

On February 24, 2026, ACME Farms LLC dba Roy's Recycling submitted an application to modify their Industrial Waste Product Marketing and Distribution Permit. This modification requested the addition of a new storage structure and additional storage areas where the facility intends to move processing operations in the future. A request for additional information was sent on March 27, 2026, explaining that the design of the facility would need to collect all stormwater that contacts gypsum or alternatively, the storage must be designed to prevent all contact with stormwater. An email was sent to the facility on July 30, 2026, explaining that due to changes in the design that was submitted in the initial modification that was public noticed, the current modification would need to be withdrawn and resubmitted so that the updated plans can be put on our website for public notice. On August 19, 2026, Mr. Randy Scott, Owner, requested the application be withdrawn. For specific information concerning this facility, contact Randy Scott, Owner, at (765) 617-1487 or roysrecyclinginc@gmail.com. If you have any questions regarding the permit process, contact Nick Meulen, the environmental manager assigned to this permit, at (317) 233-2412 or NMeulen@idem.IN.gov.

Records for this facility are available online via IDEM's Virtual File Cabinet (VFC). Please go to: <http://vfc.idem.in.gov/>. Documents related to this application can be found by selecting the "Solid Waste Program ID" in the "Quick Search" field (in the upper right-hand corner of the page) then enter the permit number, 000731. Search results can be narrowed to permit related documents by clicking on the down arrow next to "IDEM Document Type" and selecting "OLQ Permit".
