The plan must do the following:]</p>	<p>E0009</p>	<p>The EPP was updated to include arrangements with local and state emergency preparedness officials. The process for cooperation and collaboration with the identified officials is outlined in the EPP.</p> <p>The Governing Body will annually review the EPP and minutes of the EP committee to ensure 100% compliance with our local and state collaboration process. Tribal officials are not</p>	<p>2024-06-05</p>

(4) Include a process for cooperation and collaboration with local, tribal, regional, State, and Federal emergency preparedness officials' efforts to maintain an integrated response during a disaster or emergency situation. *

* [For ESRD facilities only at §494.62(a)(4)]: (4) Include a process for cooperation and collaboration with local, tribal, regional, State, and Federal emergency preparedness officials' efforts to maintain an integrated response during a disaster or emergency situation. The dialysis facility must contact the local emergency preparedness agency at least annually to confirm that the agency is aware of the dialysis facility's needs in the event of an emergency.

Based on record review and interview, the home health agency failed to ensure their emergency preparedness plan (EPP) included a process to collaborate and cooperate with local, tribal, regional, state, and federal emergency preparedness entities to maintain an integrated response in case of an emergency in 1 of 1 home health agency.

Findings include:

A record review of the agency's EPP failed to evidence arrangements or processes the agency had in place with local, tribal, regional, state, or federal EPP entities during an emergency.

During an interview on 05/06/24 at 10:30 AM, when asked how the EPP identified

applicable to our location.

The Administrator is responsible for monitoring the Emergency Program is in compliance with CFR(s): 484.102(a)(4).

	<p>take to collaborate with local, tribal, regional, state, and federal agencies during an emergency, the administrator indicated the federal entity contact information was missing in the EPP and indicated the audit nurse reached out to the local, tribal, regional, and state entities and had not received any responses.</p>			
<p>E0019</p>	<p>Homebound HHA/Hospice Inform EP Officials</p> <p>418.113(b)(2)</p> <p>§418.113(b)(2), §460.84(b)(4), §484.102(b)(2)</p> <p>[(b) Policies and procedures. The [facilities] must develop and implement emergency preparedness policies and procedures, based on the emergency plan set forth in paragraph (a) of this section, risk assessment at paragraph (a)(1) of this section, and the communication plan at paragraph (c) of this section. The policies and procedures must be reviewed and updated at least every 2 years. At a minimum, the policies and procedures must address the following:]</p> <p>*[For homebound Hospice at §418.113(b)(2), PACE at §460.84(b)(4), and HHAs at §484.102(b)(2):] The procedures to inform State and local emergency preparedness officials about [homebound Hospice, PACE or HHA] patients in need of evacuation from their residences at any time due to an emergency situation based on the patient's medical and psychiatric condition and home environment.</p> <p>Based on record review and</p>	<p>E0019</p>	<p>Risk assessment levels from 1 to 3 have been assigned to 100% of our patients and added to the patient roster to help identify patients in need of evacuation due to an emergency situation. Level 1 indicates homebound status. Our policy/process is first to contact the level 1 patients, prioritizing those without a present caregiver in the home /and or their emergency contact via phone to assess their current situation. If we are unable to make contact via phone or logistics prevent us from knocking on their door, we will contact 911 for level 1 patients in need of evacuation from their residences due to an emergency situation. Information will be relayed from the patient roster on the patient's medical and psychiatric condition, and the</p>	<p>2024-06-05</p>

	<p>interview, the home health agency failed to ensure their emergency preparedness plan (EPP) included procedures of how to inform State and local emergency preparedness officials about homebound home care patients in need of evacuation from their residences due to an emergency in 1 of 1 home health agency.</p> <p>Findings include:</p> <p>A record review of the agency's EPP failed to evidence identification of patients who were homebound and failed to evidence the process for notifying the State and local emergency preparedness officials of patients in need of evacuation during an emergency.</p> <p>During an interview on 05/06/24 at 10:30 AM, when asked to see the patient list identifying homebound status, the administrator indicated a patient list with no identification of homebound status and indicated there were no procedures in the EPP to notify emergency preparedness officials about patient evacuation from homes.</p>		<p>home environment. We will follow suit with level 2 and level 3 patients, ensuring their safety. If able, communication notes will be made in real time. After the event, the EP committee will analyze the activation of the emergency plan, documenting in the EPP.</p> <p>The Governing Body will annually review the EPP and minutes of the EP committee to ensure 100% compliance with local and state collaboration.</p> <p>The Administrator is responsible for monitoring the Emergency Program is in compliance with CFR's: 484.102(b)(2).</p>

emergency plan within 2 weeks of their first workday. The training program must include instruction in the location and use of alarm systems and signals and firefighting equipment.

(v) If the emergency preparedness policies and procedures are significantly updated, the CORF must conduct training on the updated policies and procedures.

*[For CAHs at §485.625(d):] (1) Training program. The CAH must do all of the following:

(i) Initial training in emergency preparedness policies and procedures, including prompt reporting and extinguishing of fires, protection, and where necessary, evacuation of patients, personnel, and guests, fire prevention, and cooperation with firefighting and disaster authorities, to all new and existing staff, individuals providing services under arrangement, and volunteers, consistent with their expected roles.

(ii) Provide emergency preparedness training at least every 2 years.

(iii) Maintain documentation of the training.

(iv) Demonstrate staff knowledge of emergency procedures.

(v) If the emergency preparedness policies and procedures are significantly updated, the CAH must conduct training on the updated policies and procedures.

*[For CMHCs at §485.920(d):] (1) Training. The CMHC must provide initial training in emergency preparedness policies and procedures to all new and existing staff, individuals providing services under arrangement, and volunteers, consistent with their expected roles, and maintain documentation of the training. The CMHC must demonstrate staff knowledge of emergency procedures. Thereafter, the CMHC must provide emergency preparedness training at least every 2 years.

Based on record review and interview, the home health agency failed to provide Emergency Preparedness policy and procedure training to all new and existing staff for 1 of 1 agency.

Findings include:

A review of an agency policy titled "Emergency Preparedness Management Policy" indicated all staff members will be oriented to the emergency management plan.

A review of an agency document titled "Client Safety/First Aid/Emergency Procedures" included staff procedures for provision of first aid and what to do for patients with do not resuscitate status. This training document content failed to evidence emergency preparedness policy and procedure training.

During an interview on 05/06/24 at 11:45 AM, when asked to see the emergency preparedness training provided to new and existing staff, the administrator provided a copy of a document titled "Client Safety/First Aid/Emergency Procedures".

<p>E0039</p>	<p>EP Testing Requirements</p> <p>483.73(d)(2)</p> <p>§416.54(d)(2), §418.113(d)(2), §441.184(d)(2), §460.84(d)(2), §482.15(d)(2), §483.73(d)(2), §483.475(d)(2), §484.102(d)(2), §485.68(d)(2), §485.542(d)(2), §485.625(d)(2), §485.727(d)(2), §485.920(d)(2), §491.12(d)(2), §494.62(d)(2).</p> <p>*[For ASCs at §416.54, CORFs at §485.68, REHs at §485.542, OPO, "Organizations" under §485.727, CMHCs at §485.920, RHCs/FQHCs at §491.12, and ESRD Facilities at §494.62]:</p> <p>(2) Testing. using a narrated, clinically-relevant emergency scenario, and a set of problem statements, directed messages, or prepared questions designed to challenge an emergency plan.

(iii) Analyze the [facility's] response to and maintain documentation of all drills, tabletop exercises, and emergency events, and revise the [facility's] emergency plan, as needed.

*[For Hospices at 418.113(d):]

(2) Testing for hospices that provide care in the patient's home. The hospice must conduct exercises to test the emergency plan at least annually. The hospice must do the following:

(i) Participate in a full-scale exercise that is community based every 2 years; or

(A) When a community based exercise is not accessible, conduct an individual facility based functional exercise every 2 years; or

(B) If the hospice experiences a natural or man-made emergency that requires activation of the emergency plan, the hospital is exempt from engaging in its next required full scale community-based exercise or individual facility-based functional exercise following the onset of the emergency event.

(ii) Conduct an additional exercise every 2 years, opposite the year the full-scale or functional exercise under paragraph (d)(2)(i) of this section is conducted, that may include, but is not limited to the following:

(A) A second full-scale exercise that is community-based or a facility based functional exercise; or

(B) A mock disaster drill; or

(C) A tabletop exercise or workshop that is led by a facilitator and includes a group discussion using a narrated, clinically-relevant emergency scenario, and a set of problem statements, directed messages, or prepared questions designed to challenge an emergency plan.

(3) Testing for hospices that provide inpatient care directly. The hospice must conduct

Testing Requirements.

The EP committee will analyze the response to and maintain documentation of all drills, tabletop exercises, and emergency events, and revise the agency's emergency plan as needed.

The Administrator is responsible for monitoring the Emergency Plan in compliance with CFR(s): 484.102(d)(2).

<p>exercises to test the emergency plan twice per year. The hospice must do the following:</p> <p>(i) Participate in an annual full-scale exercise that is community-based; or</p> <p>(A) When a community-based exercise is not accessible, conduct an annual individual facility-based functional exercise; or</p> <p>(B) If the hospice experiences a natural or man-made emergency that requires activation of the emergency plan, the hospice is exempt from engaging in its next required full-scale community based or facility-based functional exercise following the onset of the emergency event.</p> <p>(ii) Conduct an additional annual exercise that may include, but is not limited to the following:</p> <p>(A) A second full-scale exercise that is community-based or a facility based functional exercise; or</p> <p>(B) A mock disaster drill; or</p> <p>(C) A tabletop exercise or workshop led by a facilitator that includes a group discussion using a narrated, clinically-relevant emergency scenario, and a set of problem statements, directed messages, or prepared questions designed to challenge an emergency plan.</p> <p>(iii) Analyze the hospice's response to and maintain documentation of all drills, tabletop exercises, and emergency events and revise the hospice's emergency plan, as needed.</p> <p>*[For PRFTs at §441.184(d), Hospitals at §482.15(d), CAHs at §485.625(d):]</p> <p>(2) Testing. The [PRTF, Hospital, CAH] must conduct exercises to test the emergency plan twice per year. The [PRTF, Hospital, CAH] must do the following:</p> <p>(i) Participate in an annual full-scale exercise that is community-based; or</p>			
---	--	--	--

(A) When a community-based exercise is not accessible, conduct an annual individual, facility-based functional exercise; or

(B) If the [PRTF, Hospital, CAH] experiences an actual natural or man-made emergency that requires activation of the emergency plan, the [facility] is exempt from engaging in its next required full-scale community based or individual, facility-based functional exercise following the onset of the emergency event.

(ii) Conduct an [additional] annual exercise or and that may include, but is not limited to the following:

(A) A second full-scale exercise that is community-based or individual, a facility-based functional exercise; or

(B) A mock disaster drill; or

(C) A tabletop exercise or workshop that is led by a facilitator and includes a group discussion, using a narrated, clinically-relevant emergency scenario, and a set of problem statements, directed messages, or prepared questions designed to challenge an emergency plan.

(iii) Analyze the [facility's] response to and maintain documentation of all drills, tabletop exercises, and emergency events and revise the [facility's] emergency plan, as needed.

*[For PACE at §460.84(d):]

(2) Testing. The PACE organization must conduct exercises to test the emergency plan at least annually. The PACE organization must do the following:

(i) Participate in an annual full-scale exercise that is community-based; or

(A) When a community-based exercise is not accessible, conduct an annual individual, facility-based functional exercise; or

(B) If the PACE experiences an actual natural or man-made emergency that requires activation of the emergency plan, the PACE is exempt from engaging in its next required full-scale

functional exercise following the onset of the emergency event.

(ii) Conduct an additional exercise every 2 years opposite the year the full-scale or functional exercise under paragraph (d)(2)(i) of this section is conducted that may include, but is not limited to the following:

(A) A second full-scale exercise that is community-based or individual, a facility based functional exercise; or

(B) A mock disaster drill; or

(C) A tabletop exercise or workshop that is led by a facilitator and includes a group discussion, using a narrated, clinically-relevant emergency scenario, and a set of problem statements, directed messages, or prepared questions designed to challenge an emergency plan.

(iii) Analyze the PACE's response to and maintain documentation of all drills, tabletop exercises, and emergency events and revise the PACE's emergency plan, as needed.

*[For LTC Facilities at §483.73(d):]

(2) The [LTC facility] must conduct exercises to test the emergency plan at least twice per year, including unannounced staff drills using the emergency procedures. The [LTC facility, ICF/IID] must do the following:

(i) Participate in an annual full-scale exercise that is community-based; or

(A) When a community-based exercise is not accessible, conduct an annual individual, facility-based functional exercise.

(B) If the [LTC facility] facility experiences an actual natural or man-made emergency that requires activation of the emergency plan, the LTC facility is exempt from engaging its next required a full-scale community-based or individual, facility-based functional exercise following the onset of the emergency event.

(ii) Conduct an additional annual exercise that may include, but is not limited to the following:

(A) A second full-scale exercise that is community-based or an individual, facility based functional exercise; or

(B) A mock disaster drill; or

(C) A tabletop exercise or workshop that is led by a facilitator includes a group discussion, using a narrated, clinically-relevant emergency scenario, and a set of problem statements, directed messages, or prepared questions designed to challenge an emergency plan.

(iii) Analyze the [LTC facility] facility's response to and maintain documentation of all drills, tabletop exercises, and emergency events, and revise the [LTC facility] facility's emergency plan, as needed.

*[For ICF/IIDs at §483.475(d)]:

(2) Testing. The ICF/IID must conduct exercises to test the emergency plan at least twice per year. The ICF/IID must do the following:

(i) Participate in an annual full-scale exercise that is community-based; or

(A) When a community-based exercise is not accessible, conduct an annual individual, facility-based functional exercise; or.

(B) If the ICF/IID experiences an actual natural or man-made emergency that requires activation of the emergency plan, the ICF/IID is exempt from engaging in its next required full-scale community-based or individual, facility-based functional exercise following the onset of the emergency event.

(ii) Conduct an additional annual exercise that may include, but is not limited to the following:

(A) A second full-scale exercise that is community-based or an individual, facility-based functional exercise; or

(B) A mock disaster drill; or

(C) A tabletop exercise or workshop that is led by a facilitator and includes a group discussion, using a narrated, clinically-relevant emergency scenario, and a set of problem

questions designed to challenge an emergency plan.

(iii) Analyze the ICF/IID's response to and maintain documentation of all drills, tabletop exercises, and emergency events, and revise the ICF/IID's emergency plan, as needed.

*[For HHAs at §484.102]

(d)(2) Testing. The HHA must conduct exercises to test the emergency plan at least annually. The HHA must do the following:

(i) Participate in a full-scale exercise that is community-based; or

(A) When a community-based exercise is not accessible, conduct an annual individual, facility-based functional exercise every 2 years; or

(B) If the HHA experiences an actual natural or man-made emergency that requires activation of the emergency plan, the HHA is exempt from engaging in its next required full-scale community-based or individual, facility based functional exercise following the onset of the emergency event.

(ii) Conduct an additional exercise every 2 years, opposite the year the full-scale or functional exercise under paragraph (d)(2)(i) of this section is conducted, that may include, but is not limited to the following:

(A) A second full-scale exercise that is community-based or an individual, facility-based functional exercise; or

(B) A mock disaster drill; or

(C) A tabletop exercise or workshop that is led by a facilitator and includes a group discussion, using a narrated, clinically-relevant emergency scenario, and a set of problem statements, directed messages, or prepared questions designed to challenge an emergency plan.

(iii) Analyze the HHA's response to and maintain documentation of all drills, tabletop exercises, and emergency events, and revise the HHA's emergency plan, as needed.

*[For OPOs at §486.360]

(d)(2) Testing. The OPO must conduct exercises to test the emergency plan. The OPO must do the following:

(i) Conduct a paper-based, tabletop exercise or workshop at least annually. A tabletop exercise is led by a facilitator and includes a group discussion, using a narrated, clinically relevant emergency scenario, and a set of problem statements, directed messages, or prepared questions designed to challenge an emergency plan. If the OPO experiences an actual natural or man-made emergency that requires activation of the emergency plan, the OPO is exempt from engaging in its next required testing exercise following the onset of the emergency event.

(ii) Analyze the OPO's response to and maintain documentation of all tabletop exercises, and emergency events, and revise the [RNHCI's and OPO's] emergency plan, as needed.

*[RNCHIs at §403.748]:

(d)(2) Testing. The RNHCI must conduct exercises to test the emergency plan. The RNHCI must do the following:

(i) Conduct a paper-based, tabletop exercise at least annually. A tabletop exercise is a group discussion led by a facilitator, using a narrated, clinically-relevant emergency scenario, and a set of problem statements, directed messages, or prepared questions designed to challenge an emergency plan.

(ii) Analyze the RNHCI's response to and maintain documentation of all tabletop exercises, and emergency events, and revise the RNHCI's emergency plan, as needed.

Based on record review and interview, the agency failed to participate in a full-scale community-based or

years to test the emergency plan.

Findings include:

A review of an agency policy titled "Emergency Preparedness Management Policy" indicated agency staff members will participate in an annual desktop drill to determine the effectiveness and efficiency of the current plan.

A review of the agency's emergency preparedness binder failed to evidence a full-scale community-based or facility-based exercise in the last 2 years.

A review of an emergency preparedness team meeting, dated 04/27/23, indicated the agency conducted a fire drill for a kitchen fire on 05/12/22.

During an interview on 05/06/24 at 11:45 AM, when asked when and what testing of the emergency plan had occurred, the administrator indicated the last testing done was a fire drill on 05/12/22 and was not an actual event.

--------------	---	--------------	---	-------------------

as unstageable (unable to determine the depth of the wound), with a small amount of thin, clear drainage of the right leg, and a moderate amount of thin, clear drainage for the left leg. Additionally, the left leg was noted to have macerated skin (skin damage due to excessive moisture) surrounding the wound. The reassessment also indicated there were no wounds or open areas.

During an interview on 4/30/2024 at 3:15 PM, the DON indicated the patient did not have wounds on the date of the reassessment. When asked how someone would know if Patient #1 had wounds, the DON indicated there were no wound measurements so there were no active wounds. The DON was unable to identify when the wounds were healed. The Administrator indicated the electronic system did not always save updated information. The Administrator indicated the reassessment failed to indicate the patient's status or whether there was improvement or decline.

---	--	---	--

following active medications: Baclofen Pump (a device that delivers a muscle relaxant to the fluid in the spinal canal) continuous by mouth, Cefdinir capsule two times a day for 5 days, Levofloxacin tablet daily for 5 days, Vancomycin capsules two times a day for 7 days, and Clotrimazole cream two times a day for 21 days. The revised POC failed to evidence the diagnosis of quadriplegia, failed to evidence safety measures for the following precautions: bleeding, oxygen, seizure, and aspiration, failed to evidence the correct administration route of Baclofen pump, and failed to evidence current medications.

3. During an interview on 05/02/24 at 3:30 PM, when asked why a quadriplegia diagnosis was not included in the POC, the director of nursing indicated Patient #4 had both quadriplegia and paraplegia as diagnoses and indicated quadriplegia was not in the POC. When asked what the route of administration for Baclofen was, the director of nursing indicated the baclofen pump was surgically installed and the by mouth route is

	<p>incorrect. When asked why the medications Cefdinir, Levofloxacin, Vancomycin, and Clotrimazole were active in the current POC, the director of nursing indicated these medications had been discontinued and should not be in the current POC.</p> <p>During an interview on 05/03/24 at 11:25 AM, when asked to be shown where the following safety precautions which included bleeding, oxygen, seizure, and aspiration, could be found in the POC, the director of nursing indicated they were not in the POC.</p>			
G0658	<p>Performance improvement projects</p> <p>484.65(d)(1)(2)</p> <p>Standard: Performance improvement projects.</p> <p>Beginning July 13, 2018 HHAs must conduct performance improvement projects.</p>	G0658	<p>The Administrator in-serviced the Quality Assurance and Performance Improvement (QAPI) committee on the policies and procedures for performance improvement projects (PIP). Designated staff has been assigned to maintaining minutes/documentation on the PIP. Data from Quality Assurance audits helps inform the agency on distinct</p>	2024-06-05

(1) The number and scope of distinct improvement projects conducted annually must reflect the scope, complexity, and past performance of the HHA's services and operations.

(2) The HHA must document the quality improvement projects undertaken, the reasons for conducting these projects, and the measurable progress achieved on these projects.

Based on record review and interview, the home health agency failed to ensure the Quality Assurance and Performance Improvement (QAPI) committee had initiated and documented a performance improvement project (PIP) which was approved by the Governing Body which had the potential to affect all agency patients and staff.

Findings include:

A review of the agency QAPI documentation failed to evidence the agency had initiated or documented PIP(s).

During an interview on 05/03/24 at 1:50 PM, when asked to see the Performance Improvement Projects the agency was currently working on, the administrator indicated they had discussed staffing.

When asked to see the documentation of the discussions, the administrator indicated the discussions had

improvement projects that will be conducted annually. The Governing Body will approve projects recommended that have the potential to affect all agency patients and staff. The Governing Body will review the PIP documentation annually.

On May 20, 2024 the Governing Body reviewed and approved a PIP project on agency staffing.

The Administrator is responsible for monitoring compliance with Performance improvement projects CFR(s): 484.65(d)(1)(2).

	<p>just been written down as notes and not as a documented report.</p> <p>On 05/03/24 at 2:25 PM the administrator provided a copy of agency documents titled "Performance Improvement for 2024 and 2023". When asked if the documents had been put together after the 1:50 PM discussion about PIPs, the administrator indicated yes.</p>			
<p>G0682</p>	<p>Infection Prevention</p> <p>484.70(a)</p> <p>Standard: Infection Prevention.</p> <p>The HHA must follow accepted standards of practice, including the use of standard precautions, to prevent the transmission of infections and communicable diseases.</p> <p>Based on observation, record review and interview, the agency failed to ensure nurses followed appropriate hand hygiene during wound care for 1 of 1 registered nurse (RN) observation of wound care at a home visit (RN 1).</p> <p>Findings include:</p> <p>1. All new nurses will complete this training in the orientationprocess and will be documented in their personnel record.</p> <p>The Director of Nursing is responsible for monitoring infectionprevention in compliance with CFR(s): 484.70(a).</p>	<p>2024-06-05</p>

Disease Control and Prevention (CDC).

2. A review of the CDC Hand Hygiene training materials, available at <https://www.cdc.gov/handhygiene/training/interactiveEducation/>, indicated hand hygiene, by use of soap and water hand wash or the use of an alcohol-based hand rub, is required before donning gloves and after removing gloves.

3. A home visit observation of wound care occurred on 5/1/2024 at 11:20 AM, with Patient #3 and RN 1. During the visit, RN 1 pulled down Patient's brief to inspect for sores. RN 1 removed the gloves and failed to complete hand hygiene prior to donning new gloves. RN 1 then removed the dressing from the Patient's wounds. After washing the Patient's wound areas, RN 1 donned new gloves but failed to complete hand hygiene. RN 1 then applied antibiotic ointment to the wounds. RN 1 removed gloves, used hand sanitizer, waved hands in the air, and then donned new gloves. RN 1 applied a new dressing, donned new gloves with no hand hygiene, and wrapped the

wounds with gauze. RN 1 removed gloves, rubbed hands on scrub pants, and put on new gloves, and stated it was difficult to get new gloves on when their hands were sweaty.

4. During an interview on 5/1/2024 at 2:55 PM, RN 1 indicated hand washing was required prior to starting wound care, after removing the dressing, and after completing the wound care. RN 1 indicated hand hygiene with hand sanitizer occurred when moving between sections of providing wound care and before changing into new gloves. When asked about waving hands after using hand sanitizer, RN 1 indicated they wanted to dry their hands. RN 1 then indicated that waving hands contaminated gloves and should not have been done. When asked about rubbing hands on scrubs because their hands were sweaty, RN 1 indicated they were unaware they did this, and it should not have been done. RN 1 indicated they were nervous.

<p>G0768</p>	<p>Competency evaluation</p> <p>484.80(c)(1)(2)(3)</p> <p>Standard: Competency evaluation.</p> <p>An individual may furnish home health services on behalf of an HHA only after that individual has successfully completed a competency evaluation program as described in this section.</p> <p>(1) The competency evaluation must address each of the subjects listed in paragraph (b)(3) of this section. Subject areas specified under paragraphs (b)(3)(i), (iii), (ix), (x), and (xi) of this section must be evaluated by observing an aide's performance of the task with a patient or pseudo-patient. The remaining subject areas may be evaluated through written examination, oral examination, or after observation of a home health aide with a patient, or with a pseudo-patient as part of a simulation.</p> <p>(2) A home health aide competency evaluation program may be offered by any organization, except as specified in paragraph (f) of this section.</p> <p>(3) The competency evaluation must be performed by a registered nurse in consultation with other skilled professionals, as appropriate.</p> <p>Based on record review and interview, the agency failed to ensure there was a skills competency evaluation prior to providing patient care for 1 of 2</p>	<p>G0768</p>	<p>The Administrator reviewed the agency's policy and procedures on competency assessment with all office staff. Prior to providing independent patient care all HHAs and CNAs will complete a skills competency evaluation. A qualified supervisor/preceptor will document the satisfactory demonstration of skills using the agency's skills assessment checklist. Upon completion the preceptor will notify scheduling to note this in the employee's electronic personnel information. This system change will ensure qualified staff being scheduled. HR will audit personnel records quarterly using the agency's audit form to ensure 100% compliance.</p> <p>The Director of Nursing is responsible for monitoring the competency evaluation in compliance with 410 IAC 17 – 12 – 1(m).</p>	<p>2024-06-05</p>

records reviewed (HHA #2).

Findings include:

1. A review of the policy on competency assessment indicated a skills assessment checklist "... will be used by the supervisor/ preceptor to document the completion of satisfactory demonstration of skills."
2. A review of the policy on delegation of nursing tasks to an aide included the need for the registered nurse to assess the skill of the aide assigned to perform the task by the return demonstration of the nursing tasks.
3. A review of the personnel record for HHA #2 indicated the agency hired them on 11/21/2023. The record failed to include a skills competency assessment.
4. During an interview on 5/3/2024 at 5:15 PM, the Administrator indicated there was no skills competency in HHA #2's personnel record. The Administrator indicated their practice was to complete a skills competency with HHAs or CNAs prior to providing independent

	<p>patient care.</p> <p>410 IAC 17 – 14 – 1(l)(1)(A)</p>			
<p>G0804</p>	<p>Aides are members of interdisciplinary team</p> <p>484.80(g)(4)</p> <p>Home health aides must be members of the interdisciplinary team, must report changes in the patient's condition to a registered nurse or other appropriate skilled professional, and must complete appropriate records in compliance with the HHA's policies and procedures.</p> <p>Based on observation, record review and interview the agency failed to ensure the home health aide (HHA) reported changes in patient status to the registered nurse (RN) for 1 of 1 home visit for HHA observation. (HHA 1)</p> <p>Findings include:</p> <ol style="list-style-type: none"> 1. A review of a policy on home health aide services identified the aide's responsibility to observe and report the patient's condition to the RN. 2. An observation of HHA care for Patient #2 occurred on 5/1/2024 at 10:10 AM. HHA 1 provided care to the patient as surveyor and Director of Nursing (DON) arrived. During the observation, HHA 1 indicated Patient 2's respiratory 	<p>G0804</p>	<p>All staff will be in-serviced on the agency's Home Health Aide Services policy and procedures. Home health aides are members of the interdisciplinary team, responsible for observing and reporting changes in patient status to the RN for documentation in the patient's chart in a timely manner. If unreported changes are discovered either before the next scheduled supervisory visit or at the visit, the HHA will be counseled accordingly and must repeat the in-service training. New hires are oriented to the agency's Home Health Aide Services policy during the orientation process. Charts will be audited quarterly for quality assurance and ongoing 100% compliance.</p> <p>The Director of Nursing is responsible for monitoring compliance with Aides being members of the interdisciplinary team CFR(s): 484.80(g)(4).</p>	<p>2024-06-05</p>

status had changed on 4/26 or 4/27/2024. HHA 1 indicated Patient #2 went to see Person C, (the patient's primary care provider) on 4/30/2024 and received a diagnosis of bronchitis. Two prescriptions were ordered but the patient did not start them due to family concerns about side effects. The DON indicated they were not aware of the symptoms, medical visit, or new prescriptions prior to the home visit. The DON indicated Patient #2 had a diagnosis of chronic obstructive pulmonary disease (COPD; lung diseases that obstruct the airflow from the lungs) and had several hospitalizations related to COPD.

During an interview at the time of the home visit, HHA 1 indicated they would notify the RN if there were changes in the patient, such as new or recurring symptoms. When asked, HHA 1 first indicated they did not notify the RN and the change in symptoms should have been reported. HHA 1 then said they did not notify the RN because it was Saturday. HHA indicated they knew how

	<p>and on weekends and had done that previously. HHA 1 indicated they were going to notify the Alternate DON, Patient #2's regular nurse.</p> <p>3. The record review for Patient #2 failed to evidence documentation HHA 1 notified the office or an RN of Patient #2's symptoms.</p> <p>During an interview on 5/1/2024 at 3:15 PM, the DON indicated they were not aware of the patient's symptoms, visit to the doctor, or new medications. The DON indicated there was no documentation in the chart and they were waiting for a return call from the Alternate DON to determine if HHA 1 contacted them.</p> <p>Two voicemail messages left for the Alternate DON (on 5/2 and 5/3/2024) were not returned by survey exit.</p>			
G1024	<p>Authentication</p> <p>484.110(b)</p> <p>Standard: Authentication.</p> <p>All entries must be legible, clear, complete, and appropriately authenticated, dated, and</p>	G1024	<p>The Administrator reviewed the clinical documentation policy with the Director of Nursing. Documentation of service is documented on the day of service and incorporated into the clinical record within 7 days</p>	2024-06-05

timed. Authentication must include a signature and a title (occupation), or a secured computer entry by a unique identifier, of a primary author who has reviewed and approved the entry.

Based on record review and interview, the agency failed to ensure skilled nurse visit notes were completed within 7 days of the date of service for 3 of 5 active patient records reviewed (Patients #3, 4, and 5) and 2 of 2 discharge patient records (Patients #6 and 7).

Findings include:

X. A review of the clinical documentation policy indicated the documentation of service was to be documented the day of the service and incorporated into the clinical record within 7 days of the date of service.

X. A review of the clinical record for Patient #3 evidenced visit notes by the Director of Nursing (DON). The visit notes for 3/15, 3/21, 3/22, 3/25, 3/27, and 3/28/2024 were in pending status.

During an interview on 5/2/2024 at 9:30 AM, the DON indicated their notes for Patient #3 were incomplete as they no longer had a registered nurse in the office to approve the notes.

X. A review of the clinical

of the date of service. A systemic change allowing the primary author of the documentation to review and approve the entry alleviates previous confusion on approval of the documentation. All patient records were reviewed to ensure skilled nurse visit notes were completed and authenticated. Charts will be audited quarterly for quality assurance and ongoing 100% compliance.

The Director of Nursing is responsible for ensuring compliance with authentication of clinical documentation in a timely manner CFR(s): 484.110(b).

record for Patient #7 evidenced visit notes completed by the DON. On 5/3/2024, the visit notes for 11/10, 11/15, 11/20, and 11/22/2023 were in pending status, though Patient #7 was discharged on 11/23/2023.

During an interview on 5/2/2024 at 9 AM, the DON indicated the notes were pending as there was no nurse to approve them. The DON indicated they did not know if they could approve their own notes.

X. During an interview on 4/30/2024 at 9:45 AM, the Administrator indicated visit notes were considered completed after a registered nurse reviewed and approved the notes. Notes which were not completed or approved were considered pending notes.

410 IAC 17 – 15 – 1(a)(7)

A review of the clinical record of Patient #4 for certification period 04/11/24 – 06/09/24 included orders for a skilled nurse to make daily visits seven days a week.

Record review included agency

documents titled "Care Note Report" completed by the director of nursing on dates: 04/16/24, 04/17/24, 04/18/24, 04/19/24, and 04/22/24 that evidenced the status of the documents as pending.

A review of the clinical record of Patient #5 for certification period 04/01/24 – 05/30/24 included orders for a skilled nurse to make one visit a month.

Record review included an agency document titled "Care Note Report" completed by the director of nursing on 04/12/24 that evidenced the status of the document as pending.

A review of the clinical record of Patient #6 for certification period 03/04/24 – 05/02/24 included orders for a skilled nurse to make one visit a day for up to 4 days a week.

Record review included agency documents titled "Care Note Report" completed by the director of nursing on dates: 03/15/24, 03/22/24, 03/25/24, and 03/27/24 that evidenced the status of the documents as pending.

Based on record review and interview, the home health agency failed to provide approved dementia training to home health aides (HHA) providing care to patients with diagnosis of dementia, alzheimer's or a related cognitive disorder in 1 of 1 agency.

Findings include:

1. A review of the clinical record of Patient #8 included a plan of care for certification period 04/25/24 – 06/23/24 that indicated a diagnosis included, but not limited to, dementia and included orders for a HHA to make one visit a day for five days a week.

Record review evidenced HHA 4 was assigned to provide care to Patient #8.

2. A review of HHA personnel records failed to evidence the agency provided HHA 4 with approved state dementia training.

3. During an interview on 05/03/24 at 3:55 PM, when asked to see the approved

checklist. HR will conduct personnel record reviews quarterly using the agency's audit form to ensure 100% compliance. The Director of Nursing is responsible for monitoring this practice.

<p>provided to the HHAs, the administrator indicated did not know what that training was.</p>
