\* Although this item was over individual budget, funds were transferred among accounts (++) to meet specific needs, while staying within our total budget.

++ Cemetery Maintenance costs were less than budgeted because of changes from contracted maintenance to a caretaker in some cemeteries and fewer special maintenance projects.

+ Paint & Painting Costs were less than budgeted due to no available county community service workers.

\*\* See Special Appropriation.

**2013 Activities**

Monthly Meetings – Structured monthly meetings for board members.

Availability to the Public – We are available 10:00 – 3:00 p.m. first Friday of each month and other times by phone or e-mail.

Cemetery Visitations – We incorporated with two of our monthly meetings, visitations as a board, to eight pioneer cemeteries. This was done to acquaint all members with the La Porte County cemeteries and to determine individual cemetery needs as an aid to determining priorities on maintenance, repair and restoration and inspect contracted work.

Historians/Liaisons Volunteers – Volunteers watched over our cemeteries and reported any act of vandalism or cemetery need.

Stone Restorations – Phase #2 of stone restoration was completed at Miriam Benedict Cemetery and one repaired and all stones cleaned and sealed at Webster Cemetery by Mark Davis of Stone Saver Cemetery Restoration.

Fencing – Phase #5 of the restoration of the wrought iron fence were completed at Posey Chapel Cemetery by Rustic Fencing, Inc. Painting of fences at Miller Griffin & Rossburg cemeteries were completed. Fence at Sharp Cemetery was repaired.

Documentation/Photographs – We continued to photograph and document tombstones before they become illegible or vandalism occurs. We have also continued to seek out locations of old cemeteries not known to us previously and then research and document.

Written Reports on Cemeteries – Board members are assigned certain cemeteries that are to be checked by them for caretaking condition and other items throughout the year and they then report their findings on a Cemetery Inspection Report Record.

Request for Bids and Contracts – We continue to use standardized forms for Request for Bids for Cemetery Maintenance and Contracts for Cemetery Maintenance as well as for Uncontracted Maintenance of Cemeteries and for Stone Restoration, etc.

Cemetery Maintenance – Pioneer Cemeteries without any funding are maintained by a contracted firm who is doing excellent work. Others that had caretakers and/or some funding for maintenance were aided with funds budgeted by the Cemetery Commission. Perimeters of Norton, Sharp and Miller Griffin sprayed with weed kill to aid maintenance; a path to and the area of and around Downing Cemetery was cleared.

Signage - New sign at Kingsbury Cemetery, a history sign at Beattys' Corners Cemetery and a location sign at the highway for Miller Griffin Cemetery were installed, the latter by the La Porte County Highway Dept.

**2014 Cemetery Commission Plans**

Monthly Meetings – Structured monthly meetings for Board Members.

Availability to the Public – Available to public 10:00 am – 3:00 pm first Friday of each month and otherwise by e-mail, phone or mail.

Cemetery Visitations – Continue to visit various cemeteries as a group to acquaint all members with the La Porte County cemeteries and to set priorities.

Historians/Liaisons-Volunteers – Continue to have volunteers watch over our cemeteries and report any act of vandalism or cemetery need. Encourage the continuation of transcribing all gravestones, photography, writing histories and identifying veterans graves with the aid of volunteers.

Discovery and Research – Seek out the locations of old cemeteries not known to us previously and then view, research and document, especially Allen Toney Family Burial Ground and Harvey Cemetery as well researching and documenting known cemeteries and the burials therein. Also survey of Miriam Benedict property lines and seek deed documentation of various cemeteries.

Continued Preservation of Our Cemeteries – Caretaking is extremely important in our cemeteries as it can affect the safety of individuals visiting the cemeteries.

1. Communication with sexton/caretakers to allow them to make the needs of their individual cemeteries known to the board and discuss ways to prevent vandalism. Enter into written agreements with them detailing the work to be performed in the cemeteries stating a specific amount to be budgeted for the work from Commission funds.
2. Contract with lawn care services for cemetery maintenance for those cemeteries who do not have caretakers. Seek aid of County Highway Dept. for needed removal of trees, etc. grading entrance at Shippeeburg and placing wood chips there.
3. Many of our tombstones are in need of repair. We will contract for the repair and restoration of stones at Miriam Benedict cemetery (Phase #3) for a minimum of \$12,000.00.
4. Paint fences at Foster and Nickel Plate cemeteries.
5. Continue replacement of fence at Posey Chapel & others as funds permit.
6. Continue to replace signs at cemeteries as funds permit.
7. Continue to work with the LaPorte County Community Service to provide labor for fence painting, etc.
8. We have begun a program of historical research to install signs at the cemeteries telling about their history. We have installed signs at Eahart-Reed, Norton, Coulter, Hudson Lake, Tuley, Maple Grove, Pike and Beattys Corners and install others this year as research is completed.
9. Mulch path to Downing Cemetery.

Written Reports- Continue using the Cemetery Inspection Form, a written report for board members to report on the condition of our cemeteries throughout the year.
