### NOTICE OF 30-DAY PERIOD FOR PUBLIC COMMENT

#### Preliminary Findings Regarding a Significant Modification to a Part 70 Operating Permit

for Honda Development and Manufacturing of America, LLC - Indiana Auto Plant in Decatur County

Significant Source Modification No.: 031-49646-00026

The Indiana Department of Environmental Management (IDEM) has received an application from Honda Development and Manufacturing of America, LLC - Indiana Auto Plant, located at 2755 North Michigan Avenue, Greensburg, Indiana 47240, for a significant modification of its Part 70 Operating Permit issued on July 13, 2021. If approved by IDEM's Office of Air Quality (OAQ), this proposed modification would allow Honda Development and Manufacturing of America, LLC - Indiana Auto Plant to make certain changes at its existing source. Honda Development and Manufacturing of America, LLC - Indiana Auto Plant has applied to accommodate the production for a new model vehicles. The source implementing a two-part clearcoat material in Topcoat Coating Line PA-07, which will result in increased emissions at the facility. The source will implement a new technology in the two basecoat spray booths, this will result in decrease in emissions, but no change to calculations or the existing limits is requested (since process efficiency in the basecoat spray booths will be implemented gradually). Additionally, the source is adding robotic coating applications systems in the Sealer Deadener Coating Lines PA-03, with no emission increase as a result.

The applicant intends to construct and operate new equipment that will emit air pollutants; therefore, the permit contains new or different permit conditions. In addition, some conditions from previously issued permits/approvals have been corrected, changed, or removed. These corrections, changes, and removals may include Title I changes (e.g., changes that add or modify synthetic minor emission limits). IDEM has reviewed this application and has developed preliminary findings, consisting of a draft permit and several supporting documents, which would allow the applicant to make this change.

A copy of the permit application and IDEM's preliminary findings have been sent to:
