Re: State Implementation Plan Submittal for Indiana Regarding 326 IAC 2-6-1, Emissions Reporting for Lawrenceburg Township, Dearborn County (LSA #16-162)

Dear Mr. Kaplan:

Pursuant to Section 110 of the Clean Air Act and Title 13 of the Indiana Code, the Indiana Department of Environmental Management (IDEM) submits an amendment to the Indiana state implementation plan. This amendment consists of revisions to Indiana’s rules to 326 IAC 2-6-1 to include Lawrenceburg Township, Dearborn County on the list of marginally classified nonattainment areas required to submit emissions reporting information, accomplished through one rulemaking. IDEM requests that the United States Environmental Protection Agency (U.S. EPA) approve 326 IAC 2-6-1. IDEM withdraws the June 1, 2016 parallel processing request and replaces it with this submittal.

IDEM has amended the emission reporting rule at 326 IAC 2-6 to apply the reporting thresholds for nonattainment areas to the 8-hour ozone nonattainment area of Lawrenceburg Township in Dearborn County. Sources in areas listed in 326 IAC 2-6-1(a) are required to report emissions of nitrogen oxides and volatile organic compounds if they emit greater than twenty-five (25) tons per year of either pollutant. The Cincinnati-Hamilton area, that includes Dearborn County in Indiana, has recorded three years of complete, quality-assured ambient air quality monitoring data for the years 2013 through 2015, demonstrating attainment of the 8-hour ozone standard. This rulemaking is a required component of a complete and approvable redesignation request to classify Lawrenceburg Township in Dearborn County to attainment for the 8-hour ozone national ambient air quality standards.

This submittal consists of one (1) hard copy of the required documentation. An electronic version of the submittal in PDF format that is identical to the hard copy has been sent to Chris Panos at the U.S. EPA Region 5 office. In order to assist with your review of this state implementation plan submission, a list of supporting documents is attached.

Throughout the development of these amendments to the existing rule, staff of the Office of Legal Counsel and the Office of Air Quality worked closely with your staff to ensure that any
potential problems that might exist with this requested state implementation plan revision would be resolved. I request that U.S. EPA approve this modification of Indiana’s state implementation plan. If you have any questions regarding this submittal, please contact Christine Pedersen, Rule Development Section Chief, Office of Legal Counsel at (317) 233-5684.

Sincerely,

Keith Baugues
Assistant Commissioner
Office of Air Quality

FINDINGS AND DETERMINATION OF THE COMMISSIONER
PURSUANT TO IC 13-14-9-8 AND DRAFT RULE
LSA Document #16-162

EMISSIONS REPORTING FOR LAWRENCEBURG TOWNSHIP, DEARBORN COUNTY

PURPOSE OF NOTICE
The Indiana Department of Environmental Management (IDEM) has developed draft rule language for an amendment to 326 IAC 2-6-1 to include Lawrenceburg Township, Dearborn County on the list of marginally classified nonattainment areas required to submit emissions reporting information. IDEM is soliciting written comment on the draft rule language and will schedule a public hearing before the Environmental Rules Board (board) for consideration of adoption of these rules.

CITATIONS AFFECTED: 326 IAC 2-6-1.

AUTHORITY: IC 13-14-8; IC 13-17-3.

STATUTORY REQUIREMENTS
IC 13-14-9-8 recognizes that, under certain circumstances, it may be appropriate to reduce the number of public comment periods and public hearings usually provided for under the IC 13-14-9 environmental rulemaking process. In cases where the commissioner determines that there is no reasonably anticipated benefit from a second public comment period and first public hearing to either the environment or persons regulated or otherwise affected by the proposed rule, IDEM may forgo those comment periods and proceed directly to the public hearing and board meeting at which the draft rule is considered for adoption. Two opportunities for public comment (with this notice and at the public hearing prior to adoption of the rule) remain under this procedure.

If the commissioner makes the determination of no anticipated benefit required by IC 13-14-9-8, the commissioner shall prepare written findings and publish those findings in the Indiana Register prior to the board meeting at which the draft rule is to be considered for adoption and include them in the board packet prepared for that meeting. This document constitutes the commissioner's written findings pursuant to IC 13-14-9-8.

The statute provides for this shortened rulemaking process if the commissioner determines that:

1. the rule constitutes:
   i. an adoption or incorporation by reference of a federal law, regulation, or rule that:
      ii. is or will be applicable to Indiana; and
   iii. contains no amendments that have a substantive effect on the scope or intended application of the federal law or rule;
   (B) a technical amendment with no substantive effect on an existing Indiana rule; or
   (C) an amendment to an existing Indiana rule, the primary and intended purpose of which is to clarify the existing rule; and

2. the rule is of such nature and scope that there is no reasonably anticipated benefit to the environment or the persons referred to in IC 13-14-9-7(a)(2) from:
   (A) exposing the rule to diverse public comment under IC 13-14-9-3 or IC 13-14-9-4;
   (B) affording interested or affected parties the opportunity to be heard under IC 13-14-9-3 or IC 13-14-9-4;
   and
   (C) affording interested or affected parties the opportunity to develop evidence in the record collected under IC 13-14-9-3 and IC 13-14-9-4.

BACKGROUND
Under Section 107(d)(1)(B) of the Clean Air Act (CAA), Lawrenceburg Township in Dearborn County was designated as a marginally classified nonattainment area for the 2008 8-hour ozone National Ambient Air Quality Standards (NAAQS) by the United States Environmental Protection Agency (U.S. EPA) on May 21, 2012 (77 FR 30118). Sections 110 and 182 of the CAA address the requirements related to nonattainment areas.

Under Section 182(a)(3)(B) of the CAA, and as a prerequisite for redesignation of a nonattainment area to attainment, each state with an ozone nonattainment area is required to revise its State Implementation Plan (SIP) to include a requirement that the owner or operator of each stationary source of nitrogen oxides (NOx) or volatile organic compounds (VOCs) provide the state with a statement showing actual emissions of NOx or VOCs from that source.

In September 2015, IDEM prepared a draft document, "Request for Redesignation and Maintenance Plan for Ozone Attainment in the Indiana Portion of the Cincinnati-Hamilton, Ohio, Kentucky, Indiana (OH-KY-IN) 2008 8-Hour Ozone Nonattainment Area", for submittal to U.S. EPA to redesignate the area to attainment for ozone.
Indiana Register

The Cincinnati-Hamilton, OH-KY-IN, area has recorded three (3) years of complete, quality-assured ambient air quality monitoring data for the years 2013 through 2015, demonstrating attainment of the 8-hour ozone standard. There is a significant economic benefit of redesignation to attainment for Lawrenceburg Township, Dearborn County, as the current designation of nonattainment discourages industrial growth in the area. This rulemaking is a required component of a complete and approvable redesignation request. Once the completed redesignation request is approved by U.S. EPA and published in the Federal Register, Lawrenceburg Township in Dearborn County can be redesignated to attainment through a future state rulemaking, allowing new major sources and major modifications at existing sources to be permitted under the Prevention of Significant Deterioration (PSD) rules in 326 IAC 2-2, rather than the more restrictive Emission Offset rules in 326 IAC 2-3.

IDEM is proposing to amend the Emission Reporting rule at 326 IAC 2-6 to apply the reporting thresholds for nonattainment areas to the 8-hour ozone nonattainment area of Lawrenceburg Township in Dearborn County. Sources in areas listed in 326 IAC 2-6-1(a) are required to report emissions of NOx and VOCs if they emit greater than twenty-five (25) tons per year of either pollutant.

When this rule is complete, it will be submitted to U.S. EPA with the redesignation request for approval into the Indiana SIP to redesignate Lawrenceburg Township, Dearborn County to attainment for the 2008 8-hour ozone standard.

**IC 13-14-9-4 Identification of Restrictions and Requirements Not Imposed under Federal Law**

No element of the draft rule imposes either a restriction or a requirement on persons to whom the draft rule applies that is not imposed under federal law. This draft rule imposes no restrictions or requirements because it is a direct adoption of federal requirements that are applicable to Indiana and contains no amendments that have a substantive effect on the scope or application of the federal rule.

**Potential Fiscal Impact**

There will be no fiscal impact from the implementation of this rule beyond that already imposed by federal law. This rulemaking requires emissions reporting for sources in Lawrenceburg Township in Dearborn County that emit VOCs or NOx above twenty-five (25) tons per year, as required by Section 182(a)(3)(B) of the Clean Air Act. At this time, there are no known sources with emissions of VOCs or NOx greater than twenty-five (25) tons per year that are not already required to report.

**Public Participation and Work Group Information**

At this time, no work group is planned for the rulemaking. If you feel that a work group or other informal discussion on the rule is appropriate, please contact Keelyn Walsh, Rules Development Branch, Office of Legal Counsel at (317) 232-8229 or (800) 451-6027 (in Indiana).

**Small Business Assistance Information**

IDEM established a compliance and technical assistance program (CTAP) under IC 13-28-3. The program provides assistance to small businesses and information regarding compliance with environmental regulations. In accordance with IC 13-28-3 and IC 13-28-5, there is a small business assistance program ombudsman to provide a point of contact for small businesses affected by environmental regulations. Information on the CTAP program and other resources available can be found at:

FINDINGS

The commissioner of IDEM has prepared findings regarding rulemaking on emissions reporting as required by federal rule. These findings are prepared under IC 13-14-9-8 and are as follows:

1. This rule is the direct adoption of federal requirements that are applicable to Indiana and it contains no amendments that have a substantive effect on the scope or intended application of the federal rule.
2. Indiana is required by federal law to adopt these requirements under the Clean Air Act as established by the U.S. Environmental Protection Agency.
3. The environment and persons regulated or otherwise affected by the proposed rule will benefit from prompt adoption of this rule, because it will bring Lawrenceburg Township, Dearborn County into compliance with federal law.
4. I have determined that, under the specific circumstances pertaining to this rule, there would be no reasonably anticipated benefit to the environment or to persons regulated or otherwise affected by the proposed rule from the second written comment period under IC 13-14-9-3 or IC 13-14-9-4, or from the first public hearing under IC 13-14-9-5(a)(1).
5. The draft rule is hereby incorporated into these findings.

Commissioner
Indiana Department of Environmental Management

This is a public hearing before the Environmental Rules Board of the State of Indiana
concerning final adoption of Emission Reporting
Rules at 326 IAC 2-6-1 for Lawrenceburg Township
in Decatur County.

I will now introduce Exhibit E, the
proposed rules, into the record of the hearing.

Keelyn Walsh will present the rule.

MS. WALSH: Hello again. I am Keelyn
Walsh, a rule writer with the Rules Development
Branch of OLC, and I am here to present Rule
No. 16-162, Emissions Reporting for Lawrenceburg
Township in Dearborn County, for your
consideration.

This rulemaking is intended to amend the
Emission Reporting Rule at 326 IAC 2-6 to apply
the reporting thresholds for nonattainment areas
to the eight-hour ozone nonattainment area of
Lawrenceburg Township, Dearborn County. IDEM
must create permanent and enforceable limits for
sources that emit air pollutants in nonattainment
areas in order to obtain U.S. EPA's approval of
requests for redesignation to attainment.

The Cincinnati-Hamilton area, which
includes Dearborn County in Indiana, has recorded
three years of complete, quality-assured ambient air quality monitoring data for the years 2013 to 2015, demonstrating attainment of the eight-hour ozone standard. This rulemaking is required by federal law and is one of the elements of the process necessary to redesignate Lawrenceburg Township in Dearborn County to attainment for the eight-hour ozone National Ambient Air Quality Standards.

This rulemaking is a component of the redesignation process that will save money for sources that expand existing operations, as well as encourage new sources to locate in the area. When this rule is complete, it will be submitted to U.S. EPA with the redesignation request for approval into the Indiana SIP to redesignate Lawrenceburg Township, Dearborn County to attainment for the 2008 eight-hour ozone standard.

Redesignating the area to attainment will also allow affected sources to be permitted under the PSD program under 326 IAC 2-2 instead of the emission offset programs under 326 IAC 2-3, which
will provide cost savings for sources. IDEM requests that the Board final adopt this rule as presented, and there is program staff available to answer any further questions you may have.

Thank you.

CHAIRMAN GARD: Are there any questions? Yes.

MR. HILDSDON-SMITH: Yeah.

So, how long, in your experience, would it take for the U.S. EPA to respond and then us to -- I mean best case scenario -- for us to then have Dearborn Township redesignated as in attainment?

MS. WALSH: Good question. I might defer that to program staff or Chris.

MS. PEDERSEN: Generally speaking, when we submit redesignation requests, it can take anywhere from three to six months up to even 18 months. They are really acting much quicker than they used to, so I would anticipate it would be sooner rather than later.

MR. HILDSDON-SMITH: Okay. Thank
you.

CHAIRMAN GARD: Any additional questions?

(No response.)

CHAIRMAN GARD: Thank you.

I don't have any speaker cards turned in. Is there anyone in the audience that would like to address this issue?

(No response.)

CHAIRMAN GARD: This hearing is concluded.

The Board will now consider final adoption of Emission Reporting Rules at 326 IAC 2-6-1 for Lawrenceburg Township in Dearborn County. Is there any Board discussion?

(No response.)

CHAIRMAN GARD: Do I hear a motion to adopt the final rule?

MR. HORN: So moved.

MS. ALEXANDROVICH: Second.

CHAIRMAN GARD: Dr. Alexandrovich?

MS. ALEXANDROVICH: Yes.

CHAIRMAN GARD: Ms. Boydston?
MS. BOYDSTON: Yes.
CHAIRMAN GARD: Mr. Powdrill?
MR. POWDRILL: Yes.
CHAIRMAN GARD: Mr. Davidson?
MR. DAVIDSON: Yes.
CHAIRMAN GARD: Mr. Horn?
MR. HORN: Yes.
CHAIRMAN GARD: Mr. Hillsdon-Smith?
MR. HILLSDON-SMITH: Yes.
CHAIRMAN GARD: Mr. Carmichael?
MR. CARMICHAEL: Yes.
CHAIRMAN GARD: Dr. Niemiec?
DR. NIEMIEC: Yes.
CHAIRMAN GARD: Mr. Rulon?
MR. RULON: Yes.
CHAIRMAN GARD: Mr. Etzler?
MR. ETZLER: Yes.
CHAIRMAN GARD: The Chair votes aye.

There are 11 ayes and zero nays. The rule has been adopted.

This is a public hearing before the Environmental Rules Board of the State of Indiana concerning final adoption of amendments to rules
be on the IDEM Web site and be submitted to appropriate people in the General Assembly and available for public consumption.

So, does anybody that was on the Committee want to make any comments about it at all?

(No response.)

CHAIRMAN GARD: Well, thank you all very much for participating.

Let's see. What's next? This is Open Forum. Is there anybody in the audience that wanted to address the Board today?

(No response.)

CHAIRMAN GARD: Seeing none, the next meeting of the Environmental Rules Board is set for, tentatively, November 9th at 1:30 in Conference Room A. They're moving us around. That's the day after election, which may not be -- everyone may not be totally awake by then, but anyway, that's tentatively the next meeting.

Is there anything else to come before the Board?

(No response.)

CHAIRMAN GARD: If not, is there a
motion to adjourn?

DR. NIEMIEC: So moved.

CHAIRMAN GARD: Is there a second?

MR. HILDSDON-SMITH: Second.

CHAIRMAN GARD: All in favor, say aye.
