NP progress note, dated 11/14/23, indicated laboratory test were reordered as they had not been obtained.

The November 2023 medication administration record indicated, on 11/17/23, the labs were obtained.

The NP progress note, dated 11/21/23, indicated the labs had not been.

obtained.

While all residents have the potential to have been affected in a negative manner, no residents were identified as being negatively affected by labs not being process timely.

Please
describe what the facility did
to correct the deficient
practice.

Director of Nursing, DON Scott Profitt was terminated 12/4/23, wasn't conducting proper practice.

12/8/23 Executive Director, ED and new DON, Chris Shoemaker educated Nurse Practitioner NP with Total Care Family Practice that all lab orders must be inputted by Medical Director, MD and or NP but never by facility staff to assure above issue doesn't re-accrue.

Since 12/27/23 NP with Total Care no longer enters facility because she refuses to input/process her orders directly to lab after writing orders.

2. Please describe how the facility reviewed all residents in the facility that could be affected by the same deficient practice. Facility will maintain current and accurate resident files.

An audit was completed by ED and new DON of orders that NP written had previous written to make sure all were property and timely process to lab.

The Nurse Practitioner (NP) progress note, dated 10/17/23, indicated a CBC (complete blood count), CMP (comprehensive metabolic panel), TSH (thyroid-stimulating hormone), A1C (measures average blood sugars over a 3 month period), and Lipid panel was ordered on the visit.

The physician's order, dated 10/17/23, indicated to obtain a CBC, CMP, TSH, A1C and Lipid on the next lab (laboratory) day and then every 6 months.

Review of the October medication administration record indicated the laboratory tests were to be obtained on 10/25/23, but was not signed off as obtained.

The NP progress note, dated 11/14/23, indicated the above laboratory test were reordered as they had not been obtained.

The November 2023 medication administration record indicated, on 11/17/23, the labs were obtained.

The NP progress note, dated 11/21/23, indicated the labs had not been obtained.

During an interview on 1/3/24 at 9:51 a.m., the Director of Nursing indicated she called the lab service and they did not have any record of labs for Resident B for October or

over to lab of resident's choice on the day they are received from prescribing provider. The community nurse will document in residents electronic record that lab orders were faxed to specific lab.

All medical providers seeing residents at Hellenic Senior Living will meet face to face with the DON or ADON at the end of the resident visit and provide any new orders for labs in writing to the DON or ADON at that time. Written orders will not be placed under doors or placed in mailboxes for DON or ADON.

If specific lab does not take orders sent by fax and only will take orders that are placed directly into the specific lab site then the prescribing clinician will be responsible for submitting these orders directly to the lab as Hellenic is a residential care setting that will not enter orders for a physician into a site owned and operated by a lab provider.

November. When the nurse practitioner orders labs, the staff transcribe those orders on to a lab requisite form and place in the lab binder. The lab services came every Wednesday and obtained the labs. At 2:45 p.m., the Director of Nursing indicated there was a meeting on 12/8/23 with herself, the NP (NP 22), and corporate staff, that was when she found out that it was up to the prescriber to have the labs drawn and the results would then go to the NP who ordered the labs. During a telephone interview on 1/3/24 at 3:22 p.m., the Clinical Support indicated the facility was an Assisted Living facility and the NP's are responsible for ordered labs. The staff fax those labs to the NP lab provider of choice and those results would be faxed directly the ordering provider. This was an unwritten policy. The previous Director of Nursing started the lab service back up without anyone's knowledge. They were unaware staff were doing labs and put a stop to it about a month ago. There was a new NP (NP 22) who was unaware of the lab change and the NP upset about it. 2. The clinical record for Resident F was reviewed on 1/3/24 at 10:50 a.m. The diagnoses included, but were not limited to, diabetes,	results will be sent from Lab to the prescribing provider and Hellenic will not receive results directly. If lab results are not received in a timely manner the prescribing provider will reach out to the lab for the results as Hellenic is a residential care setting and does not contract with outside providers respecting resident choice. All existing outside providers of resident's choice that visit residents in the Hellenic community will be given this list of instructions to follow and all new providers will be given the list of instructions as listed above with each new provider servicing a resident residing at Hellenic Senior Living.
