	<p>1. The clinical record for Resident B was reviewed on 8/3/23 at 1:49 a.m. Diagnoses included dementia, hearing loss and hypertension.</p> <p>An incident note, dated 6/16/23 at 4:50 a.m., indicated staff had witnessed Resident D hitting Resident B in the face with a blanket that Resident B was covering himself with. The repetitive hitting caused Resident B's glasses to bend, and hit his upper left brow resulting in a small skin tear. Staff indicated they felt the incident occurred due to Resident B's "incessant hollering" to go home.</p> <p>2. The clinical record for Resident D was reviewed on 8/3/23 at 1:20 p.m. Diagnoses included Alzheimer's disease. A nursing note, dated 6/16/23 at 10:26 a.m., indicated the resident's wife had been notified of the altercation the resident had with another resident earlier in the morning. The physician had been notified.</p> <p>During an interview on 8/3/23 at 12:28 p.m., the Administrator indicated she had not reported the resident-to-resident incident due to lack of intent. She reviewed the camera footage and Resident D would have hit any resident that was in his way. He wanted Resident B's blanket and the incident had no personal intent. It had not appeared that the resident actually hit Resident B. She had made the determination not to report the incident, but had not reviewed the incident note in the medical record. She should have reported it to the Indiana Department of Health (IDOH).</p> <p>The Administrator indicated she used the "Indiana State Department of Health, Incident Reporting Policy." Review of the current document, dated 12/8/23, indicated the following: "...II. RESIDENTIAL CARE FACILITIES...410 IAC</p>				<p>related to abuse.</p> <p>3. Staff re-educated on abuse policy and reporting of any concerns identified.</p> <p>4. Monthly interviews with at least 6 residents and/or families will be conducted x 6 months. Any non-compliance identified will be brought to monthly Quality Assurance Meetings for review. At the end of 6 months interviews will be discontinued if no new non-compliance identified.</p>
