NOTICE OF 30-DAY PERIOD FOR PUBLIC COMMENT

Preliminary Findings Regarding a
Significant Revision to a
Federally Enforceable State Operating Permit (FESOP)

for Martin Animal Bedding, LLC in Elkhart County

Significant Permit Revision No.: 039-47090-00751

The Indiana Department of Environmental Management (IDEM) has received an application from Martin Animal Bedding, LLC, located at 65448 CR 17, Goshen, Indiana 46526, for a significant revision of its FESOP issued on October 22, 2018. If approved by IDEM's Office of Air Quality (OAQ), this proposed revision would allow Martin Animal Bedding, LLC to make certain changes at its existing source. Martin Animal Bedding, LLC has applied to modify the electric powered tub grinder (3 Grind) to grind drywall in addition to wood, as well as construct a drywall receiving area, gypsum transfer operations, and indoor storage piles.

The applicant intends to construct and operate new equipment that will emit air pollutants; therefore, the permit contains new or different permit conditions. In addition, some conditions from previously issued permits/approvals have been corrected, changed, or removed. These corrections, changes, and removals may include Title I changes (e.g., changes that add or modify synthetic minor emission limits). The potential to emit regulated air pollutants will continue to be limited to less than the Title V and PSD major threshold levels. IDEM has reviewed this application and has developed preliminary findings, consisting of a draft permit and several supporting documents, which would allow the applicant to make this change.

IDEM is aware that the electric powered tub grinder (3 Grind), drywall receiving area, gypsum transfer operations, and indoor storage piles have been constructed and/or operated prior to receipt of the proper permit. IDEM is reviewing this matter and will take appropriate action. This draft permit contains provisions to bring unpermitted equipment into compliance with construction and operation permit rules.

A copy of the permit application and IDEM's preliminary findings have been sent to:

If the permit is issued, it may be different than the draft permit because of comments that were received during the public comment period. If comments are received during the public notice period, the final decision will include a document that summarizes the comments and IDEM's response to those comments. If you have submitted comments or have asked to be added to the mailing list, you will receive a Notice of the Decision. The notice will provide details on how you may appeal IDEM's decision, if you disagree with that decision. The final decision will also be available on the Internet at the addresses indicated above and will also be sent to the local library indicated above.
