During an interview, on 1/20/23 at 11:13 a.m., the DON indicated Resident 9's service plan was unsigned by the resident or resident representative.

During an interview, on 1/20/23 at 11:22 a.m., the Administrator in Training (AIT) indicated copies of signed service plans were not available for Resident 20 and Resident 9.

Review of a current, undated, facility policy titled "Initial Service Plan," provided by the AIT on 1/19/23 at 3:08 p.m., indicated the following: "...A licensed nurse and the Lincolnshire team, will identify and document the services to be provided by the facility, and include scope of services, frequency, need and preferences of the resident...The service plan will be agreed upon by the resident/representative, signed and dated by the resident or responsible party, and a copy of the service plan shall be given to the resident or responsible party upon request. Based on interview and record review, the facility failed to ensure service plans were signed by a resident and/or their representative for 5 of 7 clinical records reviewed. (Residents 6, 11, 27, 20 and 9)

Findings include:

1. Resident 6's clinical record was reviewed on 1/19/23 at 11:14 a.m. Current diagnoses included dementia, hypertension, and hypothyroidism.

The resident had a service plan dated by a nurse on 2/15/22. This service plan was not signed by the resident and/or their representative. The record lacked any service plan that had been signed by the resident and/or their representative.

2. Resident 11's clinical record was reviewed on 1/19/23 at 10:52 a.m. Current diagnoses included dementia, schizoaffective disorder, and hypothyroidism.

The resident had a service plan review dated by a nurse on 10/20/22. The resident had a service plan completed 4/21/22. The 4/21/22 service plan was not signed and dated by the nurse who completed it. Neither

the service plan or service plan review were signed by the resident and/or their representative. The record lacked any service plan that had been signed by the resident and/or their representative.

3. Resident 27's closed clinical record was reviewed on 1/19/23 at 12:53 p.m. Discharge diagnoses included dementia, hypertension, and hypothyroidism.

The resident had a service plan dated by a nurse on 11/10/22. This service plan was not signed by the resident and/or their representative. The record lacked any service plan that had been signed by the resident and/or their representative. The resident had discharged from the facility on 12/20/22.

During an interview, on 1/19/23, 11:34 a.m., the Director of Nursing (DON) indicated she had become the DON in December of 2022. She had just identified that the previous DON had not ensured service plans were signed by the resident or their representative. If the surveyor found during reviews that the resident did not have a signed service plan, the facility did not have a signed plan to provide for these residents.
