NOTE:
Project is located within the incorporated limits of Michigan City. Per IDNR correspondence, May 24, 2019 (ER-21572), impacts to non-wetland forest under one (1) acre in an urban setting should be mitigated by planting 5 trees, at least 2" dbh, for each tree which is removed that is 10" dbh or greater (5:1 mitigation based on number of large trees). No trees exceeding 8" dbh were identified within the project limits; Therefore, mitigation for tree clearing is not anticipated.
