NOTICE OF 30-DAY PERIOD FOR PUBLIC COMMENT

Preliminary Findings Regarding a
Significant Revision to a
Federally Enforceable State Operating Permit (FESOP)

for Notre Dame Power and Propulsion in St. Joseph County

Significant Permit Revision No.: 141-49878-00592

The Indiana Department of Environmental Management (IDEM) has received an application from Notre Dame Power and Propulsion, located at 1165 Franklin Street, South Bend, IN 46601, for a significant revision of its FESOP issued on March 22, 2024. If approved by IDEM's Office of Air Quality (OAQ), this proposed revision would allow Notre Dame power and propulsion to make certain changes at its existing source. Notre Dame Power and Propulsion has applied to add temporary diesel engines, natural gas burners, and two new alternative experimental fuels to the source.

The applicant intends to construct and operate new equipment that will emit air pollutants; therefore, the permit contains new or different permit conditions. In addition, some conditions from previously issued permits/approvals have been corrected, changed, or removed. These corrections, changes, and removals may include Title I changes (e.g., changes that add or modify synthetic minor emission limits). The potential to emit regulated air pollutants will continue to be limited to less than the Title V and PSD major threshold levels. IDEM has reviewed this application and has developed preliminary findings, consisting of a draft permit and several supporting documents, which would allow the applicant to make this change.

A copy of the permit application and IDEM's preliminary findings have been sent to:

St. Joseph County Public Library Main Library
304 S. Main Street
South Bend, IN 46601

A copy of the preliminary findings is available on the Internet at: <http://www.in.gov/ai/appfiles/idem-caats/>.

A copy of the application and preliminary findings is also available via IDEM's Virtual File Cabinet (VFC) located at <https://www.in.gov/idem/legal/public-records/virtual-file-cabinet/>. Once you have accessed VFC, you will then have the option to search for source related documents using a variety of criteria. To find documents related to this air permit, click on "Advanced Search", specify "OAQ" in the Program search field, specify the five-digit permit number "49878" in the Permit # search field, then click the Search button at the top or bottom of the webpage.

The notice will provide details on how you may appeal IDEM's decision, if you disagree with that decision. The final decision will also be available on the Internet at the addresses indicated above and will also be sent to the local library indicated above.
