

Indiana Trauma and Emergency Medicine Symposium

December 4, 2024 / Forum Events Center, Fishers, Indiana

Time (ET)	Topic & Speakers
7:30-8:00 a.m.	Registration and Exhibitor Networking
8:00 a.m.	Welcome Madeline Wilson, MSN, RN, CLSSBB Trauma System Development Manager, Indiana Hospital Association
8:10-8:45 a.m.	Indiana's State Trauma Plan Lindsey Weaver, MD, FACEP State Health Commissioner, Indiana Department of Health Dr. Weaver will share Indiana's new State Trauma plan. This Trauma System Plan, the first for the State of Indiana, aims to provide a framework for the continued coordination and sustainment of the system to reduce the burden of injury.
8:45-9:50 a.m.	The Diana Mystery Kenneth Mattox, MD, FACS Distinguished Service Professor at Baylor College of Medicine/Chief of Staff and Surgeon-in-Chief at Ben Taub Hospital Over the course of his career, Dr. Mattox has revolutionized trauma surgery and care, worked with United States presidents and Middle Eastern royalty, and trained thousands of health care workers in the region. Mattox has made significant breakthroughs in trauma resuscitation—specifically regarding shock, trauma systems, thoracic trauma, vascular trauma, auto transfusion, complex abdominal trauma, and multi-system trauma. Learn about how his medical experience has led to a conclusion on how Princess Diana really died.
9:50-10:25 a.m.	Rural Health and EMS Eric Yazel, MD EMS Medical Director, State of Indiana Indiana has many rural hospitals, including some with more than a 45-minute travel time to care. This presentation will discuss interfacility transfers, particularly rural critical hospital access to tertiary care centers, and care for trauma patients.
10:25-10:40 a.m.	Break
10:40-11:15 a.m.	Homeland Security and Response to State Events Joel Thacker Former Executive Director, Indiana Homeland Security, Carmel Fire Chief Trauma can happen by natural events, such as a weather event, a medical emergency, such as a pandemic, or a violent event, such as a mass shooting. This presentation will share recent events that have impacted communities in our state and discuss ways to obtain additional support when crisis strikes.
11:15-11:50 a.m.	Penetrating Extremity Injuries Kenji Inaba, MD, FACS, FRCS Professor of Surgery, Anesthesia, and Emergency Medicine at the University of Southern California Keck School of Medicine. /Division Chief for Trauma, Emergency Surgery and Surgical Care at the Los Angeles Medical Center Dr. Inaba brings his expertise in trauma, emergency surgery, and surgical critical care to the treatment of patients in crisis and the education of future trauma surgeons. A trauma expert who led collaborative input on an updated version of the STOP THE BLEED course, Dr. Inaba will speak about aspects of trauma care as it relates to penetrating extremity injuries.

11:50-12:50 p.m.

Lunch, Exhibitors & Simulation Vehicles Tours

12:50-1:55 p.m.

Trauma System Development

Dennis Ashley, MD, FACS

Will C. Sealy Endowed Chair Professor of Surgery, Mercer University School of Medicine/Director of Trauma, Atrium Health Navicent Medical Center

Dr. Ashley has served as the chairman of the Georgia Trauma Commission since its inception in 2007. Learn best practices on how he has been instrumental in not only developing programs to support funding the trauma system, but also how he led efforts to improve trauma center accountability.

1:55-2:30 p.m.

Pediatric Emergency Readiness and Case Review

Lindsey Haut, MD

Pediatric Emergency Medicine Physician, Asst. Professor of Clinical Emergency Medicine/ Program Director, IEMS for Children

Margo Knefelkamp, Program Manager, IEMS for Children

Research has shown that high pediatric readiness in emergency room departments improves outcomes for children. Learn from the Indiana Emergency Medical System for Children team about this and hear a case review of the impact that being pediatric ready can have.

2:30-2:45 p.m.

Break

2:45-3:20 p.m.

Less Lethal Weapon Injury Management

Kenji Inaba, MD, FACS, FRCSC

Professor of Surgery, Anesthesia, and Emergency Medicine at the University of Southern California Keck School of Medicine. /Division Chief for Trauma, Emergency Surgery and Surgical Care at the Los Angeles Medical Center

Dr. Kenji Inaba not only takes on taser volts but also drops pearls about how to manage injuries from non-lethal weapons. Learn about the treatment of injuries from such things as tasers, beanbags, and pepper spray.

3:20-3:55 p.m.

Crawfordsville Whole Blood Program

Deputy Chief Paul Miller, AS

Deputy Chief, Crawfordsville Fire Department

Seth Green, BS

Paramedic Field Training Officer

On February 7, 2024, the Crawfordsville Fire Department (CFD) picked up one unit of low titer O+ whole blood to become the first rural agency in the Midwest to administer whole blood on a ground ambulance. Learn how having access to the whole blood, the CFD paramedics are providing critical care in trauma situations that most other rural EMS agencies do not have access to do.

3:55-4:30 p.m.

Trauma Survivors Network and Personal Story

Thomas McDorr, MDiv, BCC

Chaplain, Trauma Services/TSN Coordinator IU Health Methodist Hospital

Erica Buck, Trauma Survivor

The Trauma Survivors Network (TSN) is a community for survivors and their families to connect and rebuild after a traumatic physical injury. Hear one victim's story and how she was supported by a TSN Coordinator at the Indiana hospital where she received care.

4:30 p.m.

Closing Remarks

The Indiana State Medical Association (ISMA) designates this live activity for a maximum of 6 *AMA PRA Category 1 Credits*[™]. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

This activity has been planned and implemented in accordance with the accreditation requirements and policies of the Accreditation Council for Continuing Medical Education (ACCME) through the joint providership of the ISMA and the Indiana Hospital Association. The ISMA is accredited by the ACCME to provide continuing medical education for physicians.

A certificate of participation will be provided to other health care professionals requesting credits. Participants should ensure in advance that their credentialing or licensing organization accepts *AMA PRA Category 1 Credits*[™] or ANCC credits.

Parkview Health is accredited as a provider of nursing continuing professional development by the American Nurses Credentialing Center's Commission on Accreditation.

Day Two Educational Offerings

December 5, 2024/Forum Events Center, Fishers, Indiana

Time (ET)**Topic**

7:30-8:00 a.m.

Registration

9:00-4:30 p.m.

Pediatric Pitfalls-Medical & Pediatric Injuries - 138 seats available

Scott DeBoer, RN, MSN, CPEN, CEN(Ret), CFRN (Ret), EMT-P
Pedi-Ed-Trics Emergency Medical Solutions, LLC

Topic Includes: Emergency assessment of crashing kids, emergency care of crashing kids, pediatric medical pearls, pediatric trauma tales, and the famous Jeopardy Jewels!

For: Nursing, EMS, and Respiratory Professionals. Six contact hours awarded to Nurses, RTs, and EMS Professionals.

8:00-5:00 p.m.

Trauma Registrar Essentials - 36 seats available

Pomphrey Consulting, LLC

Topic Includes: The Trauma Registrar Essentials course meets the ACS requirements and is designed to provide trauma registrars with a strong foundation of knowledge that they can apply to daily tasks. It goes in depth with explanations of the Trauma Registrar role and the significant part they play in quality data abstraction for the trauma centers, the NTDS Data Dictionary, trauma scoring systems, and so much more.

For: This course would be good for TPMs that are learning what the registry can do for them as well as new registrars and a refresher for experienced registrars. Eight contact hours provided for all participants.

7:55-4:45 p.m.

Geriatric Education for EMS - 18 seats available

NAEMT

Topic Includes: The GEMS course helps EMS practitioners learn to conduct a comprehensive assessment of geriatric patients. Because the aging process affects all body systems, NAEMT's course provides an overview of changes that occur as people age and describes how those changes can impact patient presentation.

For: This 8-hour classroom course is appropriate for EMTs, paramedics, emergency medical responders, nurses, physician assistants, and physicians. Students who successfully complete the course receive a certificate, a card recognizing them as a GEMS provider for 4 years, and 8 hours of CAPCE credit.

**Lunch provided*
