NOTICE OF 30-DAY PERIOD FOR PUBLIC COMMENT

Preliminary Findings Regarding a
Minor Modification to a
Part 70 Operating Permit

for Eckart America Corporation in Lake County
Minor Permit Modification No.: 089-49941-00565

The Indiana Department of Environmental Management (IDEM) has received an application from Eckart America Corporation, located at 650 West 67th Ave. Suite 200, Schererville, IN 46375, for a minor modification of its Part 70 Operating Permit issued on June 7, 2022. If approved by IDEM's Office of Air Quality (OAQ), this proposed modification would allow Eckart America Corporation to make certain changes at its existing source. Eckart America Corporation has applied to:

1. Construct a new Reveal process with a maximum capacity of 1,095 batches of product produced per year, including one (1) Reveal mixer, one (1) slurry tank, and one (1) dirty solvent collection tank, and
2. Remove the Actega North America facility and SIC Code 2851 from the permit because this facility and the lacquer production operations have been removed from the location.

The applicant intends to construct and operate new equipment that will emit air pollutants; therefore, the permit contains new or different permit conditions. In addition, some conditions from previously issued permits/approvals have been corrected, changed, or removed. These corrections, changes, and removals may include Title I changes (e.g., changes that add or modify synthetic minor emission limits). IDEM has reviewed this application and has developed preliminary findings, consisting of a draft permit and several supporting documents, which would allow the applicant to make this change.

A copy of the permit application and IDEM's preliminary findings have been sent to:

Lake County Public Library - Dyer-Schererville Branch Library
1001 W Lincoln Hwy
Schererville, IN 46375

A copy of the preliminary findings is available on the Internet at: <http://www.in.gov/ai/appfiles/idem-caats/>.

A copy of the application and preliminary findings is also available via IDEM's Virtual File Cabinet (VFC) located at <https://www.in.gov/idem/legal/public-records/virtual-file-cabinet/>. Once you have accessed VFC, you will then have the option to search for source related documents using a variety of criteria. To find documents related to this air permit, click on "Advanced Search", specify "OAQ" in the Program search field, specify the five-digit permit number "49941" or the five-digit source modification number "49897" in the Permit # search field, then click the Search button at the top or bottom of the webpage.

If adverse comments concerning the **air pollution impact** of this draft permit are received, with a request for a public hearing, IDEM will decide whether or not to hold a public hearing. IDEM could also decide to hold a public meeting instead of, or in addition to, a public hearing. If IDEM decides to conduct a public hearing and/or public meeting, IDEM will post a separate announcement of the date, time, and location of that public hearing and/or public meeting on IDEM's website (<https://www.in.gov/idem/public-notices/>). What will happen after IDEM makes a decision?

Following the end of the public comment period, IDEM will issue a Notice of Decision stating whether the permit has been issued or denied. If the permit is issued, it may be different than the draft permit because of comments that were received during the public comment period. If comments are received during the public notice period, the final decision will include a document that summarizes the comments and IDEM's response to those comments. If you have submitted comments or have asked to be added to the mailing list, you will receive a Notice of the Decision. The notice will provide details on how you may appeal IDEM's decision, if you disagree with that decision. The final decision will also be available on the Internet at the addresses indicated above and will also be sent to the local library indicated above.
