1 Harrah's Hoosier Park had one race day cancellation, with 160 days total scheduled.

2 Quarter Horse handle is calculated on a *per race* basis, not daily. There were six dedicated all Quarter Horse race dates.

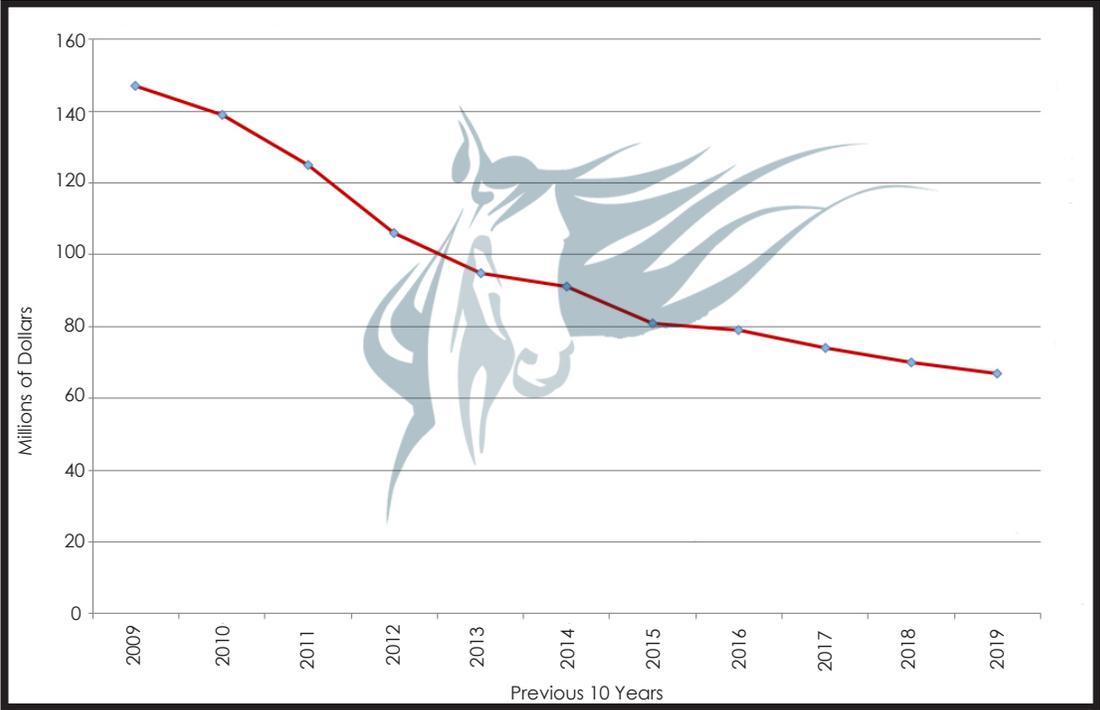

3 Harrah's Hoosier Park wagered \$896,642 on Indiana Grand's Thoroughbred and Quarter Horse simulcast signal. Indiana Grand wagered \$488,952 on Harrah's Hoosier Park's Standardbred simulcast signal. These handle numbers are included in the "Export Handle" above by source of signal and in "In-State Handle" by location of wager.

4 Handle at Indiana OTBs on racing originating in-state is accounted for in "In-State Handle" source of wager (i.e. Harrah's Hoosier Park's OTB handle on Harrah's Hoosier Park's live racing is attributed to Harrah's Hoosier Park).

Distribution of the Wagering Dollar

The following is a breakdown of the distribution of all money wagered at Harrah's Hoosier Park and Indiana Grand, as well as their satellite facilities:

*Pari-Mutuel Tax - includes satellite facility tax.

*Breakage - the difference in the rounding off of pari-mutuel payoffs.

State Revenues

The following revenue is collected in accordance with pari-mutuel statute IC 4-31 and gaming statute IC 4-35. Funds noted with an asterisk are directed by statute to the state's General Fund:

Harrah's Hoosier Park

Total State Revenue \$4,420,336

The Indiana Horse Racing Commission's operating fund expenditures for calendar year 2019 were \$2,318,354 prior to receiving any allowable reimbursements. It was determined by the State Budget Agency that breakage and outstanding ticket revenue be deposited into the Commission's operating fund.

Occupational Licensing

Pursuant to IC 4-31-6 and 71 IAC 5-1-1, all persons participating in pari-mutuel racing under the jurisdiction of the Commission are required to be licensed. The licensing process is the backbone of the Commission's regulatory efforts. Each prospective licensee is fingerprinted.

The Federal Bureau of Investigation provides the Commission with criminal histories of all applicants. The Commission may refuse or deny the application for licensure of any person whose criminal or racing violation record is contrary to the public's best interest.

Drug Testing

Pari-mutuel horse racing can succeed as a legitimate major league sport only if its races are perceived by the wagering public to be honest, competitive contests, free from manipulation by man or drugs. The Commission's drug detection program is one of the nation's most comprehensive and its laboratory, one of the most respected in the racing industry.

Breed	Race Dates	Urine	Blood	Positive Tests
Standardbred	160	2,199	2,429	7
Thoroughbred/QH	120	1,642	1,720	25
Total		3,841	4,149	32

The Commission's assessed penalties for equine positives are determined based upon national industry standards set by the ARCI Uniform Classification Guidelines for Foreign Substances and Recommended Penalties Rule.

In 2019 Industrial Laboratory in Denver, Colorado, served as the Commission's primary laboratory.

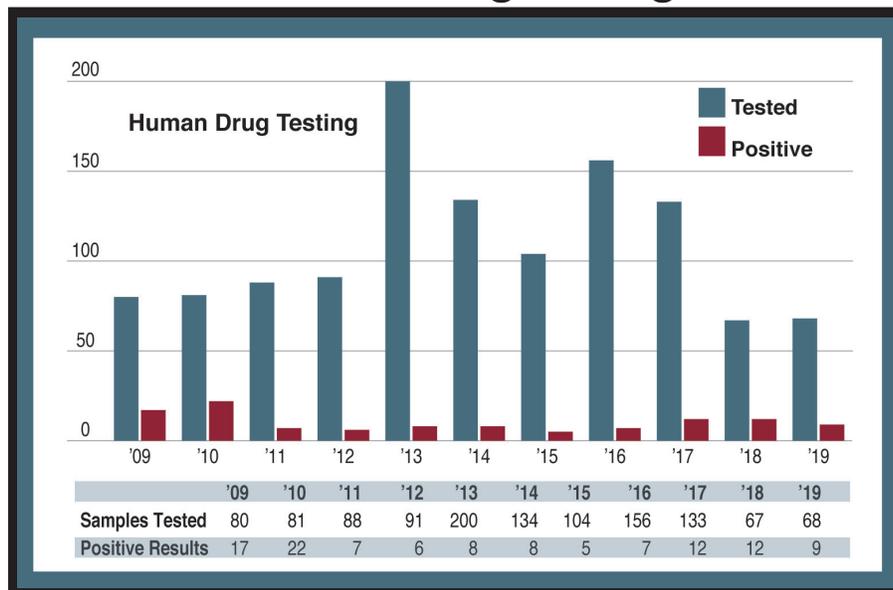

The following table represents a further breakdown, by breed, of the name and types of drugs reported by the laboratory.

Breed Development Programs

Overview

Pursuant to IC 4-31-11, breed development programs were created to promote the breeding of horses while stimulating the agri-business sector of the state's economy. The breed development programs are funded by breakage (the difference in the rounding off of pari-mutuel payoffs), outs (all uncashed tickets) and as of 2008, a percentage of the adjusted gross receipts (AGR) from slot machine wagering at racinos.

Each Breed Development Program has a three-member

committee appointed by the Governor whose role is to work with IHRC staff to make recommendations to the IHRC annually regarding the format of these programs for each breed: Quarter Horse, Standardbred and Thoroughbred.

Information regarding each specific program can be found by visiting the commission website (www.in.gov/hrc). Detailed eligibility requirements for program participants, as well as program incentives are outlined there.

Competitive Status

The competitive status of Indiana's horse racing industry can best be determined by comparing purses offered by Indiana tracks to tracks racing the same breed nationwide with race calendars similar to Indiana's. In previous years, the Standardbred and Thoroughbred racing programs were compared regionally using only adjacent states.

Over time, Indiana's programs have grown beyond regional borders, thus the need to showcase and compare nationally. Subsequently, Indiana's racing product has been measured using a national comparison of racetracks racing 100 or more days, instead of the previously used regional method.

Using this national comparison, the average daily purse distribution is still the best indicator of competitiveness, followed by the track's total purse distribution. The average daily purse distribution is a better indicator due to the fact that a track's total purse offerings can be diluted by an overabundance of race dates. On the other hand, purse numbers can be more skewed with less race dates. Either way can show inflated, better or worse statistics than are actual.

Comparison: Indiana Standardbred Nationally

Indiana's Standardbred industry has seen an upswing in purse numbers nationally compared to other tracks with a minimum of 100 race days. The 2019 season saw a gross purse increase of 5% (\$1.5 million), along with a 5% increase in average daily purse distribution.

Regionally and nationally, Indiana trails just behind Ohio in number of Standardbred foals registered for both foals born in the state and sired; however, Indiana surpassed Pennsylvania in 2019 in overall numbers. While there was a slight drop in foals born in Indiana between 2017 and 2018, the number of foals sired by Indiana stallions in 2018 increased by 25%.

* Due to the timing of this report, registrations are still coming in for horses foaled in 2019, so a more accurate example is to look at foals of 2018 as the most recent year.

Comparison: Indiana Thoroughbred Nationally

Thoroughbred racing at Indiana Grand Race Course & Casino saw a slight uptick in total purses from 2018 to 2019, going up 2%, with the average daily purse seeing a 1.1% increase. This still ranks Indiana Grand second in the region in total purse money. When compared to tracks across the country offering more than 100 race days, Indiana Grand ranks sixth in gross purses offered and moved up to fourth in daily purse averages.

While the track comparisons are national, foal numbers and yearling sales results are compared regionally (Illinois, Indiana, Kentucky, Michigan, Ohio). The 2018 Indiana-bred foal crop stayed consistent, staying ninth nationally and second regionally with 413 registered foals.

Comparison: Indiana Quarter Horse Nationally

Indiana's Quarter Horse racing industry continues an upward trajectory, thanks to increased awareness from the breeding and racing sides of the industry. In 2019, Indiana Grand Race Course & Casino offered 12 more races over the same number of race days (120), including six days of dedicated all Quarter Horse cards. The increase in races has been steady over the last few years (188 in 2017, 196 in 2018, 208 in 2019). However, there is still some difficulty in attracting national horses with the type of unique Quarter Horse race allocation available, sharing the calendar with Thoroughbred races.

Overall purse money increased in 2019 by more than \$245,000, a 5% increase.

Marketing: Standardbred

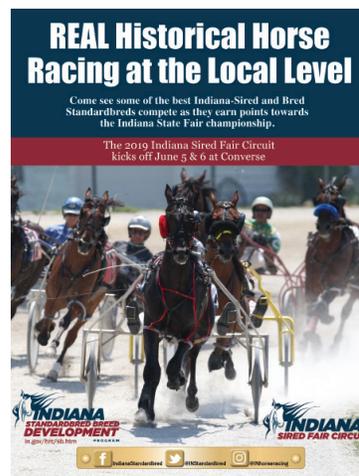

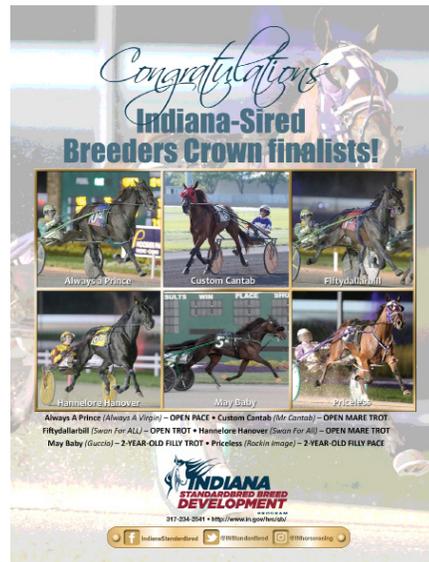

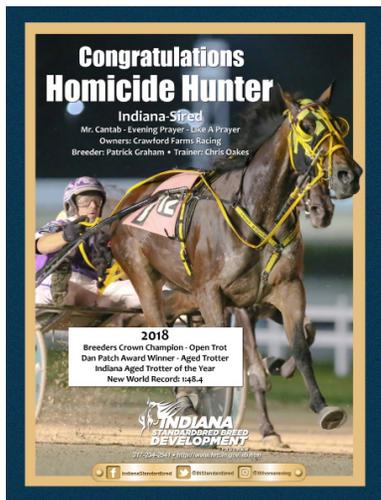

For the second year, the IHRC partnered with Emmis Communications to share race calls from the Indiana Sired Fair Circuit on the radio (1070 FM) as part of The Fan Morning Show. The show host discussed the fair circuit, what races were coming up and previewed the Indiana State Fair. The show aired live the morning of the Indiana State Fair races, which included guests: Kevin Mack (announcer), David White (horseman) and Jessica Barnes (Director of Racing and Breed Development).

Three new videos were co-produced with Emmis Communications, each aimed to explain to viewers how "Horse Racing is Good for Indiana." Videos highlighted the economic impact of horse racing, the community outreach and the family aspect of the sport.

The 2019 Indiana State Fair saw the return of the Speed Barn Visit outreach program, supported by the Indiana Standardbred Association. Educational signs were hung framing the barn aisle, with an antique wooden wheel sulky donated by Nat Hill IV in the middle. A total of six off-track Standardbreds (including one foal) were available for visits and education about second careers for racehorses. Handheld paper fans were on hand for visitors touting how "Horse Racing is Good For Indiana" with locations of all fair and pari-mutuel racing in the state, as well as educational literature from the United States Trotting Association and IHRC. Videos from the 2019 Indiana Sired Fair Circuit played on repeat so fairgoers could see harness racing in action.

Marketing: Quarter Horse

The Quarter Horse Breed Development Program and the Quarter Horse Racing Association of Indiana (QHRAI) hosted a booth during the three Heritage Place Quarter Horse Sales in Oklahoma City, Oklahoma, as an outreach for potential owners and breeders, and as a unified effort in promoting Indiana's Quarter Horse racing programs. At the sales, information from both groups was available at the booth with at least one representative present to answer any questions and network with breeders.

Winners of Indiana bred restricted stakes races were given custom lightweight blankets and vests stating "2019 Stakes Winner" with the program logo, along with trophies.

Through the partnership between Indiana Grand Racing & Casino and sports radio station 1070 The Fan, Quarter Horse races were featured for the first time during the Dan Dakich Show's Race of the Day. Three pre-recorded races were used to help promote the final all Quarter Horse Race Day at Indiana Grand for the 2019 season and were well received.

Racino Slot Revenue

The 2007 Indiana Legislature approved slot machine wagering at the state's two pari-mutuel racetracks in accordance with 71 IAC 4-35-7-12. Racino slot revenue began replacing riverboat revenue in June 2008. These funds are distributed to various segments of the racing industry in accordance with Commission rule IC 4-35-7-12. Detailed racino slot revenue distribution is noted in the chart below for the most recent four years.
