### NOTICE OF 30-DAY PERIOD FOR PUBLIC COMMENT

Preliminary Findings Regarding a Minor Modification to a  
Part 70 Operating Permit

for Prysmian Cables and Systems USA, LLC in Grant County

Minor Permit Modification No.: 053-50345-00001

The Indiana Department of Environmental Management (IDEM) has received an application from Prysmian Cables and Systems USA, LLC, located at 440 East 8th Street, Marion, Indiana 46953, for a minor modification of its Part 70 Operating Permit issued on October 10, 2025. If approved by IDEM's Office of Air Quality (OAQ), this proposed modification would allow Prysmian Cables and Systems USA, LLC to make certain changes at its existing source. Prysmian Cables and Systems USA, LLC has applied for the following: the following:

- (1) The construction of one (1) new jacket line
- (2) The construction of two (2) new CV lines
- (3) The construction of one (1) new copper drawing line
- (4) The modification of one (1) SAMP copper drawing operation

The applicant intends to construct and operate new equipment that will emit air pollutants; therefore, the permit contains new or different permit conditions. In addition, some conditions from previously issued permits/approvals have been corrected, changed, or removed. These corrections, changes, and removals may include Title I changes (e.g., changes that add or modify synthetic minor emission limits). IDEM has reviewed this application and has developed preliminary findings, consisting of a draft permit and several supporting documents, which would allow the applicant to make this change.

A copy of the permit application and IDEM's preliminary findings have been sent to:

Marion Public Library  
600 S Washington St  
Marion, IN 46953

A copy of the preliminary findings is available on the Internet at: <http://www.in.gov/ai/appfiles/idem-caats/>.

A copy of the application and preliminary findings is also available via IDEM's Virtual File Cabinet (VFC) located at <https://www.in.gov/idem/legal/public-records/virtual-file-cabinet/>.
