## PUBLIC NOTICE

**Closing Date:**  
March 16, 2026

**Corps of Engineers ID Number:**  
LRL-2009-00371

**To all interested parties:**

This letter shall serve as a formal notice of the receipt of an application for Section 401 Water Quality Certification by the Indiana Department of Environmental Management (IDEM). The purpose of the notice is to inform the public of active applications submitted for water quality certification under Section 401 of the Clean Water Act (33 U.S.C. § 1341) and to solicit comments and information on any impacts to water quality related to the proposed project. IDEM will evaluate whether the project complies with Indiana's water quality standards as set forth at 327 IAC 2.

| <b>4. Affected waterbody:</b>  | Tanners Creek   |                  |  |
| <b>5. Project Description:</b> | This project is Phase 2 of the original project that was permitted June 11, 2025 (IDEM No. 2025-323-15-TLK-WQC). Work includes mechanically dredging 120,000 cubic yards of sediment from Tanner Creek. The dredged area will begin on the western boat ramp and continue to the mouth of the Ohio River, approximately 2,500 feet away. Dredging will increase the current depth of the creek from 12' to up to 18' max (6' of dredging max). The dredged material will be placed onto a barge that will then be loaded into trucks waiting on the western boat ramps. The trucks will transfer the dredged material to a containment berm on the northern portion of a property adjoining the Tanners Creek Parking lot. The containment berm is constructed with a temporary check dam on the corner of the berm adjoining the parking lot to allow for dewatering of the materials. The containment berm is designed to handle 150,000 cubic yards. Applicant is pursuing a 10-year maintenance permit with a max annual dredging of 90,000 cubic yards. For additional information visit the Regulatory ePortal at:<br><a href="https://stormwater.idem.in.gov/nsite/default/map/help">https://stormwater.idem.in.gov/nsite/default/map/help</a> |                  |  |

- Comment period:** Any person or entity who wishes to submit comments or information relevant to the aforementioned project may do so by the closing date noted above. Only comments or information related to water quality or potential impacts of the project on water quality can be considered by IDEM in the water quality certification review process.
- Public Hearing:** Any person may submit a written request that a public hearing be held to consider issues related to water quality in connection with the project detailed in this notice. The request for a hearing should be submitted within the comment period to be considered timely. The request should also state the reason for the public hearing as specifically as possible to assist IDEM in determining whether a public hearing is warranted.
- Questions?** Additional information may be obtained by contacting [WaterwaysComments@idem.IN.gov](mailto:WaterwaysComments@idem.IN.gov). In the subject line of the email, please include the IDEM ID Number listed in the top right corner of the first page of this public notice. Indicate if you wish to receive a copy of IDEM's final decision. Written comments and inquiries may be forwarded to -
