

STATE OF INDIANA
DEPARTMENT OF ENVIRONMENTAL MANAGEMENT
PUBLIC NOTICE NO: 20260225- INP000703- D
DATE OF NOTICE: February 25, 2026
DATE RESPONSE DUE: March 27, 2026

The Office of Water Quality proposes the following **DRAFT IWP PERMIT**:

MINOR – MODIFICATION:

NST Campbellsburg LLC , Permit No. INP000703, WASHINGTON COUNTY, 596 West Oak Street, Campbellsburg, IN. The facility produces ferrous-based powder metal components for a wide array of industries. A recent field inspection concluded that Outfall 001 was not described properly in the current permit. Also the permit is being modified to reflect updated effluent limits for pH and Oil & Grease, due to recent revisions to the Campbellsburg Sewer Use Ordinance. Permit Manager: Kira Wren, 317/233-7090, Kwren@idem.in.gov. Posted online at <https://www.in.gov/idem/public-notices/>.

PROCEDURES TO FILE A RESPONSE

You are hereby notified of the availability of a 30-day public comment period regarding the referenced draft permit, in accordance with 327 IAC 5-21-11. The application and draft permit documents are available for inspection at IDEM, Office of Water Quality, Indiana Government Center North, 100 N. Senate Ave, Indianapolis, IN 46204 from 9:00 a.m. until 4:00 p.m., Monday thru Friday, (copies 10¢ per page). The Draft Permit is posted online on the above-referenced IDEM public notice web page. A courtesy copy has also been sent via email to the local County Health Department. Please tell others whom you think would be interested in this matter. For more information about public participation including your rights & responsibilities, please see <https://www.in.gov/idem/public-notices/>. You may want to consult our online Citizens' Guide to IDEM:

<https://www.in.gov/idem/resources/citizens-guide-to-idem/>.

Comments: The proposed decision to issue a permit is tentative. Interested persons are invited to submit written comments on the draft permit. All comments must be delivered to IDEM or postmarked no later than the Response Due Date noted to be considered in the decision to issue a final permit. Deliver or mail all requests or comments to the attention of the Permit Manager at the above address.

To Request a Public Hearing: Any person may request a public hearing. A written request must be submitted to the above address on or before the Response Due Date. The written request shall include: the name and address of the person making the request, the interest of the person making the request, persons represented by the person making the request, the reason for the request and the issues proposed for consideration at the hearing. The Department will determine whether to hold a public hearing based upon the comments and the rationale for the request. Public Notice of such a hearing will be posted on IDEM's web site and will be transmitted to those persons submitting comments and/or on the mailing list at least 30 days prior to the hearing.

Dear Mr. Goen:

Re: IWP Permit No. INP000703
Draft Permit Modification
NST Campbellsburg LLC
Campbellsburg, IN – Washington County

The permit modification has been reviewed and processed in accordance with rules adopted under 327 IAC 5. The enclosed Pages 1 through 3 of 23 are intended to replace the corresponding pages of your existing IWP Permit No. INP000703. An accompanying Briefing Memo itemizes and explains the rationale for the revisions.

Pursuant to IC 13-15-5-1, IDEM will publish the draft permit document online at <https://www.in.gov/idem/public-notices/>. Additional information on public participation can be found in the "Citizens' Guide to IDEM", available at <https://www.in.gov/idem/resources/citizens-guide-to-idem/>. A 30-day comment period is available to solicit input from interested parties, including the public.

Please review this draft permit modification and associated documents carefully to become familiar with the proposed terms and conditions. Comments concerning the draft permit modification should be submitted in accordance with the procedure outlined in the enclosed public notice form. We suggest that you meet with us to discuss major concerns or objections you may have with the draft permit modification.

Questions concerning this draft permit modification may be addressed to Kira Wren of my staff, at (317) 233-7090 or by email at KWren@idem.IN.gov.

Sincerely,

Richard Hamblin, Chief
Industrial NPDES Permits Section
Office of Water Quality

STATE OF INDIANA

DEPARTMENT OF ENVIRONMENTAL MANAGEMENT
AMENDED AUTHORIZATION TO DISCHARGE UNDER THE
INDUSTRIAL WASTEWATER PRETREATMENT PROGRAM

INDUSTRIAL WASTEWATER PRETREATMENT (IWP) PERMIT

In accordance with 327 IAC 5-21 and IDEM's permitting authority under IC 13-15, **NST Campbellsburg LLC** (hereinafter referred to as the permittee) is authorized to discharge from the facility located at 596 West Oak Street in Campbellsburg, Indiana into the Campbellsburg Publicly Owned Treatment Works (POTW), in accordance with the effluent limitations, monitoring requirements, and other conditions set forth in Parts I and II hereof.

The permit, as issued on May 9, 2025, is hereby amended, as contained herein. The amended provisions shall become effective _____. All terms and conditions of the permit not modified at this time remain in effect. Further, any existing condition or term affected by the amendments will remain in effect until the amended provisions become effective. This permit and the authorization to discharge, as amended, shall expire at midnight May 31, 2030.

NOTE: In order to receive authorization to discharge beyond the date of expiration, the permittee must submit a renewal IWP permit application to the Industrial NPDES Permit Section in the Office of Water Quality, no later than one hundred and eighty (180) days prior to the date this permit expires. Failure to do so will result in expiration of the authorization to discharge.

Signed on _____ for the Indiana Department of Environmental Management.

Jerry Dittmer, Chief
Permits Branch
Office of Water Quality

PART I

A. EFFLUENT LIMITATIONS AND MONITORING REQUIREMENTS

1. During the period beginning on the effective date of this permit, the permittee is authorized to discharge from Outfall 001[1][2]. Outfall 001 is located immediately after the 2-stage sediment tank at the facility. Such discharge shall be limited and monitored by the permittee as specified below:

Table 1

Parameter[3]	Discharge Limitations		Monitoring Requirements		
	Daily Maximum	Monthly Average	Unit	Measurement Frequency	Sample Type [4]
Flow [5]	Report	Report	MGD	Daily	24-Hr. Total
Copper [3]	0.025 [6]	0.013 [6]	lbs/day	2 X Monthly	Grab
Lead [3]	0.006 [6]	0.003 [6]	lbs/day	2 X Monthly	Grab
T. Cyanide [CN(T)] [7]	0.004 [6]	0.002 [6]	lbs/day	2 X Monthly	Grab
Oil and Grease	100.0 [8]	Report	mg/l	2 X Monthly	Grab

Table 2

Parameter	Quality or Concentration		Monitoring Requirements		
	Daily Minimum	Daily Maximum	Units	Measurement Frequency	Sample Type
pH [9][10]	5.0 [8]	10.0 [8]	s.u.	Daily	Grab

- [1] Outfall 001 shall be designated as process wastewaters and contains no dilution streams.
- [2] The discharge shall not exceed the local limits in the Sewer Use Ordinance upon entering the POTW.
- [3] All metals shall be analyzed as Total Recoverable Metals.
- [4] Grab samples will be allowed in lieu of 24-Hour Composites due to the brief nature of the discharge.
- [5] The flow must be measured and recorded using valid flow measurement devices, not estimated. The flow monitoring device must be calibrated at least once every twelve (12) months.
- [6] Based on production-based categorical standards 40 CFR 471.105(e) and the following rates: production rate = 30,000 lbs/day.

- [7] The CN(T) parameter includes all cyanide, chelated (bound to heavy metals) and unchelated (free). The Metal Finishing Standard for CN(T) applies only to the CN-bearing flows prior to mixing with the non-CN Metal Finishing flows.
- [8] Based on local ordinance Campbellsburg POTW [Ordinance No. 2025-04 (adopted July 7, 2025)].
- [9] If the permittee collects more than one grab sample on a given day for pH, the values shall not be averaged for reporting daily maximums or daily minimums. The permittee must report the individual minimum and the individual maximum pH value of any sample during the month on the Monthly Monitoring Report form.
- [10] Based on National pretreatment standards: Prohibited discharges [40 CFR 403.5] and Pretreatment standards for prohibited discharges [327 IAC 5-18-2].

1.0 INTRODUCTION

The Indiana Department of Environmental Management (IDEM) conducted an inspection on February 5, 2026. As a result, IDEM is modifying Industrial Wastewater Pretreatment (IWP) Permit INP000703 as described below. The current five-year permit was issued with an effective date of June 1, 2025 in accordance with 327 IAC 5-2-6(a).

This Briefing Memo identifies the basis for this modification to the permit and the modified pages of the permit issued on May 9, 2025.

2.0 PERMIT MODIFICATION

2.1 Modification Request

This modification is a direct result of the compliance inspection conducted on February 5, 2026. The inspection concluded the current effective permit does not reflect newly adopted Sewer Use Ordinance limitations from the Campbellsburg POTW for pH and Oil & Grease, the sampling location identified for Outfall 001 is not accurately described and there is a discrepancy between Table 1 and footnote [3] in what type of sampling is required by the facility.

2.2 IDEM's Proposed Modification

The permit has been modified as follows:

1. The limits for Oil & Grease and pH have been updated to reflect the current Campbellsburg POTW Sewer Use Ordinance limits.
2. The outfall location description has been updated to indicate Outfall 001 is located immediately after the 2-stage sediment tank.
3. Lastly, the last sentence in Footnote [3] "*Grab samples must be collected at the beginning and end of the discharge*" has been removed as this statement does not accurately reflect Table 1 sampling requirements.

3.0 Permit Processing/Public Comment

Pursuant to IC 13-15-5-1, IDEM will publish the draft permit document online at <https://www.in.gov/idem/public-notices/>. Additional information on public participation can be found in the "Citizens' Guide to IDEM", available at <https://www.in.gov/idem/resources/citizens-guide-to-idem/>. A 30-day comment period is available to solicit input from interested parties, including the public.
