This exclusion does not apply to rubbish, trash, garbage, or other such materials discharged overboard; nor to other discharges when the vessel is operating in a capacity other than as a means of transportation such as when a vessel is being used as an energy or mining facility, a storage facility, or a seafood processing facility, or is secured to the bed of the waters of the state for the purpose of mineral or oil exploration or development.

(2) Discharges of dredged or fill material into waters of the state and regulated under Section 404 of the Clean Water Act (33 U.S.C. 1344), except where the commissioner determines, on a case-by-case basis, that ~~such a~~ **the** discharge threatens to violate state water quality standards concerning toxic pollutants.

(3) The introduction of sewage, industrial wastes, or other pollutants into publicly owned treatment works by indirect dischargers. However, all applicable pretreatment standards promulgated under Section 307(b) and 307(c) of the Clean Water Act (33 U.S.C. 1317(b) and 33 U.S.C. 1317(c)) must also be complied with, and may be included in the permit to the publicly owned treatment works. Authority: IC 13-14-8; IC 13-15-1-2; IC 13-15-2-1; IC 13-18-3; IC 13-18-4

Affected: IC 13-18

Sec. 2. (a) ~~Persons~~ A person regulated by an applicable general permit and this article shall, at all times:

- (1) maintain in good working order; and
- (2) efficiently operate; ~~all~~

facilities and systems (and related appurtenances) for collection and treatment ~~which~~ **that** are installed or used by the person and ~~which~~ **that** are necessary for achieving compliance with the terms and conditions of the applicable general permit and this article.

(b) The following definitions, with regard to bypass of treatment facilities **and upsets**, apply throughout ~~this rule:~~ **the applicable general permit and this article:**

- (1) "Bypass" means the intentional diversion of a wastestream from ~~any~~ a portion of a treatment facility normally utilized for treatment of the wastestream.
- (2) "Severe property damage":

(A) means:

- (i) substantial physical damage to property;
- (ii) damage to the treatment facilities ~~which~~ **that** would cause them to become inoperable; or

(iii) substantial and permanent loss of natural resources; ~~which~~ **that** can reasonably be expected to occur in the absence of a bypass; ~~Severe property damage and~~

(B) does not mean economic loss caused by delays in production. ~~at the facility.~~

(3) "Upset", as used in this rule:

(A) means an exceptional incident in which there is unintentional and temporary noncompliance with an effluent limitation in the applicable general permit because of factors beyond the reasonable control of the responsible person; and

(B) does not include noncompliance to the extent caused by one (1) or more of the following:

- (i) Operational error.
- (ii) Improperly designed treatment facilities.
- (iii) Inadequate treatment facilities.
- (iv) Lack of preventive maintenance.
- (v) Careless or improper operation.

(c) A bypass ~~which causes, or is likely to cause, applicable effluent limitations to be exceeded~~ is prohibited **except as allowed under this subsection. The permittee may allow a bypass that does not exceed any effluent limitations contained in the general permit to occur but only if it also is for essential maintenance to ensure efficient operation. These bypasses are not subject to the requirements of subsection (d)(1) through (d)(3).**

(d) **The commissioner may take enforcement action against a permittee for a prohibited bypass unless the following conditions are met:**

- (1) Bypass is unavoidable to prevent loss of life, personal injury, or severe property damage.
- (2) There are no feasible alternatives to bypass, such as:
 - (A) the use of auxiliary treatment facilities;
 - (B) retention of untreated wastes; or
 - (C) maintenance during a normal period of equipment downtime.

This condition is not satisfied if adequate back up equipment should have been installed in the exercise of reasonable engineering judgment to prevent a bypass from occurring during normal periods of equipment down time or preventive maintenance.

(3) ~~The person~~ **permittee** submits notice of a **bypass according to the following:**

(A) An unanticipated bypass **must be reported** to the commissioner within twenty-four (24) hours of becoming aware of the bypass. If this information is provided orally, a written submission **also** must be provided within five (5) days. ~~Where~~

An anticipated bypass ~~which~~ **that** meets the criteria under this subsection may be allowed under conditions determined to be necessary by the commissioner to minimize any adverse effects.

~~(d) With regard to upset conditions, as used in this rule, "upset" means an exceptional incident in which there is unintentional and temporary noncompliance with the requirements of the applicable general permit rule because of factors beyond the reasonable control of the responsible person. An upset does not include Noncompliance to the extent caused by any of the following:~~

- ~~(1) Operational error.~~
- ~~(2) Improperly designed treatment facilities.~~
- ~~(3) Inadequate treatment facilities.~~
- ~~(4) Lack of preventive maintenance.~~
- ~~(5) Careless or improper operation.~~

(e) An upset ~~shall constitute~~ **constitutes** an affirmative defense to an action brought for noncompliance with ~~such~~ effluent limitations if the requirements under subsection ~~(d)~~ **(b)** are met.

(f) A ~~person~~ **permittee** regulated under **an applicable general permit** or this article who wishes to establish the affirmative defense of upset shall demonstrate, through properly signed, contemporaneous operating logs or other relevant evidence, the following:

- (1) An upset occurred and the ~~regulated person has identified~~ **permittee can identify** the ~~specific cause~~ **or causes** of the upset. ~~if possible.~~
- (2) The ~~permitted~~ **facility** was, at the time, being **properly** operated. ~~in compliance with proper operation and maintenance procedures.~~
- (3) The ~~regulated person~~ **permittee** complied with any remedial measures required under section ~~1(d)~~ **1(c)** of this rule.
