

# EARTH DAY

## BinGo!

3-6 Grade

Name: \_\_\_\_\_

While we celebrate Earth Day on April 22<sup>nd</sup> every year, we can be good stewards of our planet every day! Our planet provides valuable natural resources that help us live our daily lives. To have clean air, water, and land we must limit the activities that do damage to our resources. By protecting natural resources, like clean water and air, we will have more in the future.

**See if you can get a bingo with things you do every day to protect the earth, its plants, and the animals that call it home.**

Leave no trace when visiting a park.	Make sure recyclables are clean, empty, and dry.	Learn a new bird call.	Conserve energy: Turn off lights when you leave the room.	Go on a nature hike.
Read a book about nature.	You just recycled an aluminum can!	Help wildlife: Plant a native tree.	Reduce trash in the landfill: compost your food waste.	Volunteer for a neighborhood cleanup.
Share an Earth-friendly tip with a friend.	Volunteer at a local park to remove invasive plants.		Reduce trash in landfills: recycle!	You just recycled a glass bottle!
Don't litter.	Use reusable bags at the store.		Help pollinators: Plant native plants.	Conserve energy: Turn the heat down 2 degrees.
Use washable towels instead of paper towels.	Conserve water: Turn off the water while brushing your teeth.	Learn a fun animal fact.	Visit a farmers' market and buy local.	Limit single use plastics.

## Word Search

Extra challenge:

Find the words in the puzzle!

Find words horizontal and vertical:

- resource
- environment
- conserve
- compost
- recycle
- reduce
- nature
- sustainable
