

Franklin Area of Investigations

Proposed Sampling

- Ground Water or Surface Water

Previous Sampling

- Ground Water
- Drinking Water
- Sewer Sampling
- Soil Boring
- Surface Water
- Stationary Air Monitor
- Air (SubSlab, Indoor, and/or Crawl Space)
 - Needham Elementary & Webb Elementary Schools
 - Drain; SubSlab location; Indoor Air location
 - Residence
 - Business

Former Houglend Cannery Investigations Ground Water TCE Areas

- TCE < 20 ppb
- TCE > 20 ppb
- TCE > 100 ppb
- TCE > 300 ppb

Trichloroethylene (TCE) Data utilized from Further Site Investigation reports:

- Reed Manufacturing Services, January 13, 2017, Figure 5: TCE Groundwater Data from 2014 – 2016
- Report 2, Hurricane Road Industrial Development/Former Houglend Tomato Cannery, January 25, 2018
- Report 3, Hurricane Road Industrial Development/Former Houglend Tomato Cannery, June 2019, Preliminary Data Map

Former Amphenol EPA Ground Water TCE Areas

- TCE > 1.2 ppb
- TCE > 5.0 ppb
- TCE > 9.1 ppb
- TCE > 38.0 ppb

Trichloroethylene (TCE) Data utilized from: (Rev 05/31/2019)

- Temporary well sampling on October 24 – 25, 2018 and March 5 – 7, 2019
- Semi-annual groundwater sampling event on October 11 and 29, 2018
- Off-site monitoring well sampling event on September 14, 2018

EPA Investigation Area

All locations are approximate and may represent more than one sample location and type.
