Ms. Darcy Ketner, Corporate EHS Director
RelaDyne, LLC
8280 Montgomery Rd.
Suite 101
Cincinnati, OH 45236

Dear Ms. Ketner:

Re: IDEM Approval of Request to Terminate
NPDES General Permit
Coverage # ING340077
RelaDyne, LLC
5231 Ivy Tech Dr.
Indianapolis, IN
Marion County

On August 4, 2020 we received a Notice of Intent for renewal of coverage under ING340000 along with a cover letter, submitted by Ms. Tessah Chappelow of August Mack Environmental on your behalf. In the cover letter, Ms. Chappelow requested a review of the above-mentioned facility’s NPDES general permit coverage for the purpose of terminating the general permit coverage for this site. The letter states that RelaDyne, LLC has covered the outdoor tank farm at this facility. The diked area still collects a small amount of rainwater, but this water is not discharged offsite, it is collected by an outside company and removed. The letter also states that no water is discharged from this facility that would be subject to ING340000 requirements.

In light of this information the Permits Branch of the Office of Water Quality concurs that NPDES general permit coverage under ING340000 is no longer required. Therefore, National Pollutant Discharge Elimination System Permit # ING340077, is hereby terminated effective November 30, 2020. We regret the delay of termination of your permit coverage.

Please note that IDEM shall serve notice of its decision to terminate your facility’s coverage under the general permit in accordance with the requirements of 327 IAC 5-3-14. It should also be noted that any appeal must be filed under procedures outlined in IC 13-15-6, IC 4-21.5, and the enclosed Public Notice. The appeal must be initiated by filing a petition for administrative review with the Office of Environmental Adjudication (OEA) within fifteen (15) days of the emailing of an electronic copy of this letter or within eighteen (18) days of the mailing of this letter. A copy must also be served upon IDEM.
Addresses are as follows:

Director
Office of Environmental Adjudication
Indiana Government Center North
Room 103
100 North Senate Avenue
Indianapolis, IN  46204

Commissioner
Indiana Department of Environmental Management
Indiana Government Center North
Room 1301
100 North Senate Avenue
Indianapolis, IN  46204

The Office of Environmental Adjudication will provide parties who request review of this termination of coverage with notice of prehearing conferences, preliminary hearings, hearing, and stays or orders disposing of all proceedings. Nonparties may receive such notices without intervening and formally becoming parties in the proceeding by requesting copies of such notices from the Office of Environmental Adjudication.

Please note that any future discharge to waters of the state must be preceded by the submission of an NPDES application at least 180 days prior to the commencement of such discharge, unless an alternate time frame is allowed by rule or by an applicable NPDES general permit.

Questions regarding this matter may be directed to Ms. C. Anne Burget of my staff by telephone at (317) 234-8745 or via email at cburget@idem.IN.gov.

Sincerely,

Catherine Hess
Catherine Hess, Chief

Ms. Tessah Chappelow, August Mack Env. (TChappelow@Augustmack.com)
The Office of Water Quality approves the following NPDES GENERAL PERMIT action:

TERMINATION

RELADYNE, LLC, NPDES General Permit No. ING340077, 5231 Ivy Tech Dr., Indianapolis, IN (MARION COUNTY). Representatives for this facility requested termination of NPDES general permit coverage under ING340000, which regulates discharges from petroleum product terminals to surface waters of the state. There have been several changes at this facility including a cover being installed over the outdoor tank farm to prevent storm water from being introduced at the site. As a result, the permittee affirms there are no longer any discharges to any surface waters of the state occurring at the site. Therefore, this termination of coverage is deemed effective on November 30, 2020. For more information regarding this termination of NPDES General Permit coverage, please contact Ms. C. Anne Burget at (317) 234-8745 or via e-mail at cburget@idem.IN.gov.

Notice of Right to Administrative Review

If you wish to challenge this permit, you must file a Petition for Administrative Review with the Office of Environmental Adjudication (OEA), and serve a copy of the petition upon IDEM. The requirements for filing a Petition for Administrative Review are found in IC 4-21.5-3-7, IC 13-15-6-1 and 315 IAC 1-3-2. A summary of the requirements of these laws is provided below.

A Petition for Administrative Review must be filed with the Office of Environmental Adjudication (OEA) within fifteen (15) days of the issuance of this notice (eighteen (18) days if you received this notice by U.S. Mail), and a copy must be served upon IDEM. Addresses are:

Director
Office of Environmental Adjudication
Indiana Government Center North
Room N103
100 North Senate Avenue
Indianapolis, Indiana 46204

Commissioner
Indiana Department of Environmental Management
Indiana Government Center North
Room 1301
100 North Senate Avenue
Indianapolis, Indiana 46204

The petition must contain the following information:

1. The name, address and telephone number of each petitioner.
2. A description of each petitioner’s interest in the permit.
3. A statement of facts demonstrating that each petitioner is:
   a. a person to whom the order is directed;
   b. aggrieved or adversely affected by the permit; or
   c. entitled to administrative review under any law.
4. The reasons for the request for administrative review.
5. The particular legal issues proposed for review.
6. The alleged environmental concerns or technical deficiencies of the permit.
7. The permit terms and conditions that the petitioner believes would be appropriate and would comply with the law.
8. The identity of any persons represented by the petitioner.
9. The identity of the person against whom administrative review is sought.
10. A copy of the permit that is the basis of the petition.
11. A statement identifying petitioner’s attorney or other representative, if any.
Failure to meet the requirements of the law with respect to a Petition for Administrative Review may result in a waiver of your right to seek administrative review of the permit. Examples are:

1. Failure to file a Petition by the applicable deadline;
2. Failure to serve a copy of the Petition upon IDEM when it is filed; or
3. Failure to include the information required by law.

If you seek to have a permit stayed during the administrative review, you may need to file a Petition for a Stay of Effectiveness. The specific requirements for such a Petition can be found in 315 IAC 1-3-2 and 315 IAC 1-3-2.1.

Pursuant to IC 4-21.5-3-17, OEA will provide all parties with notice of any pre-hearing conferences, preliminary hearings, hearings, stays, or orders disposing of the review of this action. If you are entitled to notice under IC 4-21.5-3-5(b) and would like to obtain notices of any pre-hearing conferences, preliminary hearings, hearings, stays, or orders disposing of the review of this action without intervening in the proceeding you must submit a written request to OEA at the address above.

If you have procedural or scheduling questions regarding your Petition for Administrative Review please refer to OEA's website at http://www.in.gov/oea.

Re: Renewal Notice of Intent / Request for Applicability Determination
NPDES General Permit
Petroleum Products Terminals
RelaDyne
Indianapolis, Indiana
Permit Number ING340000
August Mack Project Number JU0523.250

Dear Sir or Madam:

August Mack Environmental, Inc., on behalf of RelaDyne, is submitting the enclosed renewal Notice of Intent (NOI) and request for an evaluation of applicability for the General NPDES Permit for Petroleum Products Terminal for the RelaDyne facility located in Indianapolis, Indiana. The NOI forms are provided in Attachment A. The proof of publication is included in Attachment B. A site map is included in Attachment C.

Since the coverage was originally applied for, there have been changes to the facility. With these changes August Mack is asking for an evaluation of continued applicability to ING340000. The facility has covered the diked outdoor tank farm. This diked area still collects a small amount of rain water but the facility does not discharge this water to the environment. RelaDyne hires an outside company to pump and collect the water accumulated in the containment, as needed. The facility does not discharge any additional wastewater that would be subject to ING340000 requirements. Additionally, there is no exposure of process/industrial materials outside that would require NPDES permit coverage.

August Mack is asking IDEM to consider terminating this permit for the Reladyne facility in Indianapolis, Indianapolis. Pending IDEM’s determination, and following IDEM’s guidance, Reladyne is submitting this NOI to remain in compliance and authorized under the permit while IDEM considers this matter.
If you have any questions, please call us at 317.916.8000.

Sincerely,
