the alleged deficient practice.

How will the facility identify other residents having the potential to be affected by the same deficient practice, and what corrective action will be taken:

The Community realizes that other residents, staff, and

DEPARTMENT OF HEALTH AND HUMAN SERVICES

410 IAC 16.2-5-1.4(f)(1-4)

(f) A health screen shall be required for each employee of a facility prior to resident contact. The screen shall include a tuberculin skin test, using the Mantoux method (5 TU, PPD), unless a previously positive reaction can be documented. The result shall be recorded in millimeters of induration with the date given, date read, and by whom administered. The facility must assure the following:

(1) At the time of employment, or within one (1) month prior to employment, and at least annually thereafter, employees and nonpaid personnel of facilities shall be screened for tuberculosis. The first tuberculin skin test must be read prior to the employee starting work. For health care workers who have not had a documented negative tuberculin skin test result during the preceding twelve (12) months, the baseline tuberculin skin testing should employ the two-step method. If the first step is negative, a second test should be performed one (1) to three (3) weeks after the first step. The frequency of repeat testing will depend on the risk of infection with tuberculosis.

(2) All employees who have a positive reaction to the skin test shall be required to have a chest x-ray and other physical and laboratory examinations in order to complete a diagnosis.

(3) The facility shall maintain a health record of each employee that includes reports of all

410 IAC 16.2-5-2(e)(1-5)

(e) Following completion of an evaluation, the facility, using appropriately trained staff members, shall identify and document the services to be provided by the facility, as follows:

(1) The services offered to the individual resident shall be appropriate to the:

(A) scope;

(B) frequency;

(C) need; and

(D) preference;

of the resident.

(2) The services offered shall be reviewed and revised as appropriate and discussed by the resident and facility as needs or desires change. Either the facility or the resident may request a service plan review.

(3) The agreed upon service plan shall be signed and dated by the resident, and a copy of the service plan shall be given to the resident upon request.

(4) No identification and documentation of services provided is needed if evaluations subsequent to the initial evaluation indicate no need for a change in services.

(5) If administration of medications or the provision of residential nursing services, or both, is needed, a licensed nurse shall be

Preparation and/or execution of this plan of correction does not constitute admission or agreement by the provider that a deficiency exists. This response is also not to be construed as an admission of fault by the facility. This plan of correction is submitted as the facility's credible allegation of compliance.

Due to the relatively low scope and severity of this survey, the community respectfully requests a desk review in lieu of a post-survey visit.

What corrective action(s) will be accomplished for those residents who found to have been affected by the deficient practice:

Residents 7 and 8 were affected by this deficient practice. The residents did not experience any negative consequences related to the deficient concerns.

How will the facility identify other residents having the

Manager (DM) and Sous Chef.

a. Neither the DM or Sous Chef were wearing hairnets. There were two servers present and a dish washer who also did not have hairnets on. There was a sign posted on the kitchen entrance that indicated hairnets must be worn when in the kitchen.

During an interview at that time, the DM indicated that was just to discourage other staff from entering the kitchen. Only the cooks were required to use hair protection.

b. There were two trays of frozen meatballs on the counter thawing. The Sous Chef indicated that was how they normally thawed meat, or placed it in the sink to thaw. He indicated they did not thaw meat in the refrigerator usually, except frozen breakfast food would be placed in refrigerator the night before.

c. During a follow up visit to the kitchen on 3/27/25 at 10:30 a.m., staff were not wearing hairnets. There were two plastic containers filled with water that had frozen chicken in them. The Culinary Manager (CM) indicated the chicken was thawing. A policy related to thawing of frozen meat was requested, the CM indicated he was looking for one.

have been affected by the deficient practice:

No residents were affected by the deficient practice. The residents did not experience any negative consequences related to the deficient concerns.

How will the facility identify other residents having the potential to be affected by the same deficient practice, and what corrective action will be taken:

The Community realizes that all residents have the potential to be affected by the deficient practice. The dietary staff were reeducated by the Executive Chef/ Designee regarding the proper thawing of frozen meat. The Executive Chef/Designee re-educated staff on proper wearing of hair net in the kitchen. See attachments A & B

What measures will be put into place or systemic changes will the facility make to ensure that the deficient practice does not recur:

DEPARTMENT OF HEALTH AND HUMAN SERVICES
CENTERS FOR MEDICARE & MEDICAID SERVICES

The document titled, "Four Proper Ways to Thaw", indicated, " 1. Under refrigeration 2. Cold running water within 2 hours 3. Continuous cooking method 4. Microwave (must finish cooking immediately)." 2. On 3/26/25 at 11:45 a.m., the Crabtree Kitchenette was observed. There were two CNAs in the kitchenette who were not wearing hairnets. They were placing prepared food from the steam warmer into bowls and placing them onto serving carts. CNA 1 indicated they did not have any hairnets available. A policy related to proper kitchen attire was received but did not pertain to hairnets. Based on observation, record review and interview, the facility failed to maintain a safe and sanitary kitchen related to improper thawing of frozen meat and staff not wearing hairnets while food was being prepared for 2 of 4 kitchens observed. This had the potential to affect all 88 residents who received meals prepared in the kitchens. (Main kitchen and Crabtree kitchenette) Findings include: 1. The initial Main Kitchen tour was completed on 3/26/25 at	Executive Chef/Designee will monitor thawing procedures daily for two weeks, weekly for two (2) weeks, and monthly for two (2) months to ensure staff are following procedures. The Executive Chef/Designee will monitor staff for proper hair net compliance. How will the corrective action(s) be monitored to ensure the deficiency will not recur, i.e., what quality assurance program will be put into place: Executive Chef/Designee will monitor thawing and hair net procedures daily for two weeks, weekly for two (2) weeks, and monthly for two (2) months to ensure staff are following procedures. See Attachment C. By what date the systemic changes will be completed: April 11, 2025 Attachment A	
---	---	--

9:00 a.m. with the Dining Manager (DM) and Sous Chef.

a. Neither the DM or Sous Chef were wearing hairnets. There were two servers present and a dish washer who also did not have hairnets on. There was a sign posted on the kitchen entrance that indicated hairnets must be worn when in the kitchen.

During an interview at that time, the DM indicated that was just to discourage other staff from entering the kitchen. Only the cooks were required to use hair protection.

b. There were two trays of frozen meatballs on the counter thawing. The Sous Chef indicated that was how they normally thawed meat, or placed it in the sink to thaw. He indicated they did not thaw meat in the refrigerator usually, except frozen breakfast food would be placed in refrigerator the night before.

c. During a follow up visit to the kitchen on 3/27/25 at 10:30 a.m., staff were not wearing hairnets. There were two plastic containers filled with water that had frozen chicken in them. The Culinary Manager (CM) indicated the chicken was thawing. A policy related to thawing of frozen meat was requested, the CM indicated he

clinical records on each resident. These records must be maintained under the supervision of an employee of the facility designated with that responsibility. The records must be as follows:

- (1) Complete.
- (2) Accurately documented.
- (3) Readily accessible.
- (4) Systematically organized.

Based on record review and interview, the facility failed to ensure clinical records were complete and accurate related to lack of documentation of timely follow up related to a new physician's order for 1 of 7 residents reviewed. (Resident 4)

Finding includes:

Resident 4's record was reviewed on 3/26/25 at 2:10 p.m. Diagnoses included, but were not limited to, dementia.

The Service Plan, dated 8/26/24, indicated the resident was on hospice care and required assistance from staff for activities of daily living and medication management.

this plan of correction does not constitute admission or agreement by the provider that a deficiency exists. This response is also not to be construed as an admission of fault by the facility. This plan of correction is submitted as the facility's credible allegation of compliance.

Due to the relatively low scope and severity of this survey, the community respectfully requests a desk review in lieu of a post-survey visit.

What corrective action(s) will be accomplished for those residents who were found to have been affected by the deficient practice:

Resident 4 was affected by this deficient practice. The residents did not experience any negative consequences related to the deficiency concerns. Clinical orders were checked for accuracy and following the physician's plan.

How will the facility identify other residents having the

DEPARTMENT OF HEALTH AND HUMAN SERVICES
CENTERS FOR MEDICARE & MEDICAID SERVICES

A Physician's Order, dated 12/24/24, indicated the resident was to receive Eliquis (blood clot preventative) 2.5 milligrams (mg), 1 tablet twice daily. The order had a discontinue date of 2/13/25.

A Nurses' Note, dated 2/12/25 at 12:10 p.m., indicated the hospice company sent over new orders to discontinue Eliquis 2.5 mg twice daily and start Xarelto 15 mg daily.

A Physician's Order, dated 2/27/25, indicated Xarelto (blood clot preventative) 15 mg, 1 tablet once daily.

There was no documentation in the record indicating the reason the medication was not started as ordered on 2/12/25.

During an interview on 3/27/25 at 10:48 a.m., the Health and Wellness Director indicated the facility staff communicated with the pharmacy on 2/27/25 about a high copay and needing the family to authorize prior to filling the order, but there was no communication before 2/27/25.

Based on record review and interview, the facility failed to ensure clinical records were complete and accurate related to lack of documentation of timely follow up related to a new physician's order for 1 of 7 residents reviewed. (Resident 4)

potential to be affected by the same deficient practice and what corrective action will be taken:

All facility residents had the potential to be affected by this deficient practice. Community will collaborate with physicians for proper communication on all future order changes. Staff reeducated, via in-service, on documenting all communication for new orders received.

What measures will be put into place or systemic changes the facility will make to ensure that the deficient practice does not recur:

The Wellness Director/Designee will audit all new orders received for one (1) month. Orders will then be audited every other week for one (1) month. See attachment A

How will the corrective action(s) be monitored to ensure the deficient will not recur, i.e., what quality assurance program will be put into place:

Finding includes:

Resident 4's record was reviewed on 3/26/25 at 2:10 p.m. Diagnoses included, but were not limited to, dementia.

The Service Plan, dated 8/26/24, indicated the resident was on hospice care and required assistance from staff for activities of daily living and medication management.

ensure a transfer/discharge form was completed for 1 of 7 resident records reviewed.

(Resident 6)

Finding includes:

Record review for Resident 6 was completed on 3/27/25 at 9:23 a.m. The resident was admitted on 12/31/22.

Diagnoses included, but were not limited to, depression, high blood pressure, and high cholesterol.

A Nurse's Note, dated 10/28/24, indicated the resident returned to the facility from a skilled nursing facility.

Previous Nurse's Notes lacked documentation of the resident going to the hospital.

There was no documentation of a transfer/discharge assessment, instructions, or reason for discharge completed for the resident.

During an interview on 3/27/25 at 12:55 p.m., the Health and Wellness Director indicated the resident had discharged to a skilled nursing facility, but could not provide any documentation related to the transfer.

Based on record review and interview, the facility failed to ensure a transfer/discharge form was completed for 1 of 7 resident records reviewed.

The residents did not experience any adverse outcomes related to the deficient concern.

How will the facility identify other residents having the potential to be affected by the same deficient practice and what corrective action will be taken:

The Community realizes that all residents have the potential to be affected by the deficient practice. Staff members are reeducated on timely and thorough documentation process and the importance of maintaining accurate clinical records.

What measures will be put into place or systemic changes will the facility make to ensure that the deficient practice does not recur:

The Wellness Director/Designee will conduct five (5) weekly chart audits until 100% compliance is achieved for three (3) months. See attachment A
