TITLE

(X6) DATE

Any deficiency statement ending with an asterisk (*) denotes a deficiency which the institution may be excused from correcting providing it is determined that other safeguards provide sufficient protection to the patients. (See instructions.) Except for nursing homes, the findings stated above are disclosable 90 days following the date of survey whether or not a plan of correction is provided. For nursing homes, the above findings and plans of correction are disclosable 14 days following the date these documents are made available to the facility. If deficiencies are cited, an approved plan of correction is requisite to continued program participation.

K 000	Continued From page 1 National Fire Protection Association (NFPA) 101, Life Safety Code (LSC) and 410 IAC 16.2. The facility consists of three one story connected buildings separated by a two or three hour fire barrier. (Bldg. 01) consists of the original building which includes the 100 hall, 200 hall, and the kitchen. (Bldg. 02) consists of the service hall and laundry room. (Bldg. 03) consists of the 2003 add on which includes the 300 hall, therapy, and the dining room. All were surveyed with Chapter 19, Existing Health Care Occupancies. (Bldg. 01) was determined to be of Type II (111) construction and was sprinklered. This building has a fire alarm system with smoke detection in corridors and spaces open to the corridors. Hard wired smoke detectors were provided in the resident rooms. The facility has a capacity of 119 and had a census of 48 at the time of this survey. All areas where residents have customary access were sprinklered. All areas providing facility services were sprinklered with the exception of the detached room housing generator # 1, and a detached storage building used for storage.	K 000
