

TITLE 327 WATER POLLUTION CONTROL DIVISION

Rule Information Sheet

City of Angola Chloride Variance Update
LSA Document #22-110

Overview

This rulemaking updates 327 IAC 2-1.5-17 to reflect Angola's most recent final approved chloride variance limits for the monthly average and daily maximum limits. Currently, 327 IAC 2-1.5-17 references Angola's variance limits for chloride that were originally approved in 2012. This rulemaking will update the chloride variance limits to reflect the most recent final approved variance limits that have already been incorporated into the NPDES permit.

Affected Persons

This rulemaking will only have an impact on the City of Angola.

Reasons for the Rule

This rulemaking updates 327 IAC 2-1.5-17 to reflect Angola's most recent final approved chloride variance limits. This will allow the state rule to be consistent with the current NPDES permit.

Economic Impact of the Rule

This rulemaking will not have a fiscal impact to the source as it is simply reflecting the variance limitations that have already been incorporated by reference into the City of Angola's current NPDES permit.

Scheduled Board Action and Hearings

First Public Hearing: June 8, 2022, at 1:30 p.m., at the Indiana Government Center South, 10 North Senate Avenue, Conference Center Room A, Indianapolis, Indiana, 46204.
