

Online Services Virtual File Cabinet

IDEM provides internet access to more than 2 million agency public records 24 hours a day, seven days a week through its [Virtual File Cabinet \(VFC\)](#). Instant access to agency public records exceeds the requirements of Indiana's [Access to Public Records Act](#). IDEM diligently strives to maintain current and accurate information in this electronic public record repository, and its staff continues to scan and add records daily.

Document Search Tips

Document Search Tips

When using “Document Search,” the system will search Virtual File Cabinet to provide results based on the search criteria.

If you know the Document #, enter it in the “Search By Document #” field at the top right of the VFC’s Document Search page. Click the “Go” button to find that document.

For Construction Stormwater Searches use the following link:
<https://stormwater.idem.in.gov/nsite>

Map results may be limited

If you want to find all documents related to a specific location, you can search by Agency Interest ID # (a unique value that IDEM uses to identify a specific location). *If you don't know the Agency Interest ID #, you can find it via a “Facility Search” (see instructions under “Facility Search Tips” on page __ of this document).*

If you know the Agency Interest ID # you have two options for searching.

1. Select “Agency Interest ID” in the dropdown menu next to “Alternate Field” on the left. Enter the Agency Interest ID # in the “ID #” field to the right. Click on the “Search” button to obtain the results.

Facility Search Tips

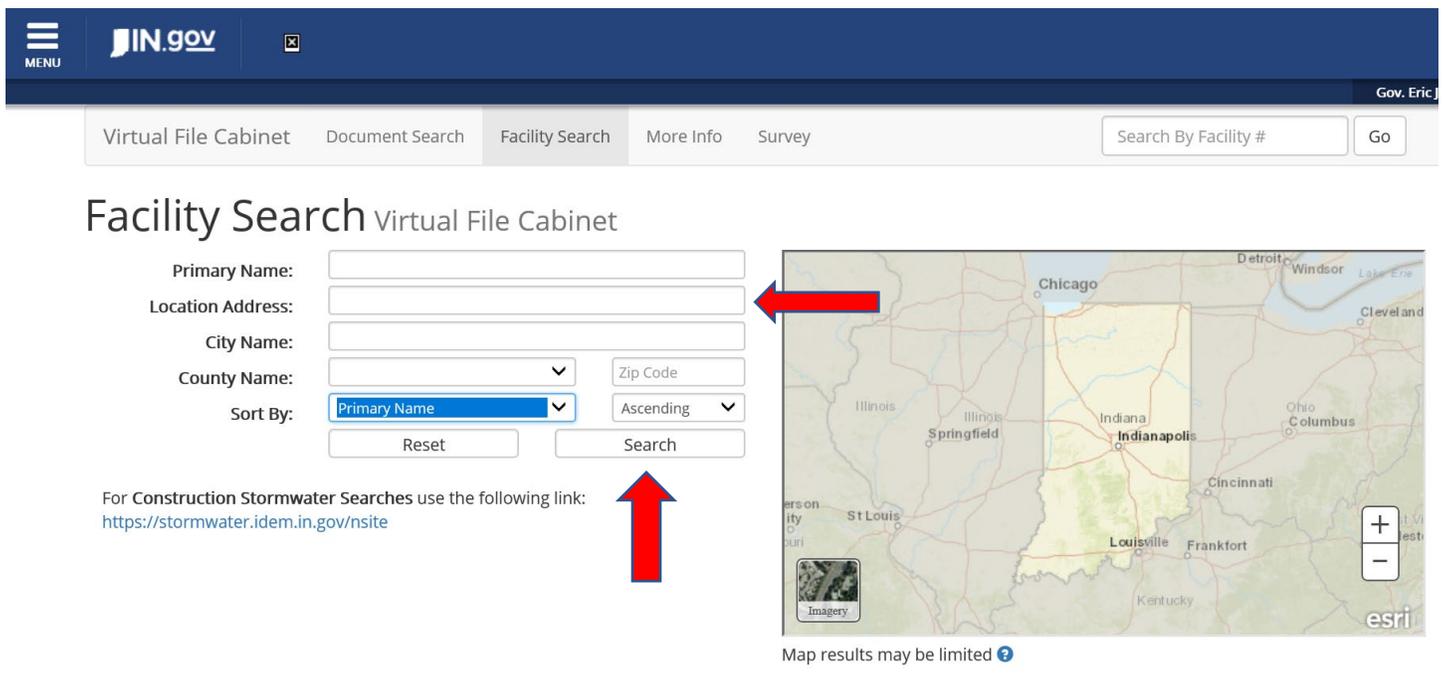

When using “Facility Search,” the system will search the Agency’s database to provide results based on the search criteria. Therefore, it is helpful to begin a search by entering a partial value in one search field. For example, in the “Location Address” field enter “123” instead of “123 Way Street,” or in the “Primary Name” field enter “XYZ” instead of “XYZ Factory Corporation.”

To conduct a Facility Search, click on the “Facility Search” tab at the top of the VFC home page.

The screenshot shows the top navigation bar with the 'Facility Search' tab selected. Below the navigation bar, there are search filters for 'Virtual File Cabinet', 'Document Search', 'Facility Search', 'More Info', and 'Survey'. A search box labeled 'Search By Facility #' and a 'Go' button are also present. The main content area is titled 'Facility Search Virtual File Cabinet' and contains several input fields: 'Primary Name', 'Location Address', 'City Name', 'County Name', 'Zip Code', and 'Sort By'. The 'Sort By' dropdown is set to 'Primary Name' and the 'Ascending' dropdown is set to 'Ascending'. There are 'Reset' and 'Search' buttons. A red arrow points to the 'Primary Name' field. Below the form, there is a link for construction stormwater searches: <https://stormwater.idem.in.gov/nsite>. To the right of the form is a map of the United States with a red arrow pointing to the 'Location Address' field. The map shows the state of Indiana highlighted in yellow. Below the map, there is a note: 'Map results may be limited'.

To begin a Facility Search, either enter the numerical part of the address in the “Location Address” field. Click on the “Search” button for the results.

The screenshot shows the same 'Facility Search' interface as above. A red arrow points to the 'Location Address' field. Another red arrow points to the 'Search' button. The 'Sort By' dropdown is now set to 'Primary Name'. The map on the right is the same as in the previous screenshot, showing the state of Indiana highlighted in yellow. Below the map, there is a note: 'Map results may be limited'.

If the list is so large that you cannot find what you are looking for, refine your search by entering a city name in the “City Name” field. Then click on the “Search” button.

If you need to refine your search further, enter part of the facility's name in the "Primary Name" field and click on the "Search" button. Continue refining your search as needed.

If you are looking for the Agency Interest ID # (AI ID), click [Search](#) and it will be in the right column of the results.

The list of facility locations used by the VFC includes all past and present agency-interest locations, some of which do not have documents in the VFC. Sometimes facilities appear in the results when there are no actual documents available to view.

There may be documents relating to a “Location Address” that are not in the VFC. If you want to be certain that you obtain all potential documents relating to a “Location Address,” you will need to submit a public record request.

Redacted Records

IDEM sometimes receives records that contain both public and confidential information. The agency is required to make the public portions of the records available for inspection and copying. IDEM will add such records to the VFC with confidential information redacted (i.e., the agency will black out confidential information to make it illegible).

Public Record Requests

If you want to view or receive copies of IDEM public records, please consult the Office of Records Management’s [Public Records](#) page for instructions on how to make a public record request. If you need assistance with locating documents in the VFC, please contact the Office of Records Management.

Searching Using Digital Maps

There are two public website options for seeing environmental sites/activities on a map. Both websites can search by address.

IndianaMap – Official Indiana state GIS atlas hosted by the Indiana Geological and Water Survey. IDEM provides limited-attribute datasets of the agency’s sites which they classify as part of the Environment Layer Gallery. Public users can see site locations, but information about the status and regulatory history of the sites is not shown on the site.

EnviroMapper – EPA’s environmental mapping site using data derived from EPA databases. The site doesn’t include information from IDEM’s state-regulated programs, but does provides the ability to get more detailed information about sites from within the application which can’t be done in IndianaMap.

[IndianaMap \(https://maps.indiana.edu/\)](https://maps.indiana.edu/) - IndianaMap is Indiana’s official online atlas.

Adding IDEM Data on the Map

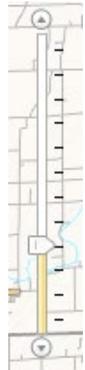

To add data to your IndianaMap, click the **Add Content** button  and click on a category to expand it. IDEM data is in the **Environment** category. Check the box next to any dataset you want on your map. When you are done selecting layers, click the **Add Content** button  or the Close box  to close the content selector.

Click the Legend button  to toggle the map legend on or off to see what the map icons and colors represent.

Navigating the Map

Zoom – You can make the map larger or smaller by using your mouse scroll wheel, trackpad vertical swipe, or the zoom control on the left side of your IndianaMap.

Pan – You can move the map area by clicking on the map and holding the left button on mouse or trackpad while you drag the map area.

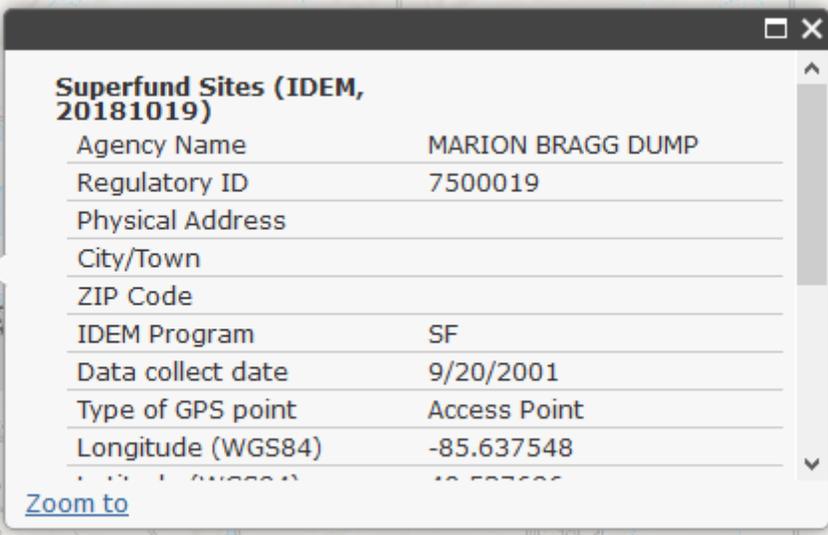

Map Tools

The top menu bar has several useful tools for customizing your map.

Identify tool  – Displays detailed information about a selected item

Click on the Identify tool icon, then click on the map icon of interest and a box showing more information will appear.

The screenshot shows an information window titled "Superfund Sites (IDEM, 20181019)". It contains the following data:

Agency Name	MARION BRAGG DUMP
Regulatory ID	7500019
Physical Address	
City/Town	
ZIP Code	
IDEM Program	SF
Data collect date	9/20/2001
Type of GPS point	Access Point
Longitude (WGS84)	-85.637548

At the bottom of the window, there is a "Zoom to" link.

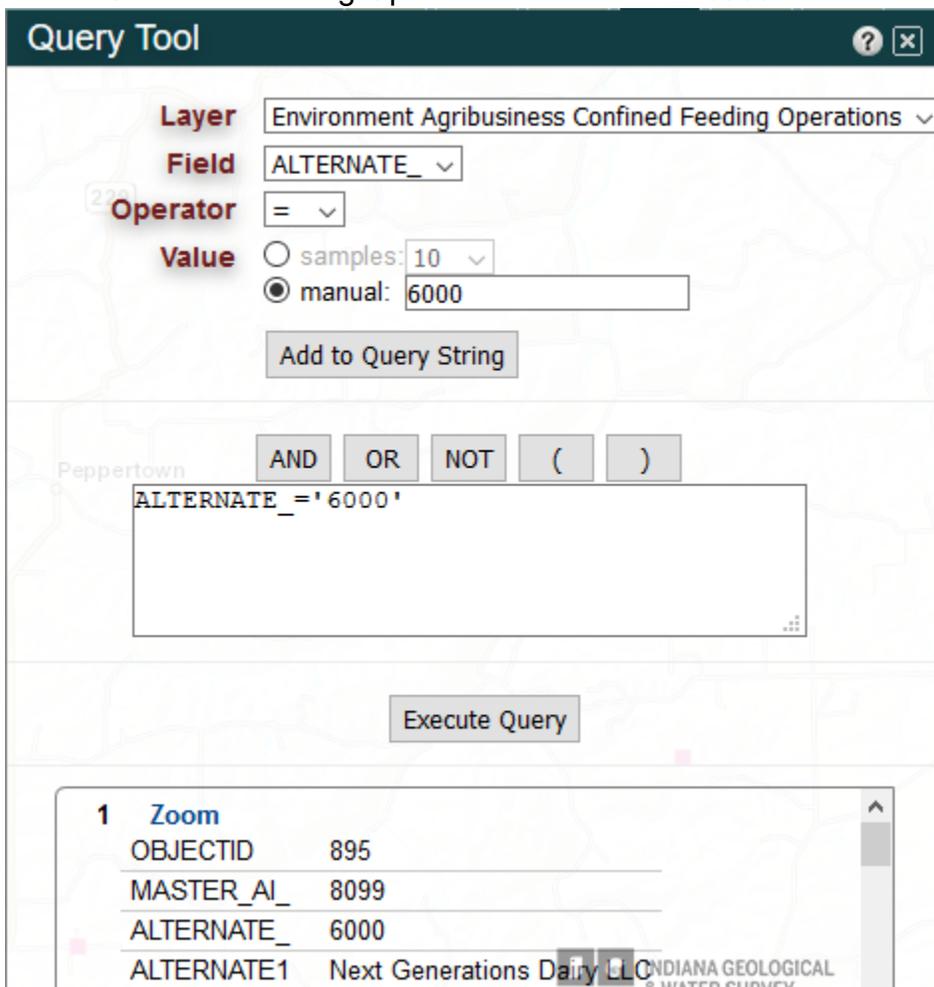

To close the information box, click the Close button  in the upper right of the window.

Draw tool  – Add graphic and text annotation to your map. You can also create a custom buffer around a point, line, or area by setting the buffer distance, clicking the **Buffer** button and then clicking the spot that you want to buffer.

Measure tool  – Measure areas and distances or get the spatial coordinates of a location.

Query tool  – Create a custom query to search for data within a layer.

1. Click the Query Layers button to open the tool
2. Select the Layer you want to query.
3. Select the Field you want to query.
4. Select the Operator. For well-defined values such as a permit number or program ID, use “=” for searching names use “LIKE.”
5. Set the Value.
 - a. Select a value from the “samples” drop down; or
 - b. Click the Value Manual button and enter the value you are searching for in the box.
6. Click “Add to Query String.”
7. Click **Execute Query** to run the query and show results. The example below shows a search for the Confined Feeding Operation with Farm ID 6000.

1 Zoom	
OBJECTID	895
MASTER_AI_	8099
ALTERNATE_	6000
ALTERNATE1	Next Generations Dairy LLC

8. You can add additional criteria to your query by building another query string and adding it using “AND,” “OR,” or “NOT” logic to your query.

Share Map Tool  – Create a custom link to share with others

The tool captures the active layers as well as the map extent and zoom level in a URL that can be opened in a web browser. **Note: any annotation that you have added with the Draw tool will not appear with the shared link. To share annotation, you have added to the map, use the Print tool.**

1. Click the Share Map button
2. Copy (Ctrl C or right mouse click and select copy) either the “Detailed Link” or the “Short Link”
3. Paste the URL into an email to share with others or into another document to save to access the map at another time

Print tool - Print a custom map; add a title, author, and select from a list of layouts by downloading a PDF, PNG32, or JPG file to print

1. Click the Print Tool button.
2. The print tool will open a map preview window.
3. Enter the Map Title, Author Name, and select the desired layout.
4. Click the “Download Your Map” button.

EnviroMapper (<https://enviro.epa.gov/enviro/em4ef.home>)

EnviroMapper is a map for browsing data in EPA databases and other data sources, such as IndianaMap and IDEM data.

On the main EnviroMapper screen, enter a starting point for your map, such as a street address (e.g., 123 Main St, Somewhere, Indiana), city name, county name, ZIP Code, or the name of a well-known entity (e.g., Turkey Run State Park) and press the Enter key or click the magnifying glass icon. **Note: EnviroMapper is a national database so if you use an address, city, or county, you will also need to enter “IN” or “Indiana.”**

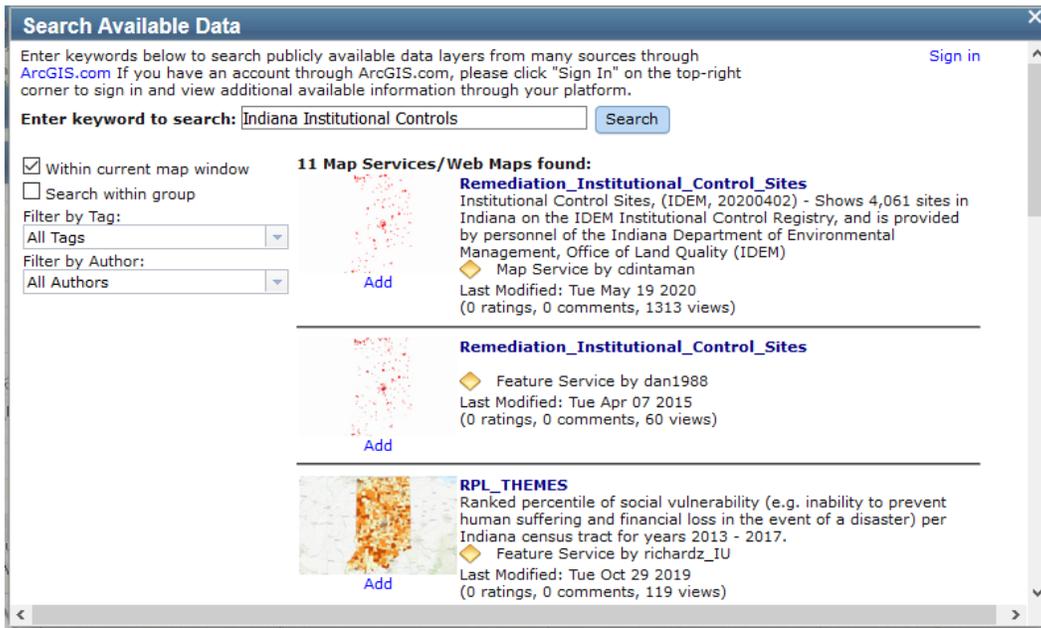

A blank map will appear which you can customize with the following tools.

Basemap  – use this to change the background map

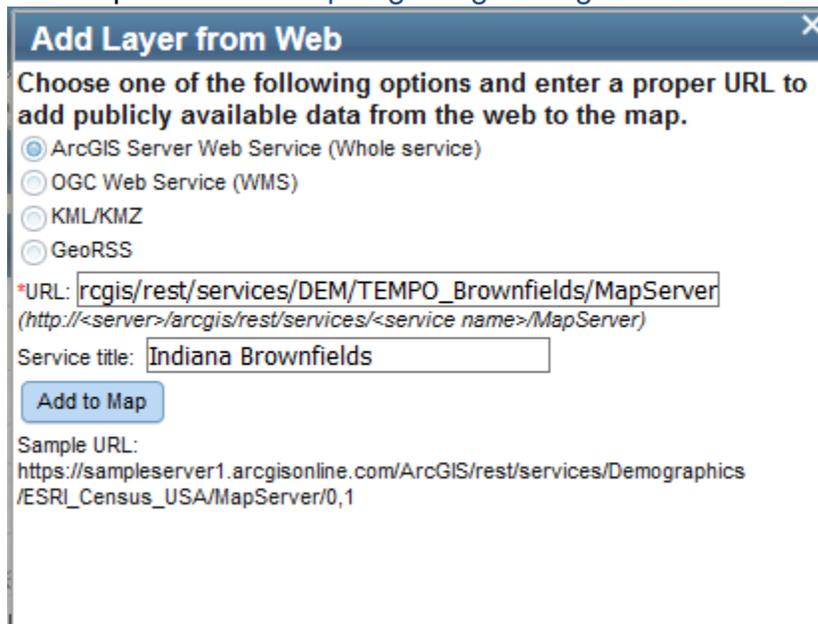

Tools  - Add imagery (e.g., aerial or satellite photos), print the map, or use the measure tool to measure distances, calculate areas, or get a coordinate

More Data  - Add additional data.

- Additional Data Layers – Base data from EPA
- Search Available Data – The easiest way to find data. Search with “Indiana” to get Indiana state-specific data. Once you have found data you want, click the **Add** button. The map layer will appear on your map.

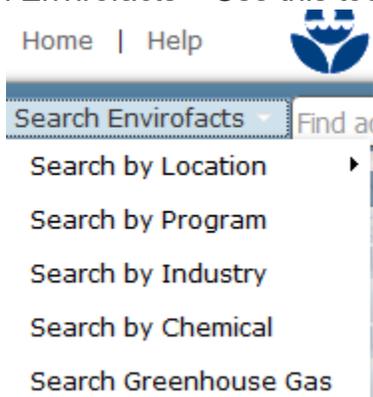

- Add Layer from Web – Requires the web address of the data. You can find Indiana State Government data sources by opening one of the links below, finding a data set, copying and pasting the dataset URL into the *Add Layer from Web* URL: box, and clicking the **Add to Map** button (the example below shows adding Indiana Brownfields).
 - State of Indiana data (including IDEM): <https://gis.in.gov/arcgis/rest/services>
 - IDEM-specific data: <https://gis.in.gov/arcgis/rest/services/DEM>

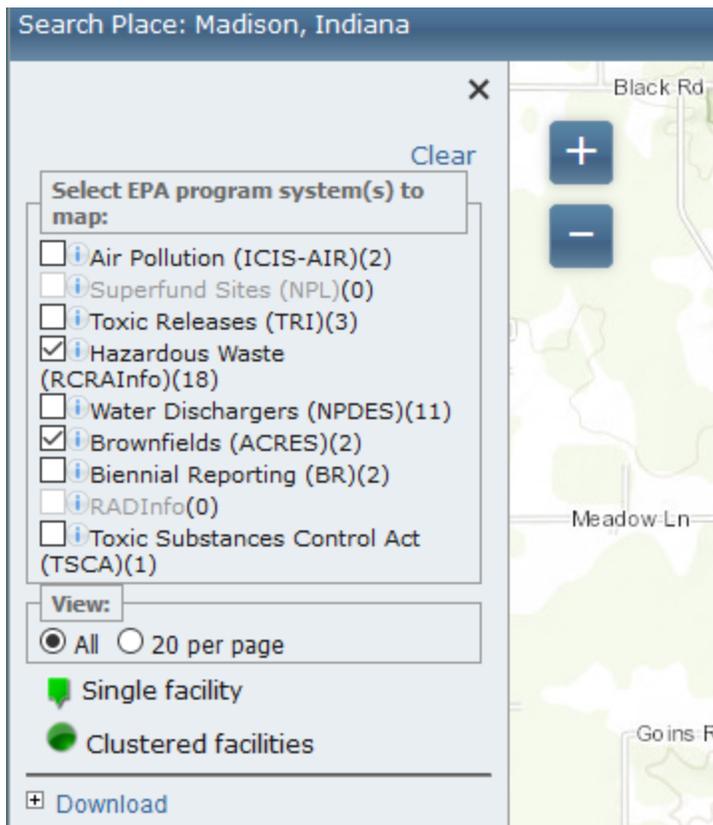

A legend with the data you added will appear along the right side of the map.

Search Envirofacts – Use this tool to find EPA data using one of the following options:

Once you select an option and choose the search criteria, a legend will appear along the left side of the map with controls for viewing the data selected.

Navigating the Map

Zoom – You can make the map larger or smaller by using your mouse scroll wheel, trackpad vertical swipe, or the zoom control on the left side of your EnviroMapper map.
Pan – You can move the map area by clicking on the map and holding the left button on your mouse or trackpad while you drag the map area.

Finding More Information

Click on a map icon to see more information about that location.

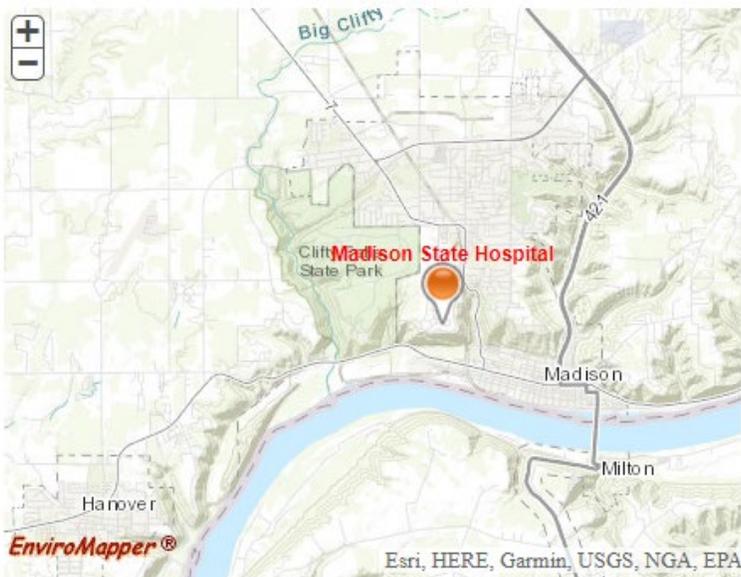

Clicking on the facility name hyperlink opens the Envirofacts summary record for the facility.
