CENTERS FOR MEDICARE & MEDICAID SERVICES

work orders.

3.

Please

describe the steps or systemic changes the facility has made or will make to ensure that the deficient practice does not recur.

New Maintenance director hired with Tels experience.

4.

Please

describe how the corrective actions will be monitored to ensure the deficient practice will not recur.

Maintenance Director will check Tels system each morning.

5.

For all

deficient practice findings, please provide if ongoing system of monitoring or the criteria or threshold the Quality Assurance Program will use to determine whether further monitoring is necessary or if the monitoring can be stopped.

Ongoing, Audit will be completed once a week to review Tels once progress on work orders being completed timely.

410 IAC 16.2-5-4e(3) Health Services-Deficiency.

While all residents have the potential to have been affected in a negative manner, no resident was identified as being negatively affected by MAR system not being noted properly.

1.
Please describe what the facility did to correct the deficient practice.

Inservice held 11/1/22-re-educated (all) LPN's and QMA's on importance of proper documentation and administration of individual's medication and treatment records that indicate.

(A)
Time;

(B)
Name of medication or treatment;

(C)
Dosage (if applicable); and

(D)
Name or initials of the person administering the drug or treatment.

2.

Please describe how the facility reviewed all resident in the facility that could be affected by the same deficient practice.

Audit completed 11/1/22 on 118/120 residents to make sure medication showing not signed off from MAR's system (medication administration record) was given per review of role packs and all dx's as needed were included for clinical staff to review.

3. Please describe the steps or systemic changes the facility has made or will make to ensure that the deficient practice does not recur.

Audit will be completed by DON or designee on five residents weekly for six weeks or MAR system (medication administration record)

4. Please describe how the corrective actions will be monitored to ensure the deficient practice will not recur.

Ongoing by DON to review on computer system for any

			holes in MAR system (medication administration record) within PCC on desktop. 5. For all deficient practice findings, please provide if ongoing system of monitoring or the criteria or threshold the Quality Assurance Program will use to determine whether further monitoring is necessary or if the monitoring can be stopped. Ongoing by DON to review on computer system for any holes in MAR system (medication administration record) within PCC on desktop. 410 IAC 16.2-5-4e(7) Health Services-Deficiency. While all residents have the potential to have been affected in a negative manner, no resident was identified as being negatively affected by medication error. 1. Please describe what the facility did to correct the deficient practice. Clinical staff re-educated on the process to	
--	--	--	--	--

protect from medication error.

2.

Please

describe how the facility reviewed all resident in the facility that could be affected by the same deficient practice.

A cart audit was completed on 118/120 resident, role packs reviewed and compared to EMAR system.

3.

Please

describe the steps or systemic changes the facility has made or will make to ensure that the deficient practice does not recure.

Educate clinical all clinical staff on following the five rights of administration to protect against medication error.

4.

Please

describe how the corrective actions will be monitored to ensure the deficient practice will not recure.

All clinical staff will be In-serviced by DON on Following the five rights of administration

5.

For all

deficient practice findings,

			please provide if ongoing system of monitoring or the criteria or threshold the Quality Assurance Program will use to determine whether further monitoring is necessary or if the monitoring can be stopped. Ongoing Inservice as needed....	
R 0144	Sanitation and Safety Standards - Deficiency 410 IAC 16.2-5-1.5(a) (a) The facility shall be clean, orderly, and in a state of good repair, both inside and out, and shall provide reasonable comfort for all residents. Based on observation, interview and record review, the facility failed to ensure residents' requests for maintenance assistance were completed timely for 2 of 3 residents reviewed for resident rights. (Residents E and G) Findings include: 1. The clinical record for Resident E was reviewed on 10/18/22 at 2:48 p.m. The diagnosis included, but was not limited to, history of Transient Ischemic Attack (stroke). During an observation on 10/18/22 at 11:20 a.m., a big screen television was observed	R 0144	The Plan of Correction is neither an agreement with nor an admission of wrongdoing by this facility or its staff members. Rather, it is submitted for compliance purposes. This facility alleges substantial compliance with this plan of correction as of November 5, 2022. Complaint IN00391745-Substantiated. State deficiencies related to the allegations are cited at RO247 and R0243 Complaint IN000391956-Substantiated.	11/05/2022

behind the resident's couch, still in the box. Another large rectangular box was observed on the resident's living room floor, unopened. Resident B indicated the box on the floor was a television stand she had purchased after she admitted to the facility approximately 5 months ago. She had asked the Maintenance Director if he would put the stand together and set up her television. He told her he did not do manual labor and that she needed family to assist her. She had right sided paralysis and only one good arm. She told him her 85 year old mother had cancer and all of her relatives lived out of State so it was just her. He still would not help her.

During an interview on 10/19/22 at 2:25 p.m., the Executive Director indicated families generally help residents set up their apartments, however, out of courtesy, maintenance should have assisted with putting the stand together and setting up the television.

2. The clinical record for Resident G was reviewed on 10/18/22 at 3:00 p.m. The diagnoses included, but were not limited to, chronic pain, chronic obstructive pulmonary disease and anxiety.

During an observation on 10/18/22 at 11:35 a.m.,

State deficiencies related to the allegations are cited at R0144.

IAC 16.2.5-1.5(a) Sanitation and Safety Standard-Deficiency.
