Any deficiency statement ending with an asterisk (*) denotes a deficiency which the institution may be excused from correcting providing it is determined other safeguards provide sufficient protection to the patients. (see instructions.) Except for nursing homes, the findings stated above are disclosable following the date of survey whether or not a plan of correction is provided. For nursing homes, the above findings and plans of correction are disclosable following the date these documents are made available to the facility. If deficiencies are cited, an approved plan of correction is requisite to continued program participation.

	<p>having lunch when he stood up and tripped on the chair leg and fell to his right. Nursing immediately assessed the resident who complained of lower extremity pain and was unable to bend his leg. Pain medication was given, and the Physician (MD) was notified and gave an order to send to the emergency room (ER) for evaluation and treatment. Resident B was diagnosed with a left femur fracture and the femur was surgically repaired.</p> <p>Resident B's record was reviewed on 10/23/24 at 10:04 a.m. Diagnoses on Resident B's profiled included, but were not limited to, Alzheimer's disease (a progressive disease that destroys memory and other important mental functions, memory loss and confusion being the main symptoms), and generalized weakness.</p> <p>A fall care plan for Resident B, dated 3/23/24, indicated the resident was at risk for falls related to confusion, cognitive impairment, psychotropic and diuretic medication use, and unsteady gait. Interventions included a night light, anticipating and meeting resident needs, call light within reach and encourage the resident to use it for assistance as needed, and appropriate footwear when ambulating or mobilizing in a wheelchair.</p> <p>A quarterly assessment and a State Optional assessment, both completed on 9/19/24, assessed Resident B as having the ability to make herself understood and understand others. A Brief Interview for Mental Status (BIMS) score 3/15 indicated severe cognitive impairment. The resident was extensive assistance of 1 person physical assist for bed mobility, and limited assistance of 1 person physical assist for ambulation. No falls were documented since the last assessment.</p>				<p>Nursing staff education on resident falls and response to falls was conducted beginning October 28, 2024.</p> <p>The IDT team will review any falls that have occurred and ensure that appropriate documentation has been completed.</p> <p>3—What measures will be put into place and what systemic changes will be made to ensure that the deficient practice does not reoccur?</p> <p>The IDT team will review Monday through Friday any falls that have occurred and ensure that appropriate documentation has been completed.</p> <p>DON/Designee will audit falls five times a week for 8 weeks and then weekly for 8 weeks and then monthly for 2 months.</p> <p>4—How will the corrective actions be monitored to ensure the deficient practice will not reoccur?</p> <p>Audit results will be reviewed and reported to the IDT in QAPI.</p> <p>Determination of ongoing monitoring will be completed within the QAPI process.</p>

	<p>A Medication Administration Record (MAR), dated 10/12/24 at 10:30 a.m., indicated acetaminophen (Tylenol, analgesic) 325 milligram (mg) give 3 tablets by mouth every 4 hours as needed for pain was documented as administered.</p> <p>A Fall Risk Evaluation, dated 10/12/24, indicated a score of 14 high risk for falls. Resident B was ambulatory and had 1 to 2 falls in the past 3 months. He was disoriented times 3 (person, place, and time) at all times. Resident B was unable to stand, and staff were unable to assess his gait or balance after the fall.</p> <p>Text messages between Licensed Practical Nurse (LPN) 8 and NP, dated 10/12/24: At 10:22 a.m., LPN 8 indicated Resident B tripped and had an unwitnessed fall. Resident B had pain of 10 in right leg and was unable to move. Resident B would not lay it straight. Pain increased when positioned into a chair, normally ambulates, and resident was not able to put pressure on it. At 10:27 a.m., NP indicated to get a hip and femur x-ray. Ordered orthostats every shift for 3 days, indicated to push fluids, and asked if the resident was on blood pressure medicine. At 10:31 a.m., LPN 8 indicated at this time the patient was having trouble sitting or standing related to pain. At 10:55 a.m., LPN 8 indicated the patient was in his room moaning and indicated he wanted to go to ER because the pain was excruciating and Tylenol wasn't touching it. At 10:56 a.m., NP indicated ok.</p> <p>An eInteract Transfer Form, dated 10/12/24 at 10:59 a.m., indicated Resident B was sent to a local hospital on 9/20/24 at 4:06 p.m. for a fall.</p>

	<p>Assistant Director of Nursing (ADON) indicated after a fall, the nurse was supposed to assess the resident to include vital signs, range of motion, and injuries to include skin tears, broken bones, or head injuries. If the fall was unwitnessed, neurological checks would be initiated, and pain medication would be administered if appropriate. The on call person for nursing, MD/NP, and resident responsible party were notified. New orders for treatment were obtained and started. If a resident was suspected of having a broken bone, the resident would not be moved, the MD would be contacted for orders, and the resident sent 911 to the hospital.</p> <p>A confidential interview during the survey indicated that the resident had been independent with ambulation before a recent fall although he had a shuffling gait. On 10/12/24 around 10:00 a.m., the resident tripped over a chair leg getting up from a table. After the resident fell the staff had put him in a wheelchair, had him walk, possibly placed him in bed, and he had not been sent to the ER for evaluation and treatment until hours later between 4:00 p.m. or 5:00 p.m. when he continued to complain of pain and requested to be sent to the hospital.</p> <p>During an interview on 10/25/24 at 6:30 p.m., the Director of Nursing (DON) indicated on 10/12/24 nursing staff had moved Resident B after he fell onto the floor in the dining room and put him into a wheelchair. Documentation indicated that the resident was complaining of pain and could not straighten his leg. The DON indicated it was her opinion that the resident was timely sent to the hospital.</p> <p>On 10/23/24 at 2:20 p.m., the Executive Director Provided a Response to Falls policy, undated, and</p>
