Blue-Green Algae Sampling Resource List

Publication of this information does not constitute an endorsement or recommendation by the Indiana Department of Environmental Management, Office of Water Quality, of the following companies providing blue-green algae sampling and analysis services. This list is comprised of consultants and laboratories known to provide such services or have requested that their names be made available to persons needing blue-green algae sampling and analysis assistance in the State of Indiana. This list will be revised as new vendors are made known to us. Not all of the entities on the list provide all services and may contract some of them out. Please be specific as to your needs and expectations. Indiana does not certify or license algal identification or toxin analysis laboratories. Certifications and licenses for other services and analyses unrelated to algal identification or toxin analysis may exist.

All Things Water

Travis Davis
29916 Connecticut Ave.
Elkhart IN 46516
Phone: (574) 596-0829
