- Basic, straightforward review of relevant pathophysiology of shock,
- Less emphasis on theory & more on pragmatic concerns.
- Rational guidelines & practical clinical tools for rapid stabilization of the critically injured
- Review of essential principles of transfer of trauma victims to higher levels of care, with anticipation that the critical trauma victim will require no more than 30 minutes.

Division of
Trauma &
Injury Prevention

**6.5 Continuing
Education Credits
Available**

High-Fidelity Simulation-Based Methods for Learning

- On-Site, Regionally-Based Training
- State of the Art Simulation Methodologies
- Hands-on Skills Review
- Recognized Expert Educators
