The Boiler designed to burn Gas 1 subcategory includes boilers or process heaters that only burn natural gas, refinery gas, and/or other gas 1 fuels.

Other Gas 1 Fuel is defined as a gaseous fuel that is not natural gas or refinery gas and does not exceed a maximum concentration of 40 micrograms/cubic meters of mercury.

A Limited Use boiler is any boiler that burns any amount of solid or liquid fuel and has a federally enforceable average annual capacity factor of no more than 10%.

1. First Compliance Certification Report is due January 31, 2017 and subsequent reports are due semi-annually, annually, biennially, or every five (5) years depending on the boiler type and capacity.
