NOTICE OF 30-DAY PERIOD FOR PUBLIC COMMENT

Preliminary Findings Regarding a
Significant Modification to a
Part 70 Operating Permit

for University of Notre Dame du Lac in St. Joseph County

Significant Source Modification No.: 141-50490-00013
Significant Permit Modification No.: 141-50496-00013

The Indiana Department of Environmental Management (IDEM) has received an application from University of Notre Dame du Lac, located at 100 Facilities Building, Notre Dame, IN 46556, for a significant modification of its Part 70 Operating Permit issued on October 16, 2025. If approved by IDEM's Office of Air Quality (OAQ), this proposed modification would allow University of Notre Dame du Lac to make certain changes at its existing source. University of Notre Dame du Lac has applied to construct and operate three (3) new non-emergency generators, one (1) new emergency generator, replace one (1) existing emergency generator, and remove three (3) existing emergency generators.

The applicant intends to construct and operate new equipment that will emit air pollutants; therefore, the permit contains new or different permit conditions. In addition, some conditions from previously issued permits/approvals have been corrected, changed, or removed. These corrections, changes, and removals may include Title I changes (e.g., changes that add or modify synthetic minor emission limits). IDEM has reviewed this application and has developed preliminary findings, consisting of a draft permit and several supporting documents, which would allow the applicant to make this change.

A copy of the permit application and IDEM's preliminary findings have been sent to:

Hesburgh Library University of Notre Dame
284 Hesburgh Library
Notre Dame, IN 46556

A copy of the preliminary findings is available on the Internet at: http://www.in.gov/ai/appfiles/idem-caats/.

A copy of the application and preliminary findings is also available via IDEM's Virtual File Cabinet (VFC) located at https://www.in.gov/idem/legal/public-records/virtual-file-cabinet/. Once you have accessed VFC, you will then have the option to search for source related documents using a variety of criteria. To find documents related to this air permit, click on "Advanced Search", specify "OAQ" in the Program search field, specify the five-digit permit number "50496" or the five-digit source modification number "50490" in the Permit # search field, then click the Search button at the top or bottom of the webpage.

The notice will provide details on how you may appeal IDEM's decision, if you disagree with that decision. The final decision will also be available on the Internet at the addresses indicated above and will also be sent to the local library indicated above.
