Re: Additional Information re State  
Implementation Plan Revision for  
Clark/Floyd Counties and Lake/Porter  
Counties, Indiana for Removal of Stage II  
Vapor Recovery Systems

Dear Ms. Hedman:

To aid you in your review of Indiana's April 27, 2015 submittal to revise its State Implementation Plan (SIP) submittal to remove the requirement for Stage II vapor recovery in Clark, Floyd, Lake, and Porter counties please accept the following additional information.

The Indiana Department of Environmental Management (IDEM) has evaluated the revision and has determined that volatile organic compounds are the only pollutant affected by this request. As such, IDEM's position is that this SIP submittal is protective of all National Ambient Air Quality Standards, including 110l considerations.

If you have any questions or need additional information concerning this matter, please contact Mr. Brian Callahan at (317) 232-8244 or [bcallaha@idem.IN.gov](mailto:bcallaha@idem.IN.gov).

Sincerely,

Keith Baugues  
Assistant Commissioner  
Office of Air Quality
