Environmental Quest

Reuse
K-2 Grade

Hi there, I'm Backpack Guy. Did you know that more than 79 million students across the United States use backpacks?

Backpacks are great for carrying school supplies and even a lunch. Some of Backpack Guys favorite things to carry are those that can be recycled or reused. Things like books, paper, folders, a lunch box, or a reusable sandwich container.

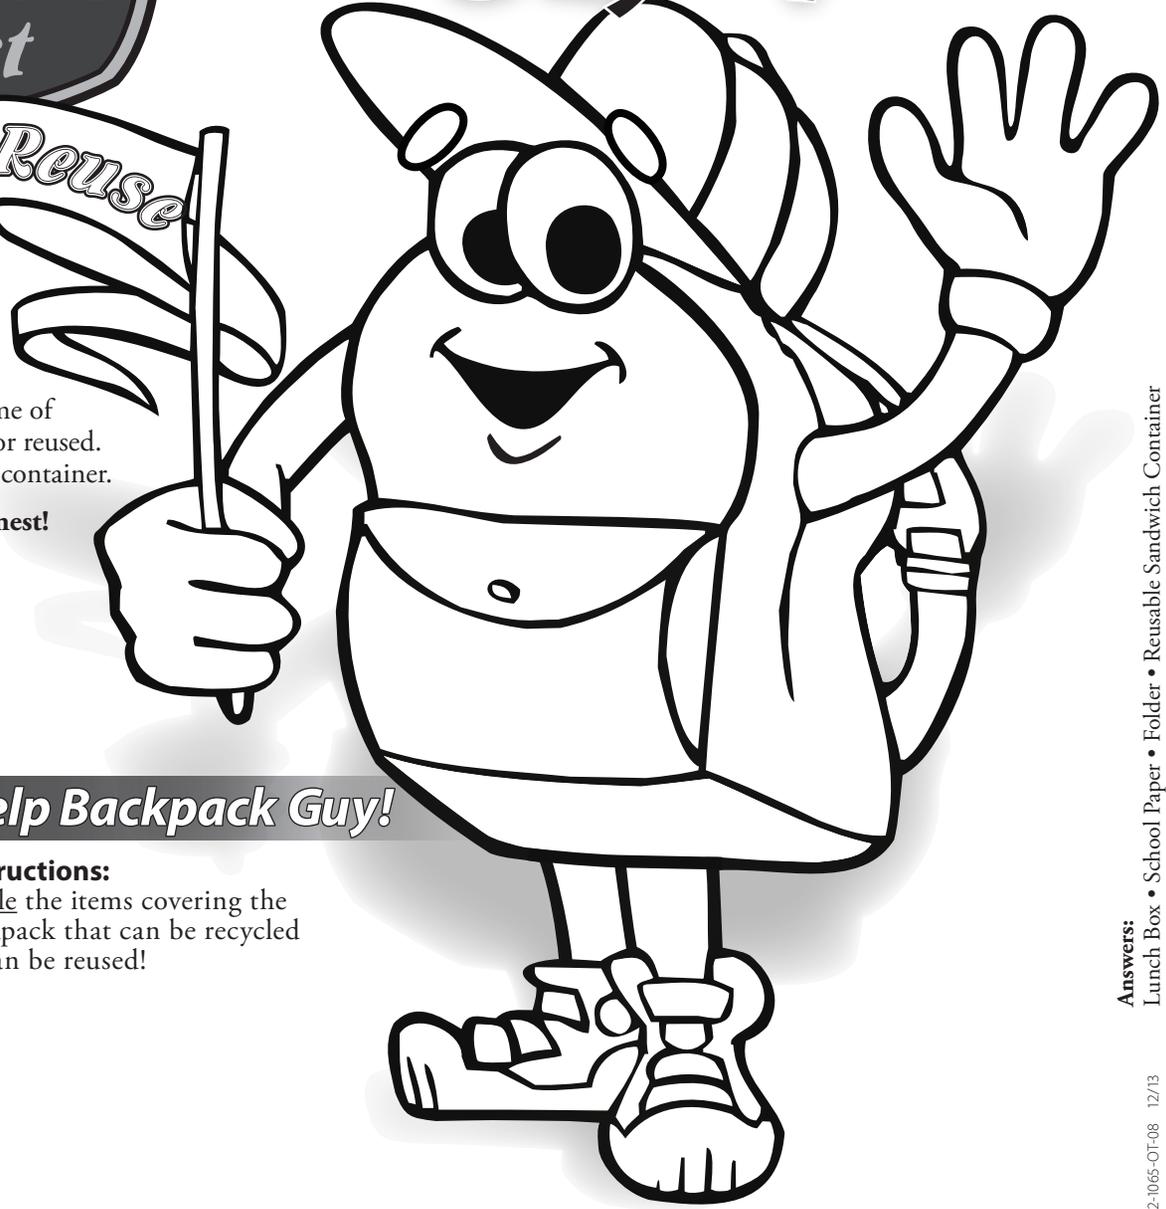

Now that is reusing at its finest!

Help Backpack Guy!

Instructions:
Circle the items covering the backpack that can be recycled or can be reused!
