Any deficiency statement ending with an asterisk (*) denotes a deficiency which the institution may be excused from correcting providing it is determined other safeguards provide sufficient protection to the patients. (see instructions.) Except for nursing homes, the findings stated above are disclosable following the date of survey whether or not a plan of correction is provided. For nursing homes, the above findings and plans of correction are disclosable following the date these documents are made available to the facility. If deficiencies are cited, an approved plan of correction is requisite to continued program participation.

	<p>11. Hypoglycemia...</p> <p>12. Acute encephalopathy..."</p> <p>A significant event note from Resident B's hospitalization, dated 3/6/24 at 5:10 a.m., indicated the resident's condition was worsening and there was a concern that he would not survive the next "24 hours."</p> <p>A hospital nurse practitioner's note, dated 3/6/24 at 8:46 a.m., indicated Resident B continued to decline overnight requiring four vasopressors, bicarbonate infusions, and continuous venovenous hemofiltration (a type of dialysis). Lactate levels continued to climb with continued pancytopenia and coagulation malfunctions. "Despite best efforts no improvement was seen. This morning family wishes were to transition to comfort measures."</p> <p>Resident B died at the hospital on 3/6/24 at 9:37 a.m. A copy of his death certificate, provided by his family on 9/5/24, indicated the cause of death was complications of adrenal crisis.</p> <p>An interview with Resident B's nurse practitioner 1 (NP 1) at the facility was conducted on 9/4/24 at 1:54 p.m. NP 1 indicated he had just taken over Resident B's care on February 14, 2024. He indicated prior to him becoming his patient, he had another provider but was last seen by that provider October 2023. He indicated he had seen Resident B, on 2/14/24 and 2/28/24, and did not have any concerns at that time. NP 1 indicated he had never been told by the facility that Resident B was refusing his medications. He indicated based on Resident B's medical history; he would want to be notified of such findings. He indicated if he had known about the refusals, he could have "highly educated" the resident on the importance</p>

	<p>of the medications he had prescribed to him, ordered laboratory tests, requested a psychological evaluation, or send the resident to the hospital.</p> <p>An interview with Resident B's family member was conducted on 9/3/24 at 11:20 a.m. They indicated when they got to the hospital, on 3/4/24, to see their dad, he was" howling" in pain, crying and begging for their help. She indicated no one from the facility notified the power of attorney that their dad's brother moved in to "take care of him" and a facility staff member had indicated to her that the staff didn't need to care of him because his brother was there to do that. They indicated when they went to the facility and looked at their dad's room there was mold on the dishes, his bed had feces on it, and all his plants were dead. They stated it was not like their dad to have his room messy.</p> <p>A change in condition policy, received on 9/4/24 at 4:02 p.m., indicated "All Community staff are responsible for promptly communicating any change in condition that is reported by a resident, loved one, and/or noted by any employee to the Director of Nursing or designee...D. Examples of change in condition may include, but is not limited to...</p> <ol style="list-style-type: none">1. Significant, notable changes to intake pattern...2. Decreased mobility/ range of motion, motor agitation or delay, weakness, decreased coordination...3. Change in patterns of elimination...4. Change in level of consciousness...5. Decline in cognitive function, changes in communication/response...7. Elevated or subnormal temperature...11. Changes in vital signs...12. Reaction/side effects to medications...
