NOTICE OF 30-DAY PERIOD FOR PUBLIC COMMENT

Preliminary Findings Regarding a
Part 70 Administrative Operating Permit

for Life Cycle Power in Boone County

Part 70 Administrative Operating Permit No.: T 011-50087-00094

The Indiana Department of Environmental Management (IDEM) has received an application from Life Cycle Power, located at 3602 West SR 32, Lebanon, IN 46052, for a Part 70 Administrative Operating Permit. If approved by IDEM's Office of Air Quality (OAQ), this proposed permit would allow Life Cycle Power to construct and operate a new stationary power generation station.

The applicant intends to construct and operate new equipment that will emit air pollutants. IDEM has reviewed this application, and has developed preliminary findings, consisting of a draft permit and several supporting documents, that would allow the applicant to make this change.

A copy of the permit application and IDEM's preliminary findings have been sent to:

Lebanon Public Library
104 E Washington St
Lebanon, IN 46052

A copy of the preliminary findings is available on the Internet at: <http://www.in.gov/ai/appfiles/idem-caats/>.

A copy of the application and preliminary findings is also available via IDEM's Virtual File Cabinet (VFC) located at <https://www.in.gov/idem/legal/public-records/virtual-file-cabinet/>. Once you have accessed VFC, you will then have the option to search for source related documents using a variety of criteria. To find documents related to this air permit, click on "Advanced Search", specify "OAQ" in the Program search field, specify the five-digit permit number "50087" in the Permit # search field, then click the Search button at the top or bottom of the webpage.
