	<p>Finding includes:</p> <p>During an interview on 4/20/23 at 10:34 a.m., the Social Service Director indicated on 4/19/23 at approximately 6:20 p.m., LPN 1 (Licensed Practical Nurse) notified the Social Service Director, via text, that Resident C stabbed Resident B in the neck. After that happened, Resident C ran out the front door and down the street. Resident B was being sent to the emergency department. This happened in the smoking area right outside the main dining room sliding glass doors. Resident C had been taking photographs of Resident B and not following the smoking policy, so Resident C was given a 30 day discharge notice on 4/19/23.</p> <p>During an interview on 4/20/23 at 10:51 a.m., LPN 1 indicated she was the nurse in the facility, on 4/19/23, when Resident C stabbed Resident B. Resident B and Resident C were both outside during an unsupervised smoke time. The smoking area was right outside the main dining room sliding glass doors. CNA 1 (Certified Nursing Aide) was sitting at a table inside the dining room near the sliding glass doors. CNA 1 reported to LPN 1 that Resident C was walking toward the sliding door. Then, when he got close to Resident B, CNA 1 thought Resident C hit Resident B. CNA 1 heard Resident B yell out, and CNA 1 ran to Resident B. Resident C ran inside the sliding doors and back to his room. Once LPN 1 called 911, Resident C walked out of his room and CNA 2 followed him out of his room. When CNA 2 opened the front door Resident C ran out. When the police pulled into the parking lot, LPN 1 pointed in the direction Resident C ran. The police met Resident C approximately 600 feet away near a wooded area. LPN 1 believed Resident D witnessed everything that happened outside.</p>		<p>2) How the facility will identify other residents having the potential to be affected and what corrective action will be taken? 	<p>During an interview on 4/20/23 at 11:12 a.m., Resident D indicated he was outside yesterday during an unsupervised smoke time at approximately 6:30 p.m. Resident B was sitting to the side of the sliding glass door. He saw Resident C quickly walk toward Resident B. When Resident C got next to Resident B's left side, Resident C punched Resident B with a closed, right, fist 4 times. Then, Resident C appeared to have a silver object, in the left hand, that was 3 to 4 inches in length and looked like it was sharp. Resident C stabbed Resident B in the neck using his left hand. Resident C walked inside the sliding glass doors and staff came outside to help Resident B. This all happened fast, and Resident B didn't have time to protect herself. Resident D was not sure how long it took for staff to come outside to help Resident B. Resident C told Resident D he was upset because Resident B wouldn't have sex with him anymore and was really upset after getting a 30 day discharge notice to move out from the Social Service Director. Resident D didn't see staff in the area and indicated the people outside could smoke without staff because they could smoke unsupervised.</p> <p>During an interview on 4/20/23 at 11:25 a.m., the DON (Director of Nursing) indicated Resident C had been accusing Resident B of being a prostitute for the past couple months. Resident C had been obsessive over Resident B for the past couple weeks and Resident C had been taking pictures of her on his phone. Resident C was already on 15 minute checks due to being convicted of sexual battery. The DON indicated the facility did not increase supervision for Resident C because he had not been physical with Resident B and Resident B said she was not afraid of Resident C.</p>		<p>for staff, through the Indiana Department of Corrections (Facility contacts: G.
