Written Correspondence and Electronic Signature Guidance June 2021

To assist IDEM in continuing to provide its customers with prompt attention to all written correspondence, including permit applications and reports associated with compliance, IDEM requests that whenever possible, **all submissions to the agency be made electronically**. Further information on the logistics of submissions appears below.

Where paper copies or wet signatures are required by rule or statute, paper submissions will be matched to the electronic copy and deemed received on the date of the electronic submission.

Electronic submissions to the agency should be directed to the email addresses below. Please note, these email addresses are not intended to substitute for pre-existing e-boxes (used for compliance submissions for example) or direct correspondence with IDEM staff. If you have been corresponding directly with an individual IDEM staff member about a particular matter, or have been directed to submit a document to a particular e-box or staff person, please continue to do so:
