IU Simon Cancer Center Summer Research Program

WHO SHOULD APPLY

High School Students Who...

- have completed a minimum of their junior year.
- display an aptitude for science and math.
- have a cumulative GPA of 3.0 or higher.

Undergraduate Students Who...

- have at least 24 hours of college credit.
- have a biomedical or behavioral-science major.
- have a cumulative GPA of 3.2 or higher.

A Unique Learning Environment

The IU Simon Cancer Center Summer Research Program (IUSCCSRP) aims to increase the number of high school and undergraduate students from under-represented populations pursuing biomedical and behavioral-science careers by engaging them in clinical and population-based biomedical cancer research (medical residents are not eligible for this program).

Underrepresented individuals are not limited to racial and ethnic minorities but also can include individuals, as selected by the institution, as underrepresented in cancer research.

IUSCCSRP Participants Will:

- gain exposure to a wide range of research activities
- interact with other students, clinical and post-doctoral fellows, and faculty
 - attend weekly workshops on gaining admission to graduate and professional programs of study
 - earn a competitive stipend for full-time participation
 - during the summer research program
