PUBLIC NOTICE

DATE COMMENTS DUE: 8/16/2026

DATE OF NOTICE: 7/17/2026

The Indiana Department of Environmental Management (IDEM) has received an application for a construction permit from the ANDREWS WATER DEPARTMENT, public water system 5235001, this project is described as the Town Air Stripper System Upgrade - RTX Corporation has submitted a drinking water construction permit application to install a new water treatment air-stripper to replace the existing air-stripper for the Town of Andrews, Indiana. The existing air-stripper was installed as a precautionary measure under the IDEM Drinking Water permit (VFC #80265154) dated November 5, 1993, although the air emissions continue to be below the threshold required for an air emissions permit for volatile organic compounds. The new air-stripper is designed to operate at the same influent flow rates. If approved the permit will become effective on the date of issuance.

All comments must be postmarked no later than the date above to be considered in the formulation of the final determination. All comments will be considered by IDEM when we make a decision to issue or deny the permit application. Comments that are most likely to affect the decision are those based on the rules and laws governing this permitting process (327 IAC 8-3). The permit, if issued, will be available through IDEM's virtual file cabinet. Any questions concerning this project should be directed to the Construction Permits Section of the Drinking Water Branch, Office of Water Quality, IDEM at 317-234-7425.
