As explained in the Executive Summary, we’re projecting our rent for all three campuses as a cumulative amount of \$250,000 for FY 18. We will consolidate to the Meridian campus and operate it at capacity. This will allow our building, equipment, and staff to be fully utilized while the campus operates with a full student body. This also gives Rick Ogston the opportunity to oversee the educational model and ensure the educational improvements outlined throughout our application are realized. Leases will be renegotiated in FY 19 pending the possible remodel of the Northwest campus.

CDI’s combined NWEA MAP results at Meridian for Math, Reading, and Language Usage show that 57% of students met their growth targets in the second semester (the initial stated goal was 50%). Both Math and Language Usage were above 60%, and, going forward, we feel that the Reading scores will benefit from changes made to our English program (including staffing additions mentioned in the application).

We have hired an Assistant Superintendent to provide additional oversight to ensure fidelity to the Carpe Diem model and support for the campuses.
